

QTL analysis for WT families only for Al_leaf

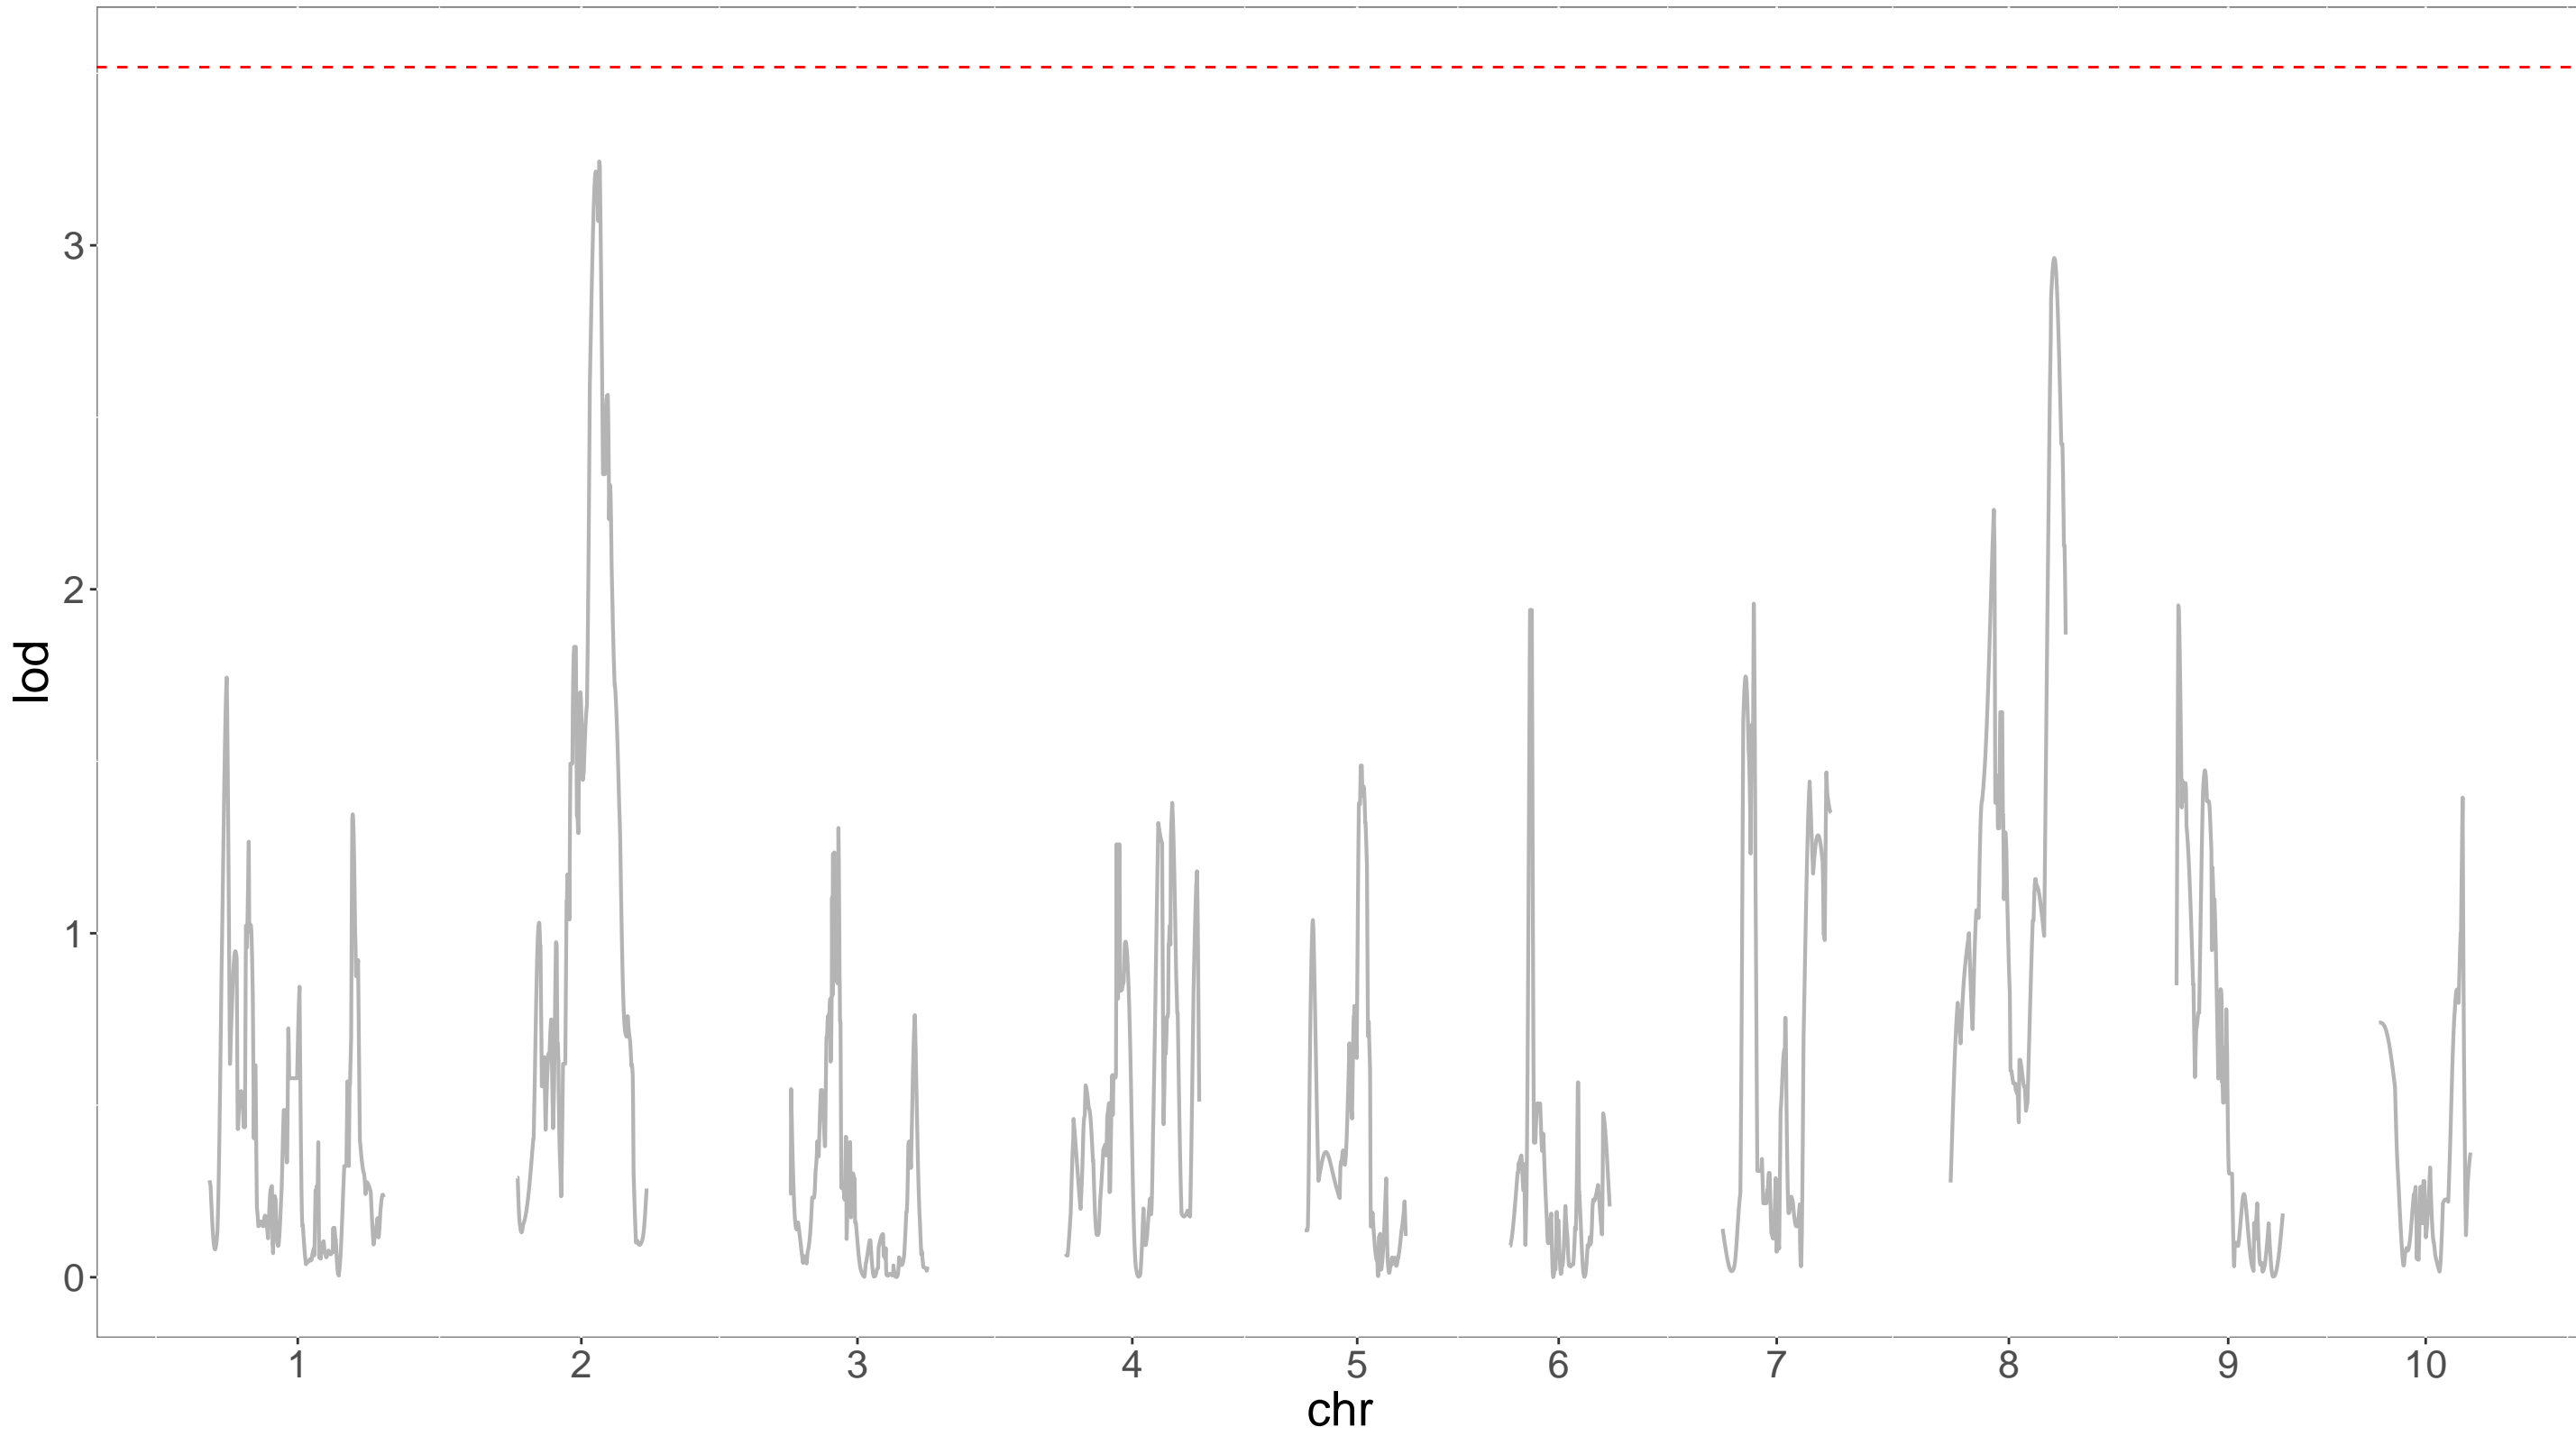

QTL analysis for WT families only for Al_seed

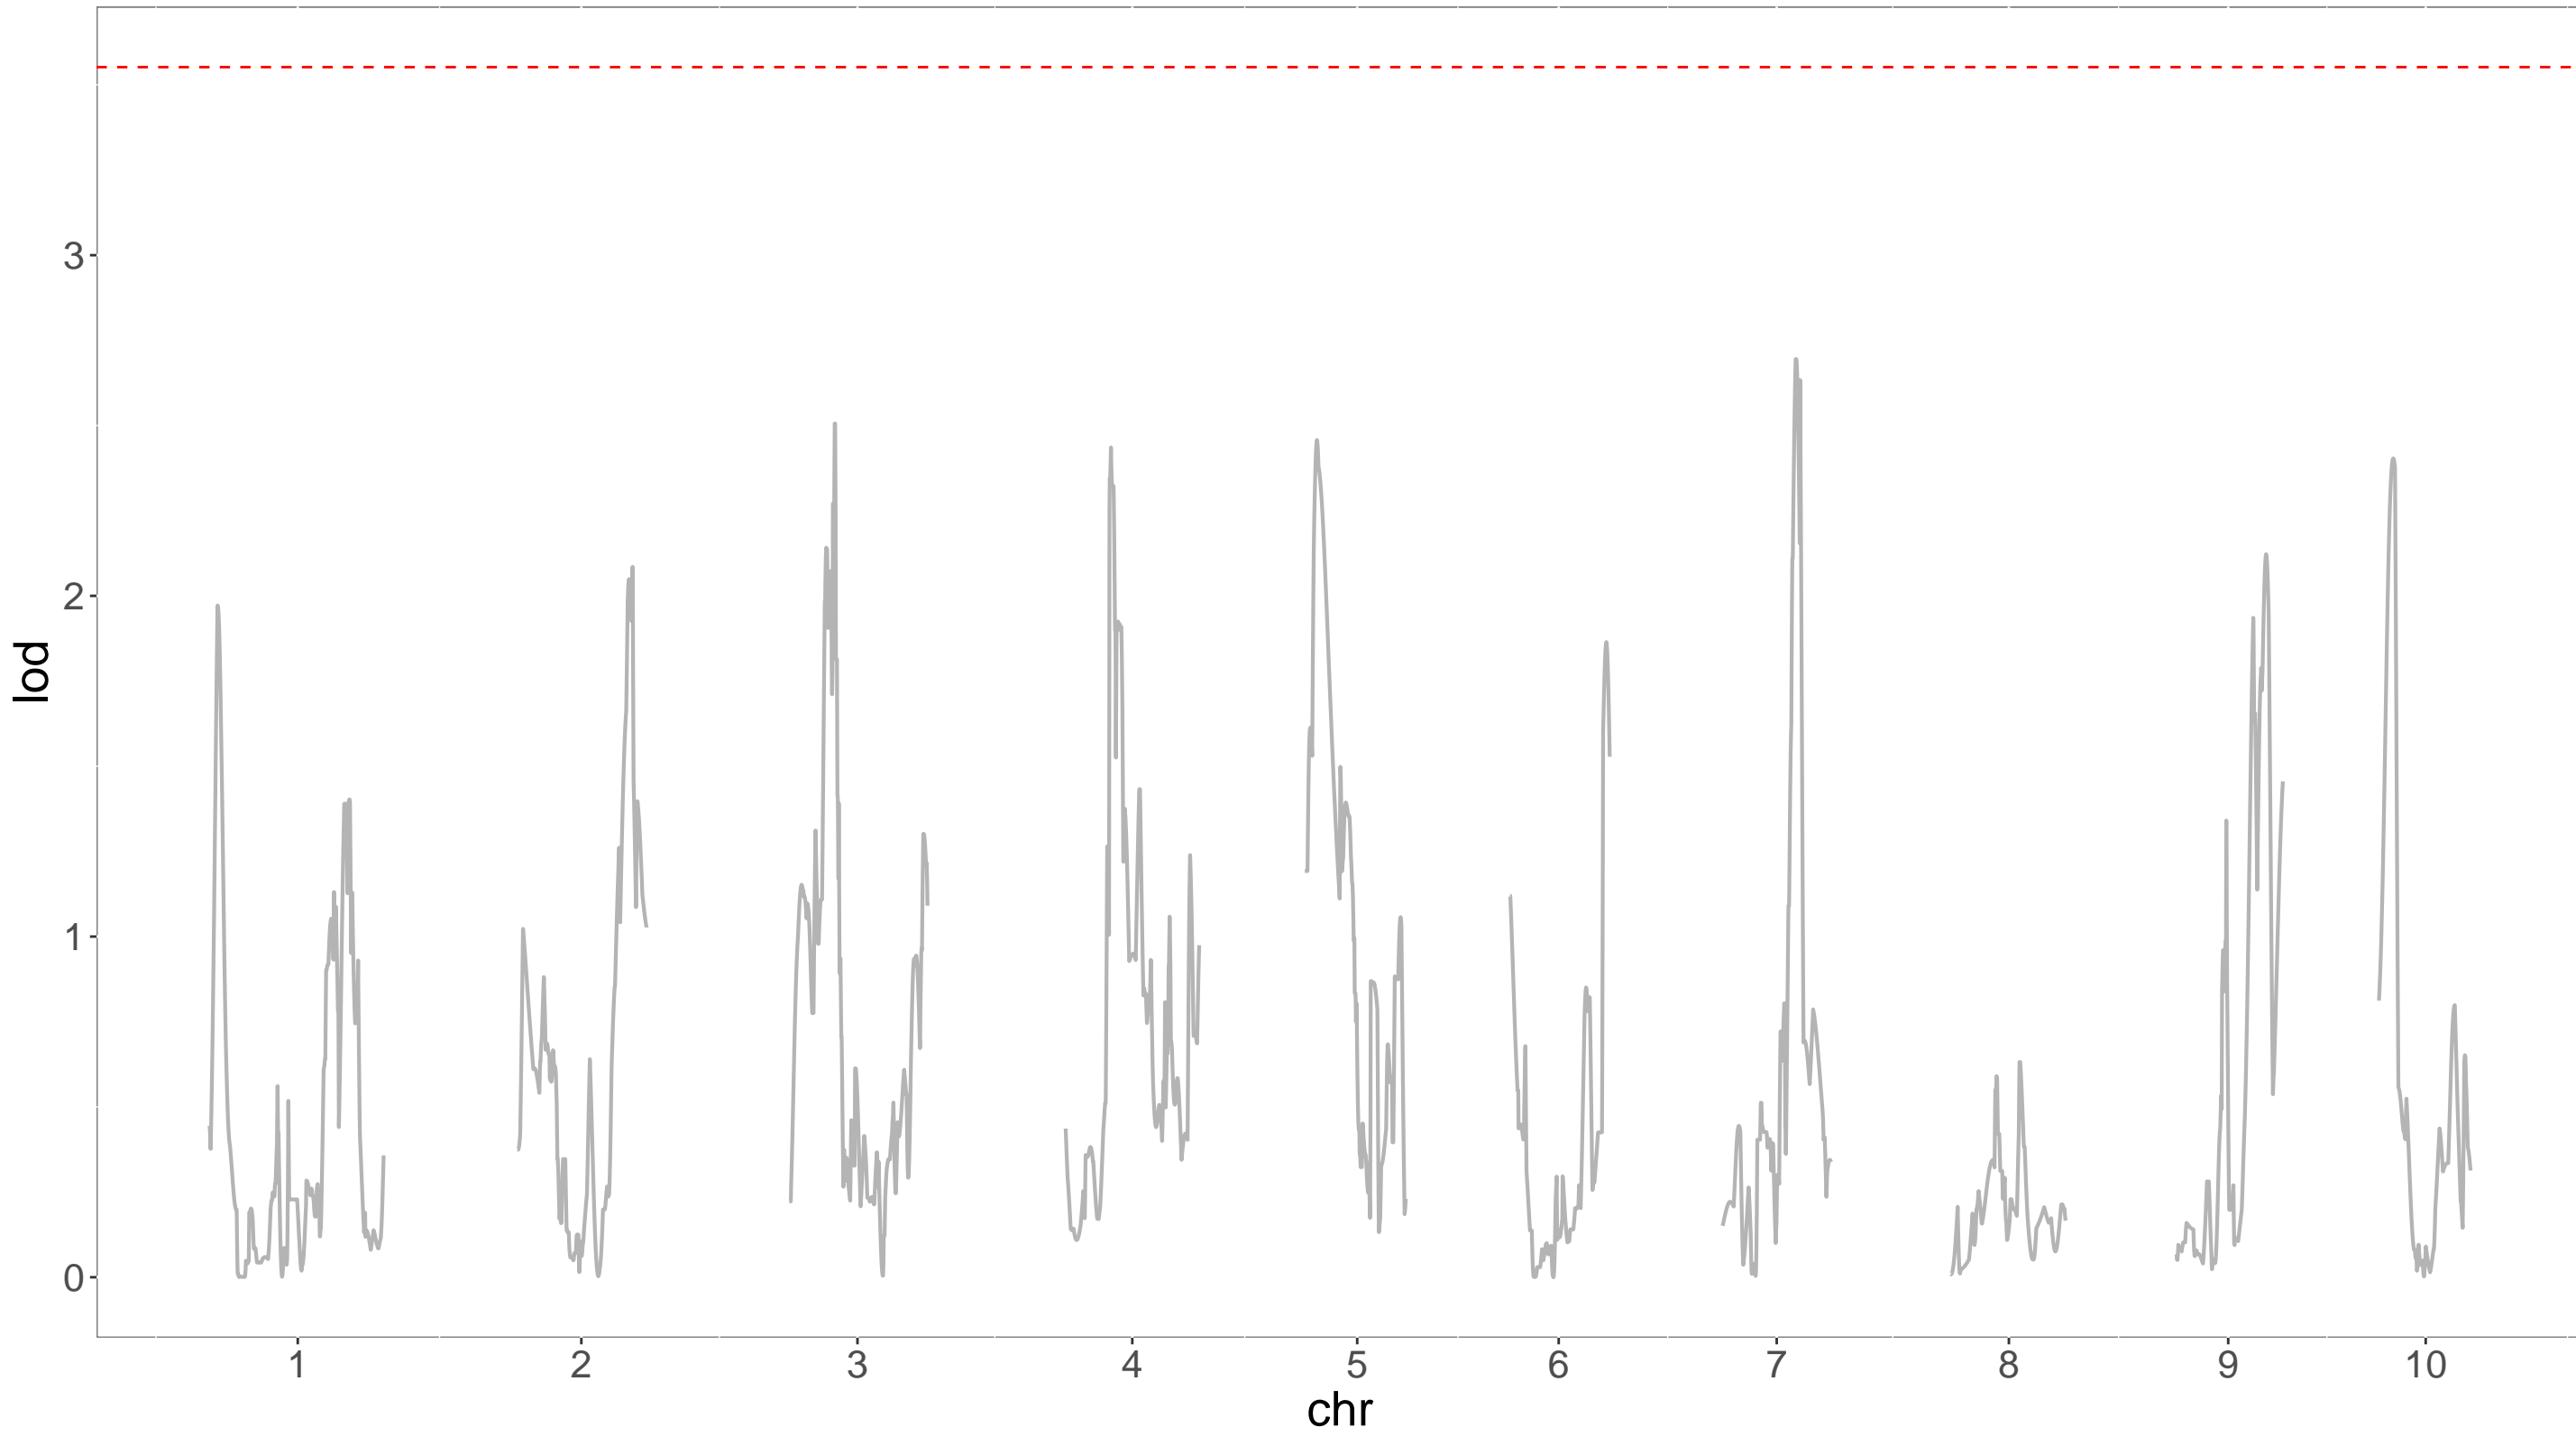

QTL analysis for WT families only for As_leaf

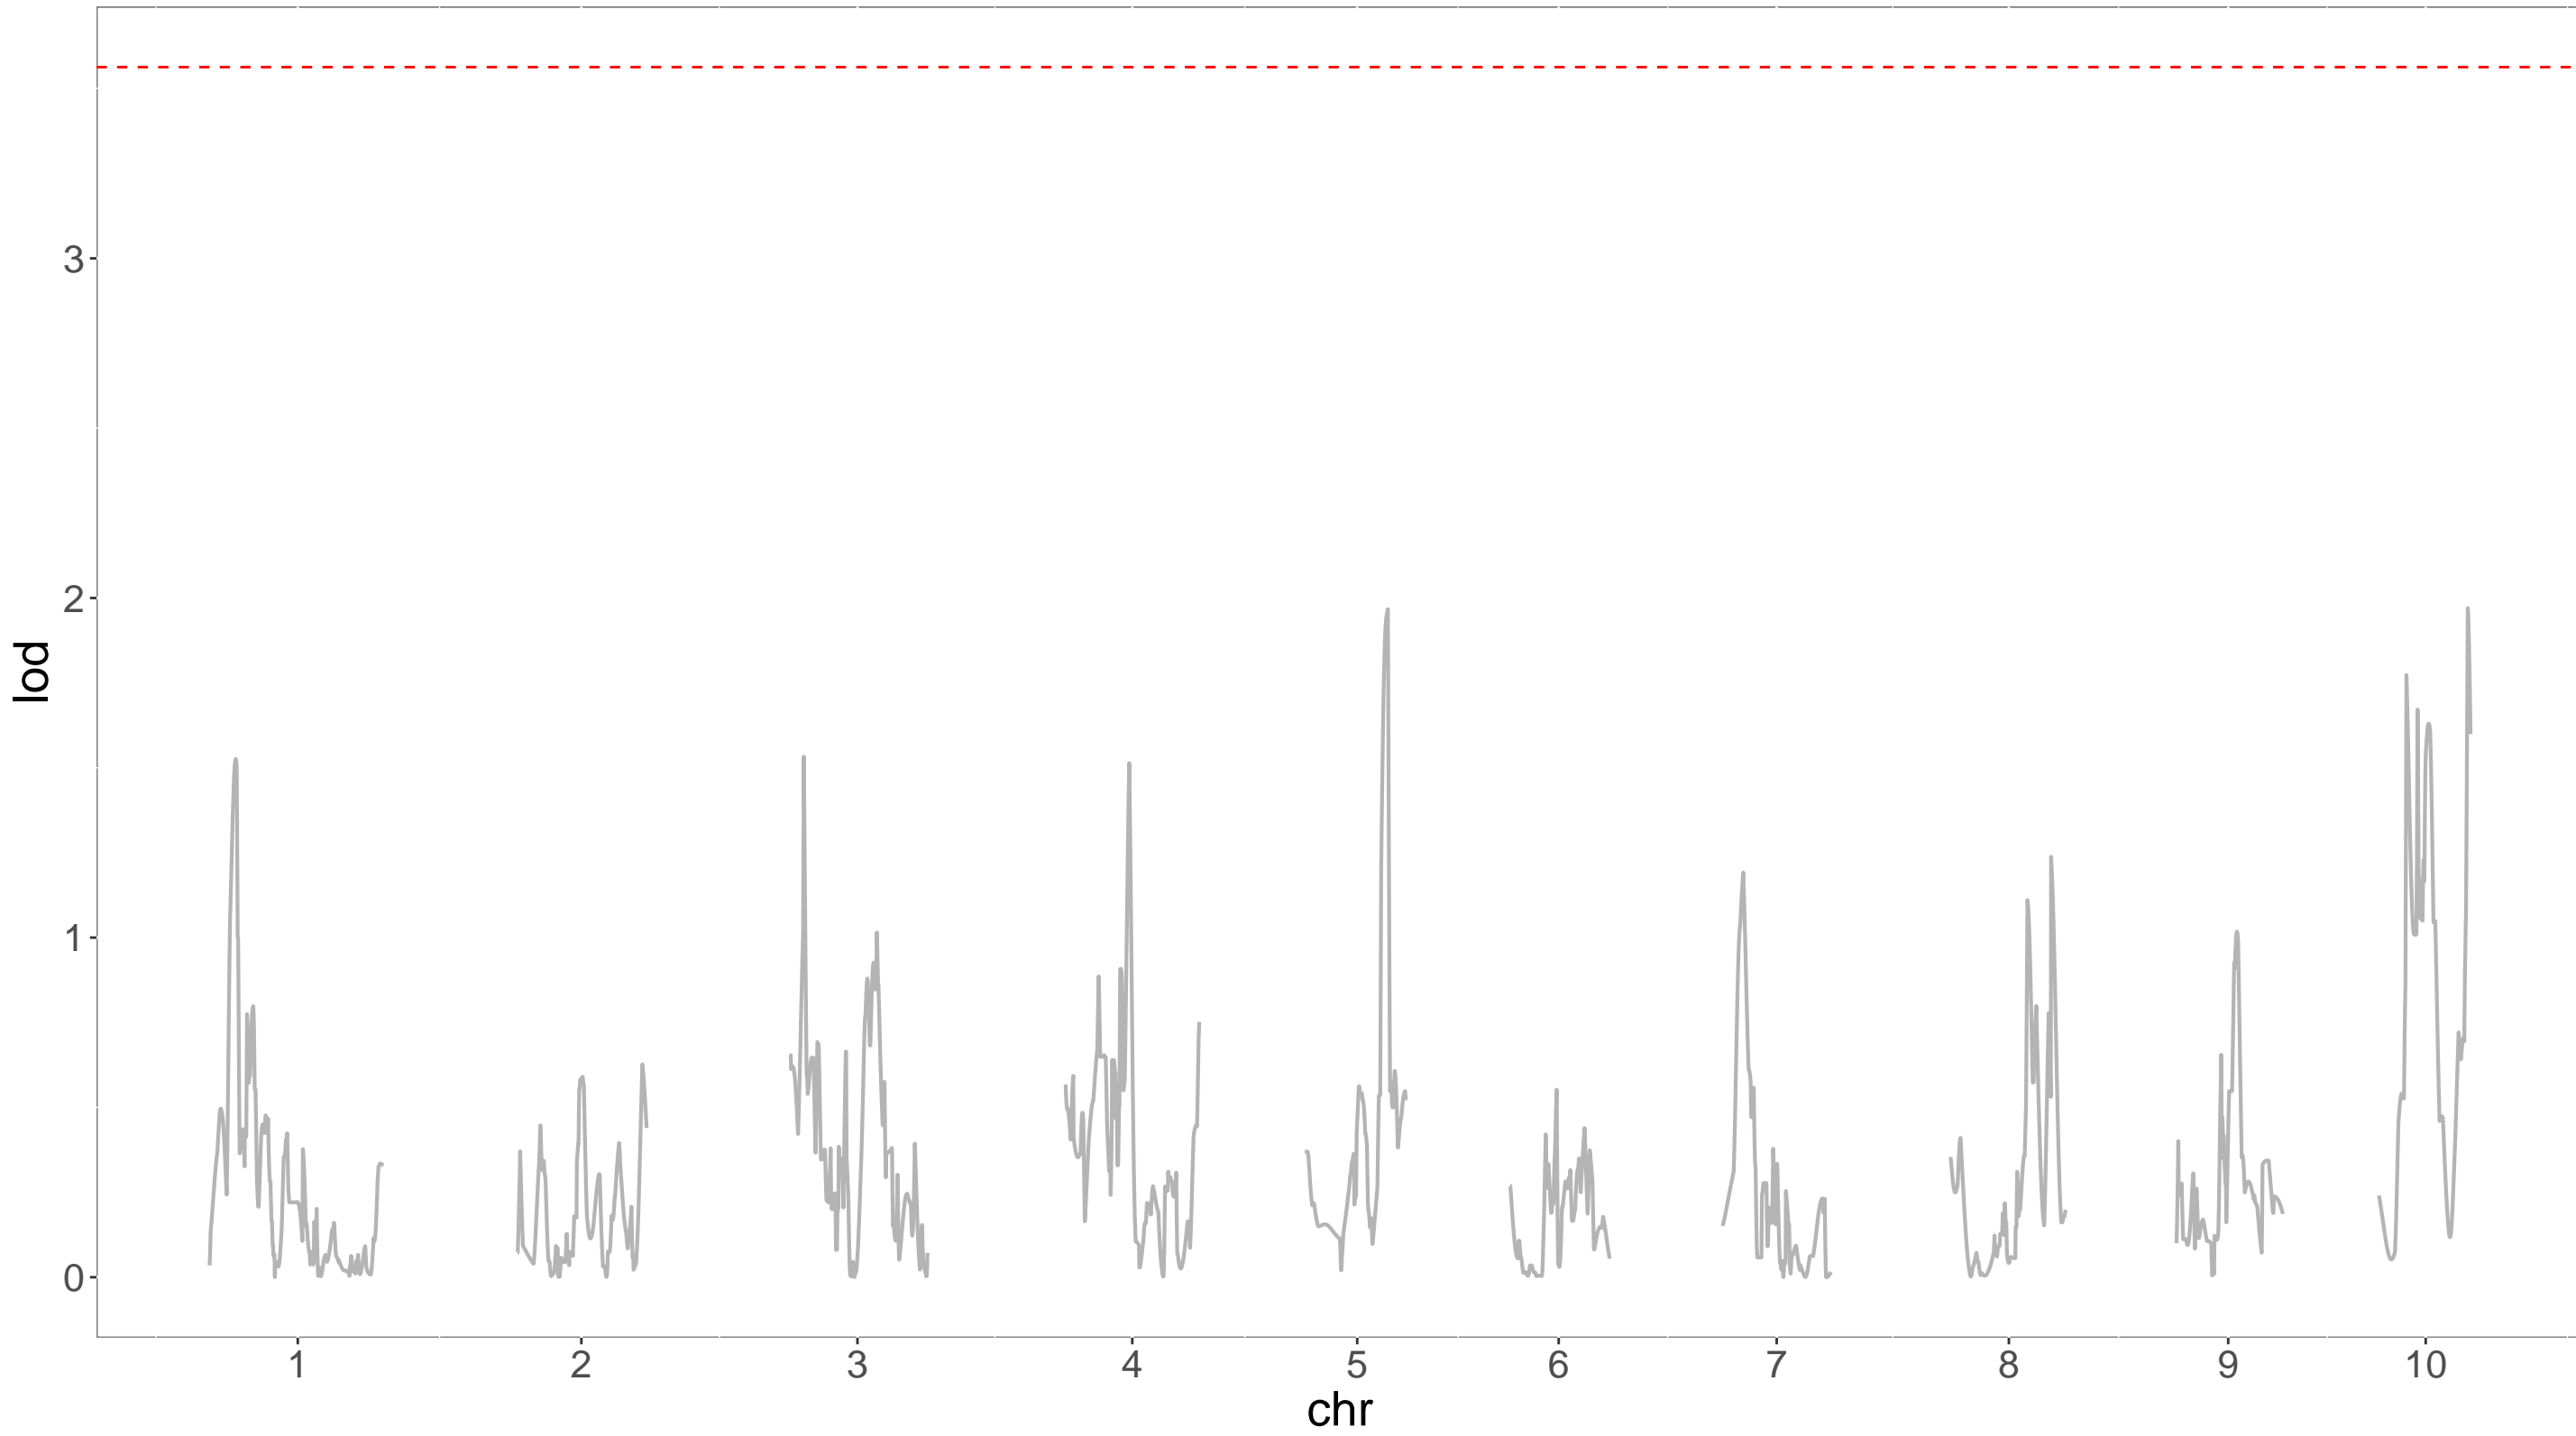

QTL analysis for WT families only for As_seed

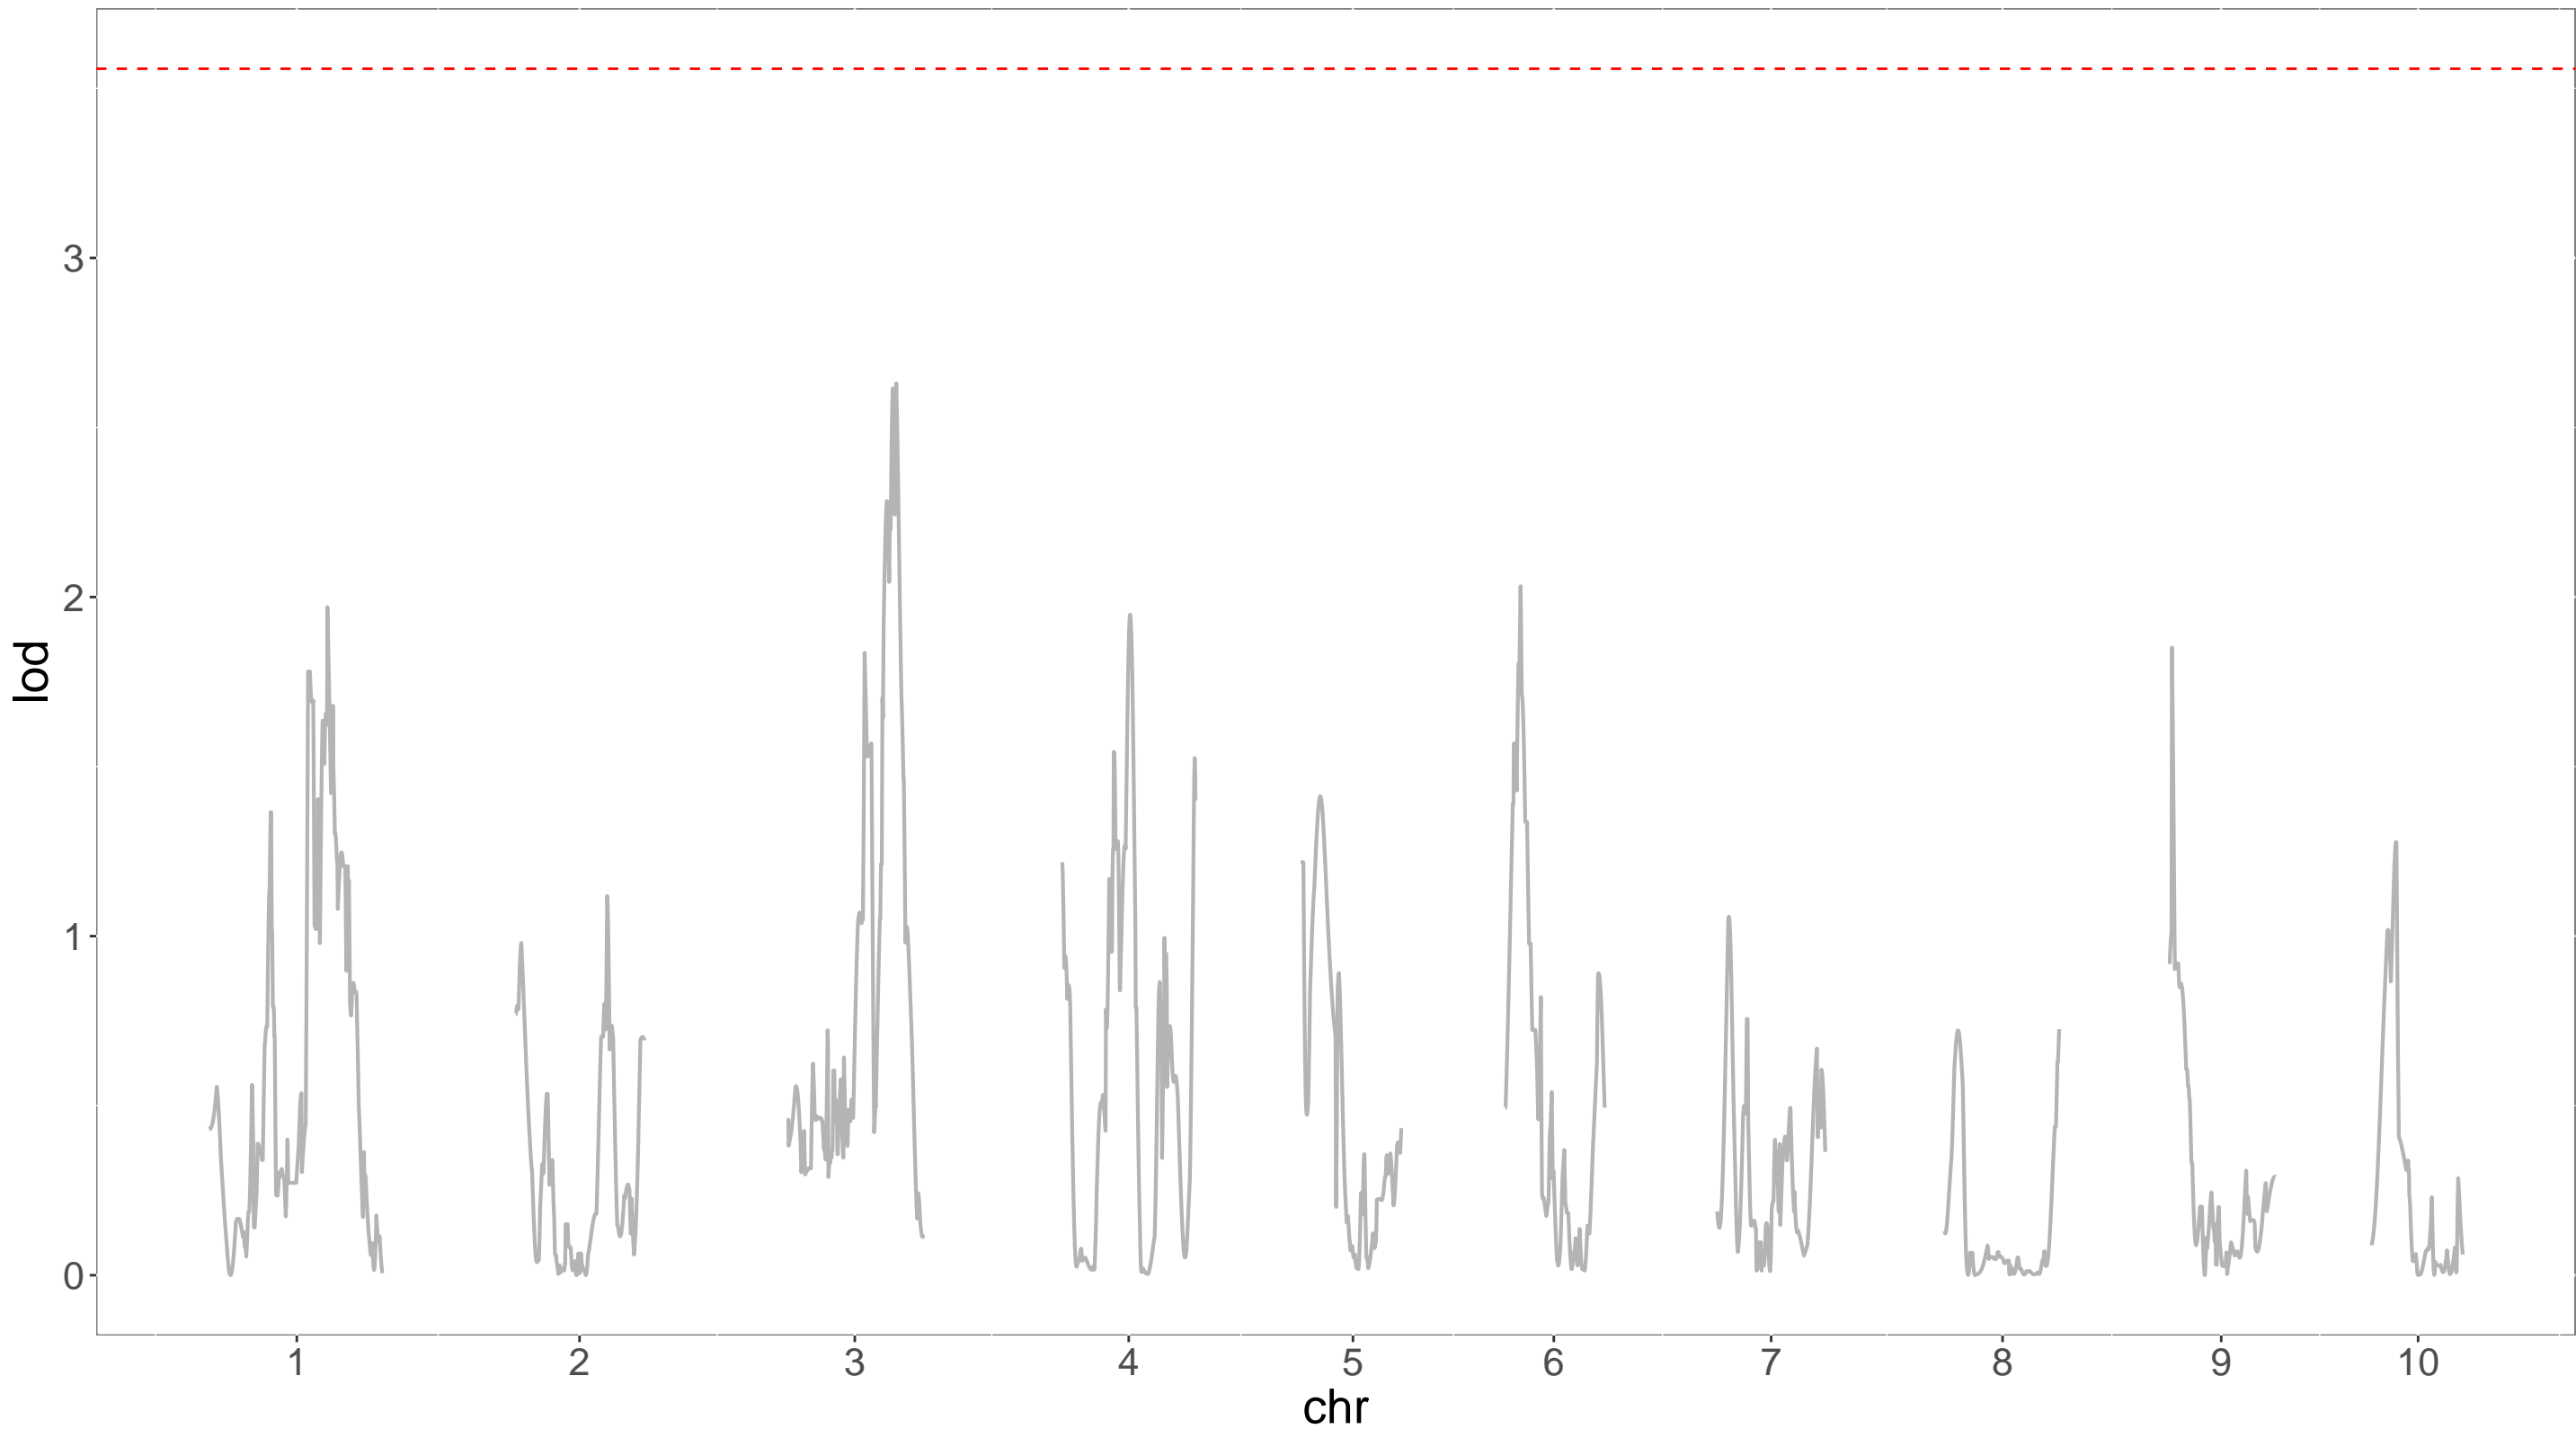

QTL analysis for WT families only for B_leaf

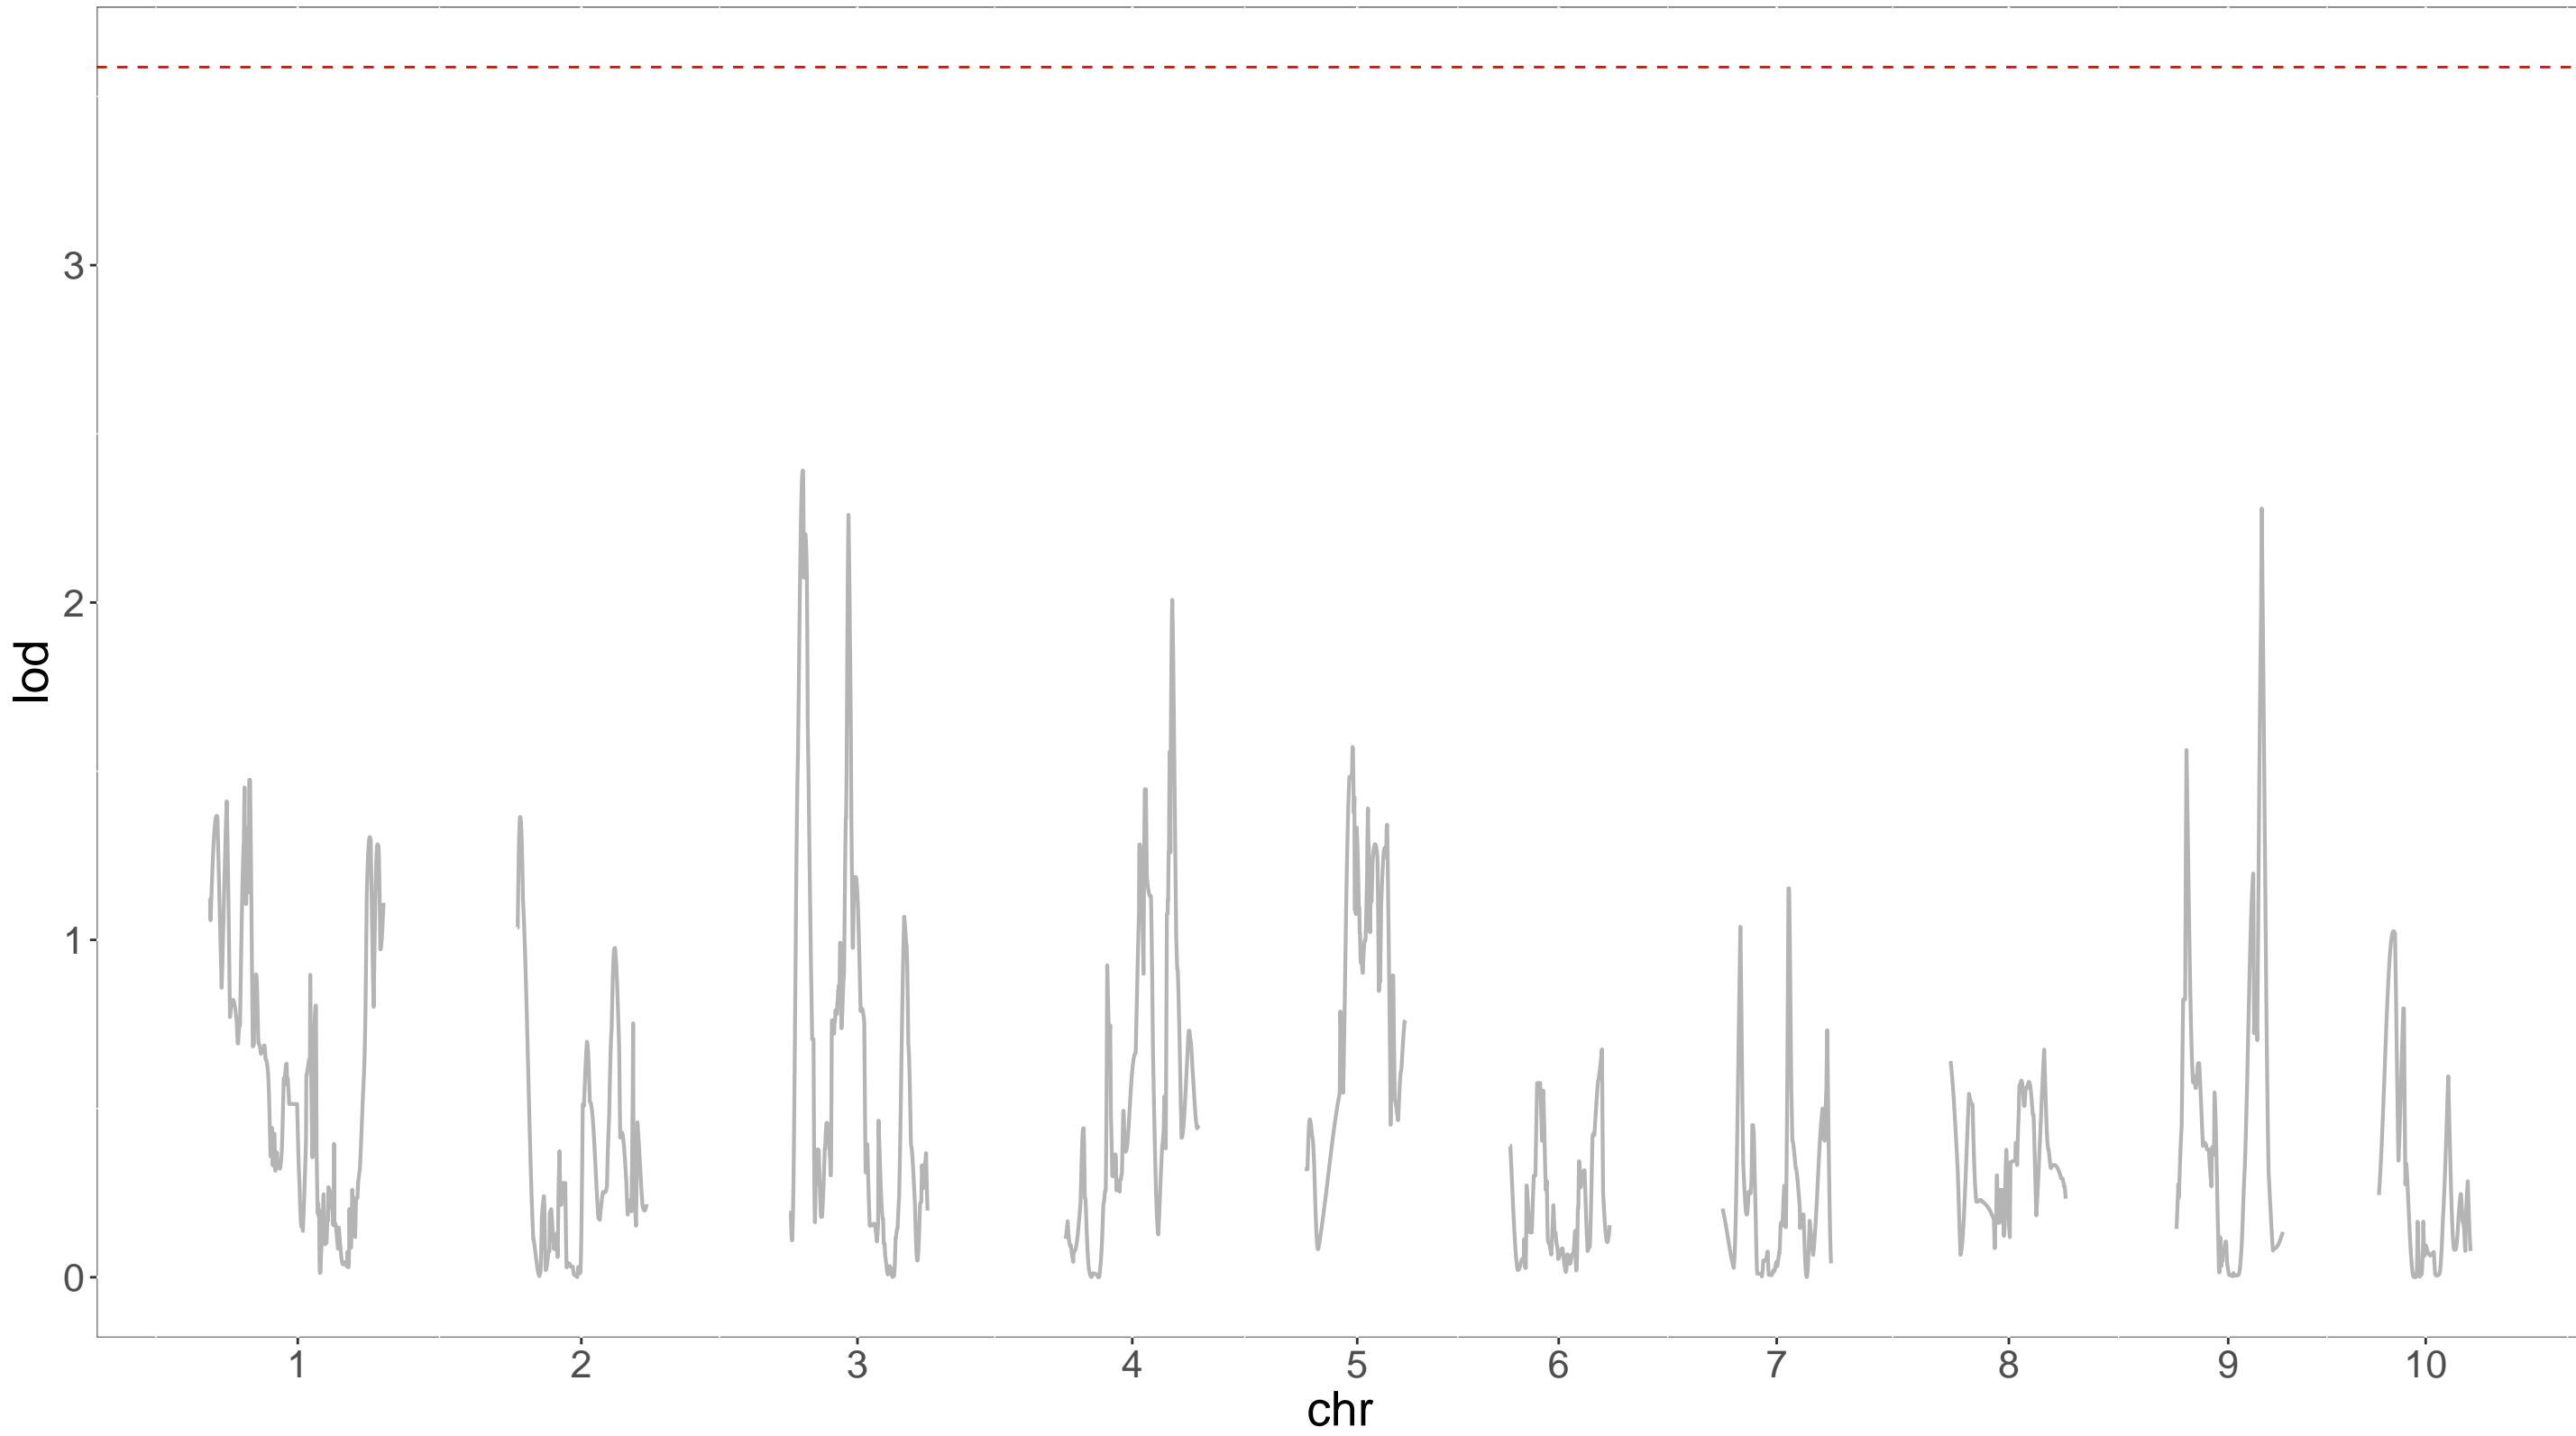

QTL analysis for WT families only for B_seed

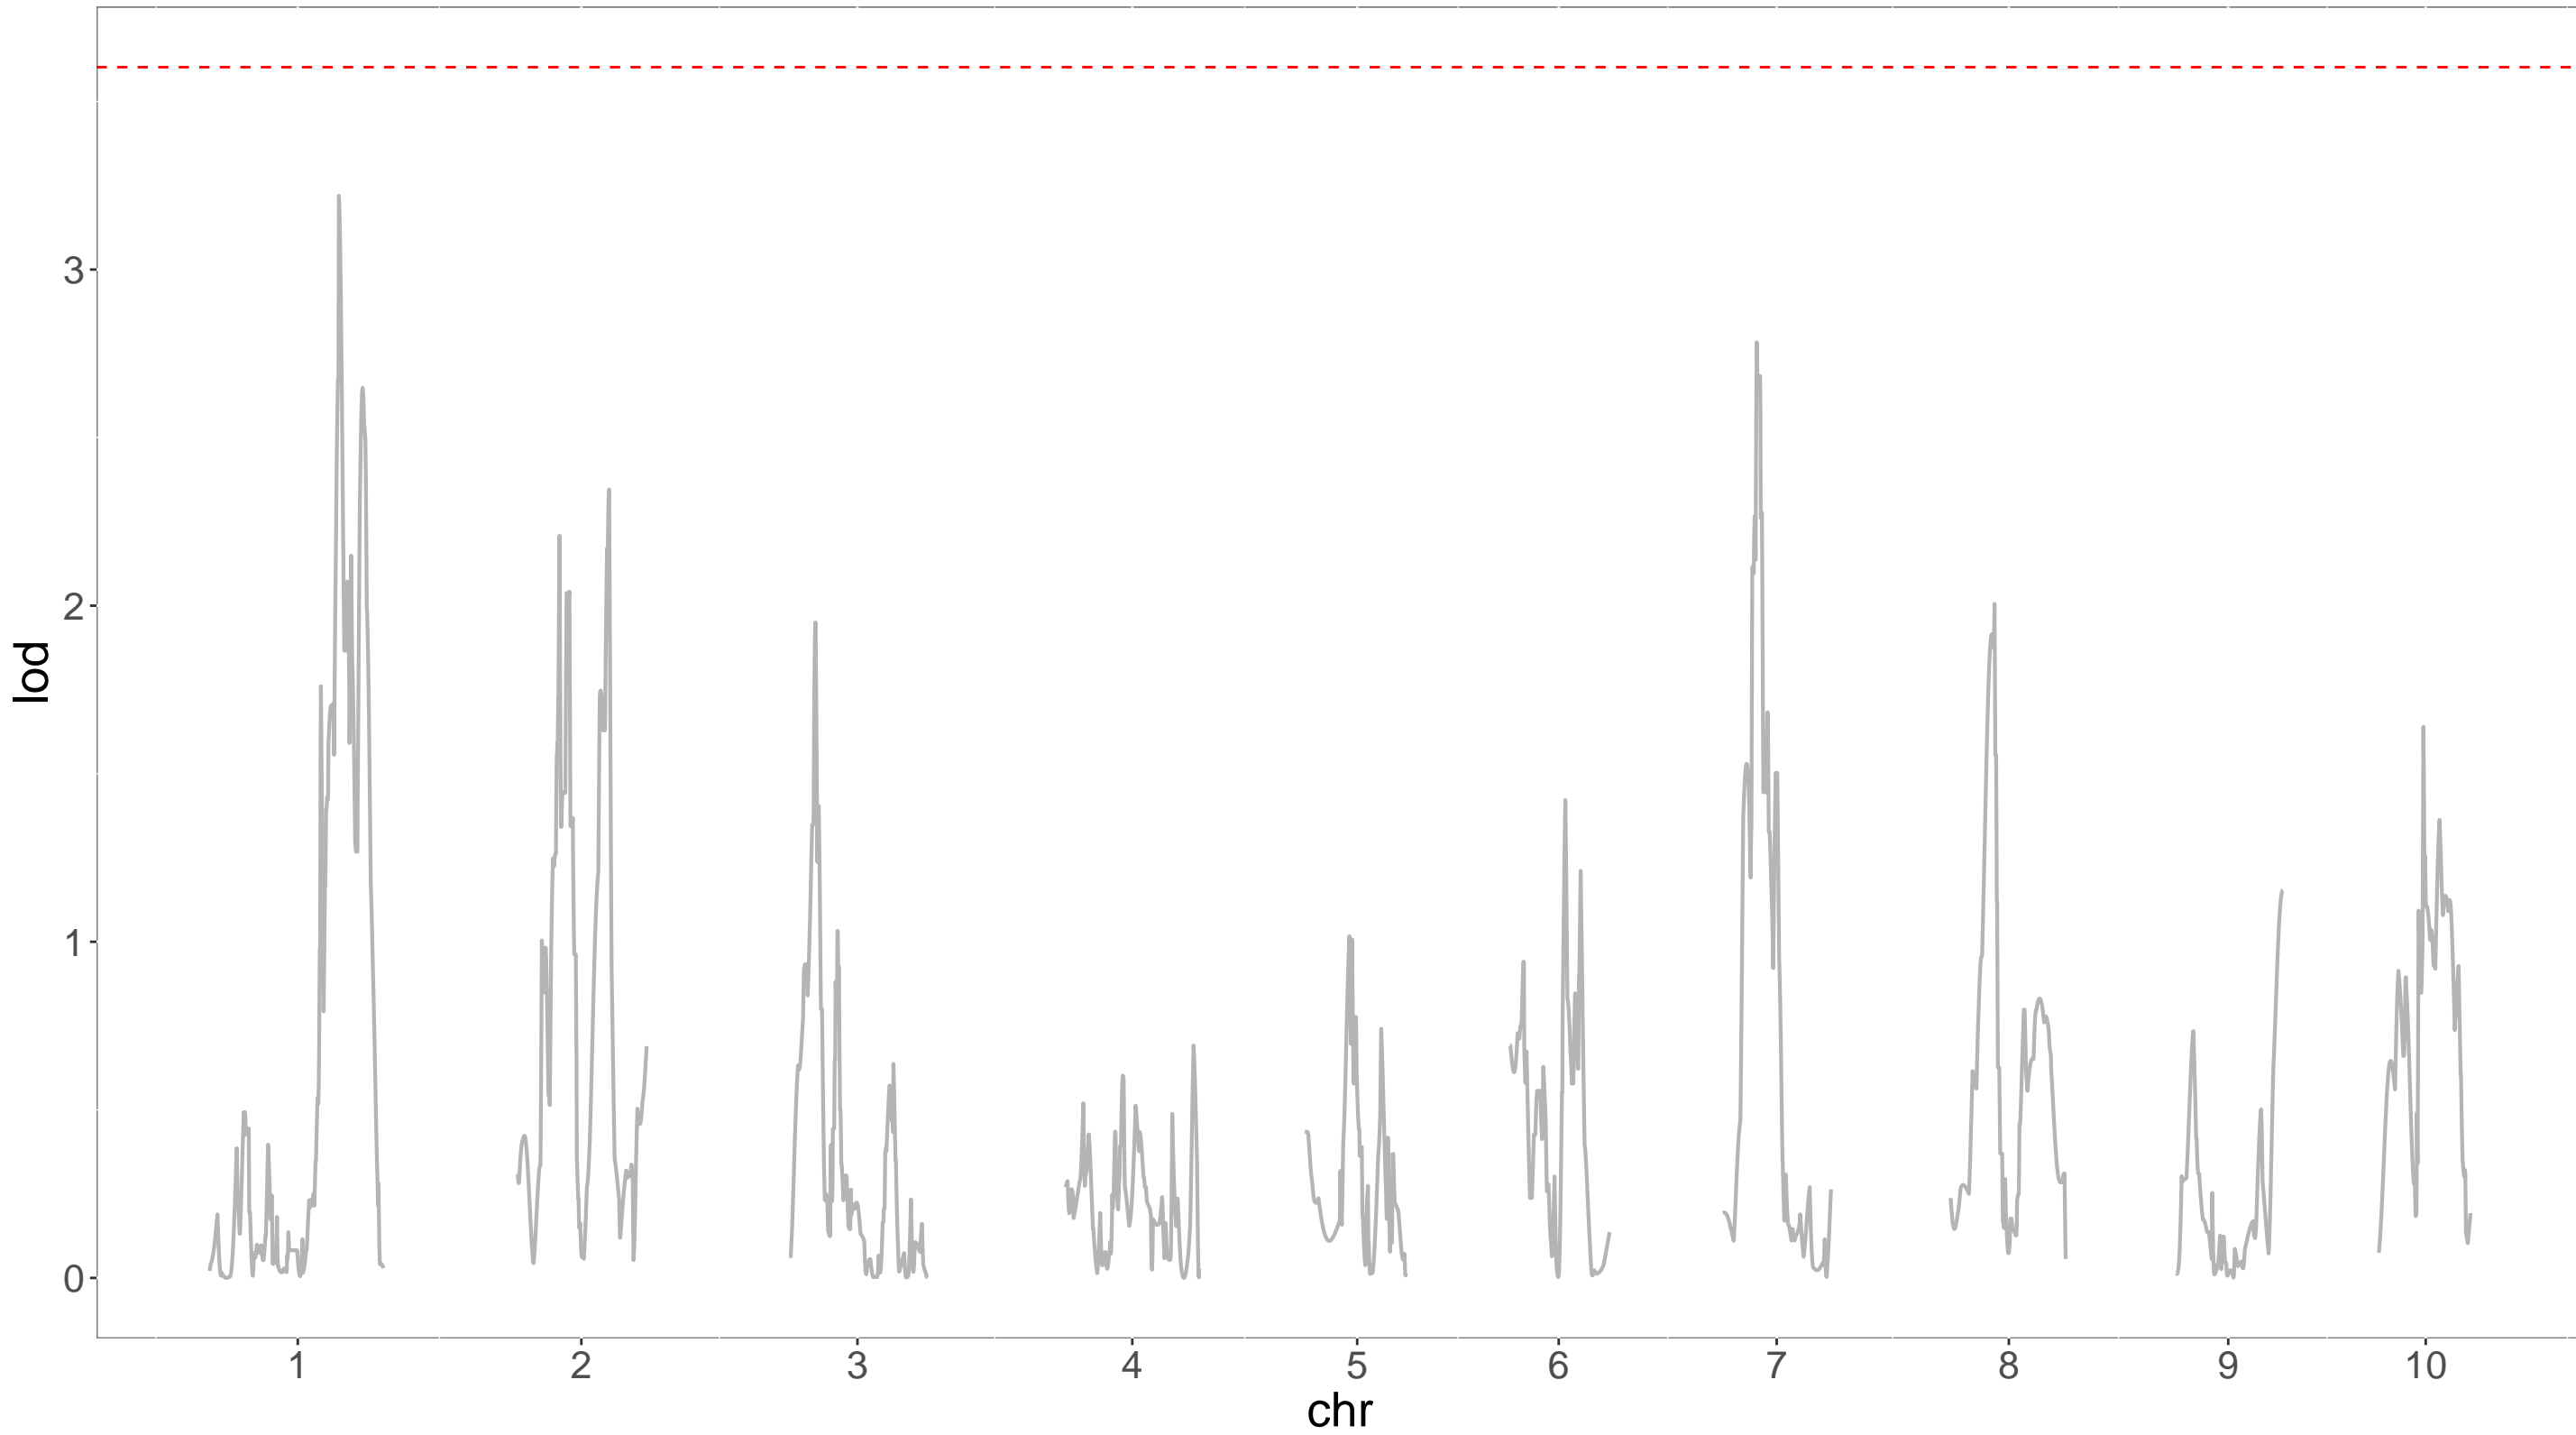

QTL analysis for WT families only for Ca_leaf

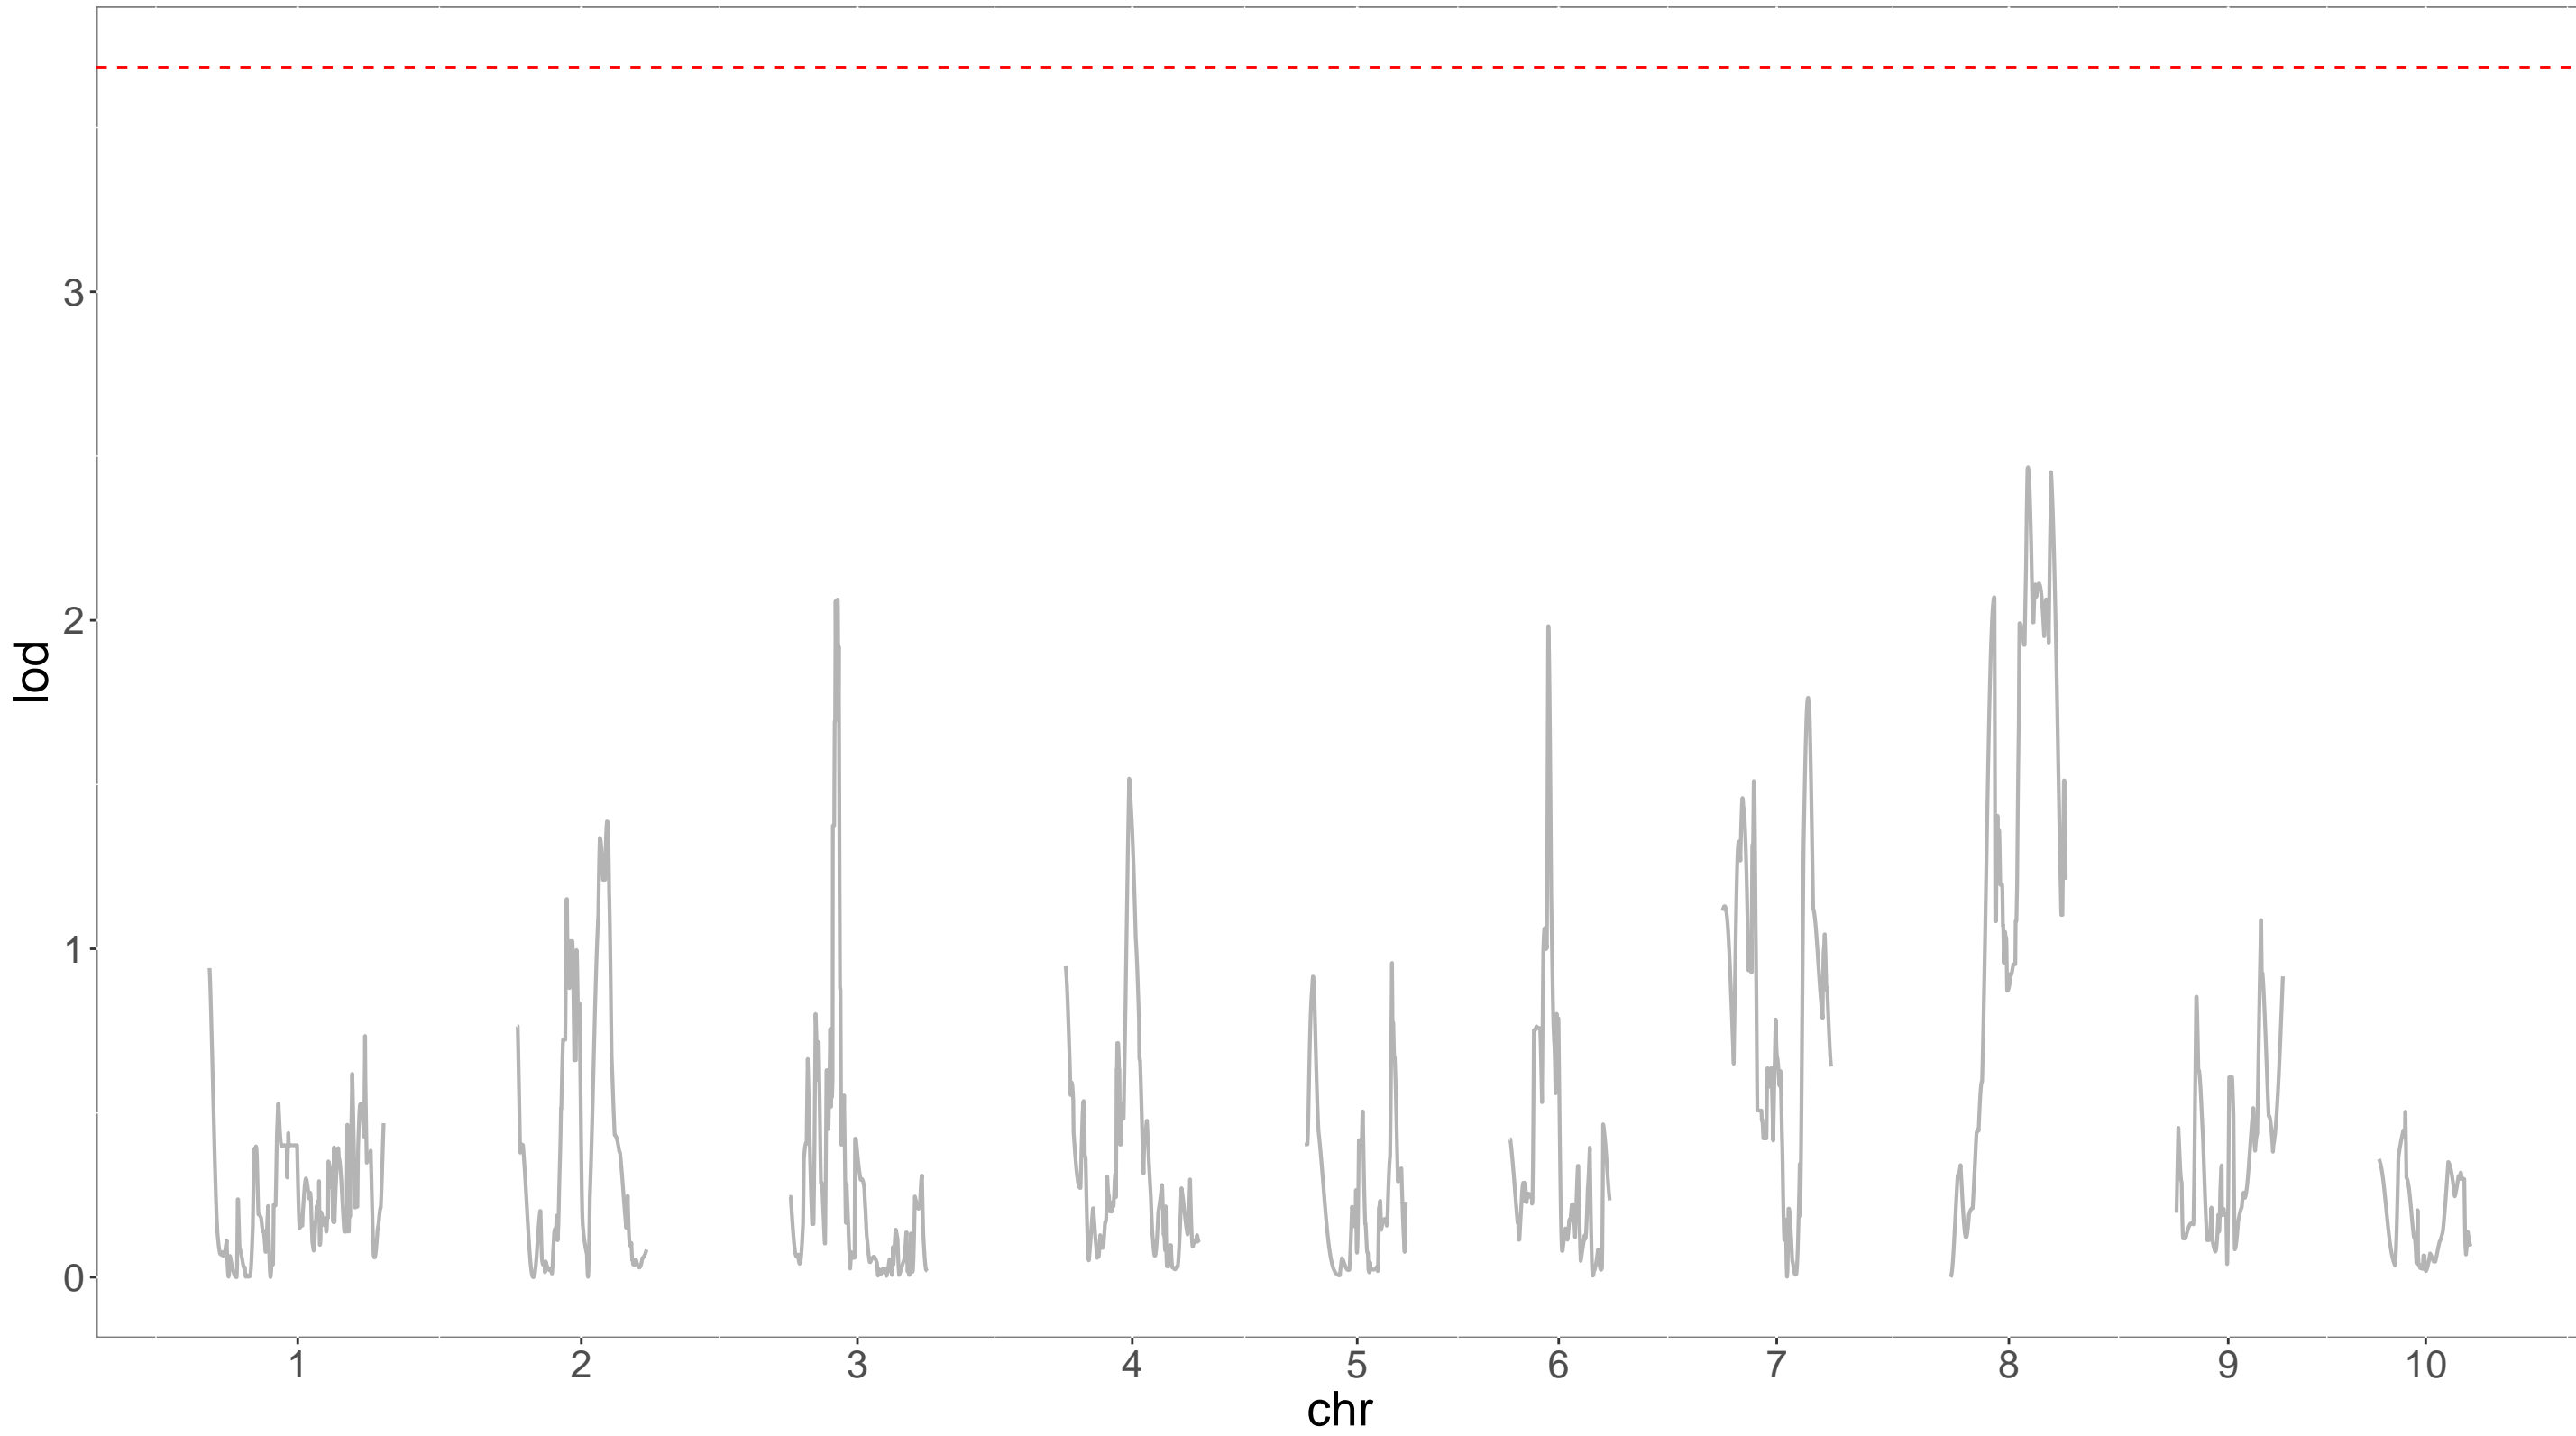

QTL analysis for WT families only for Ca_seed

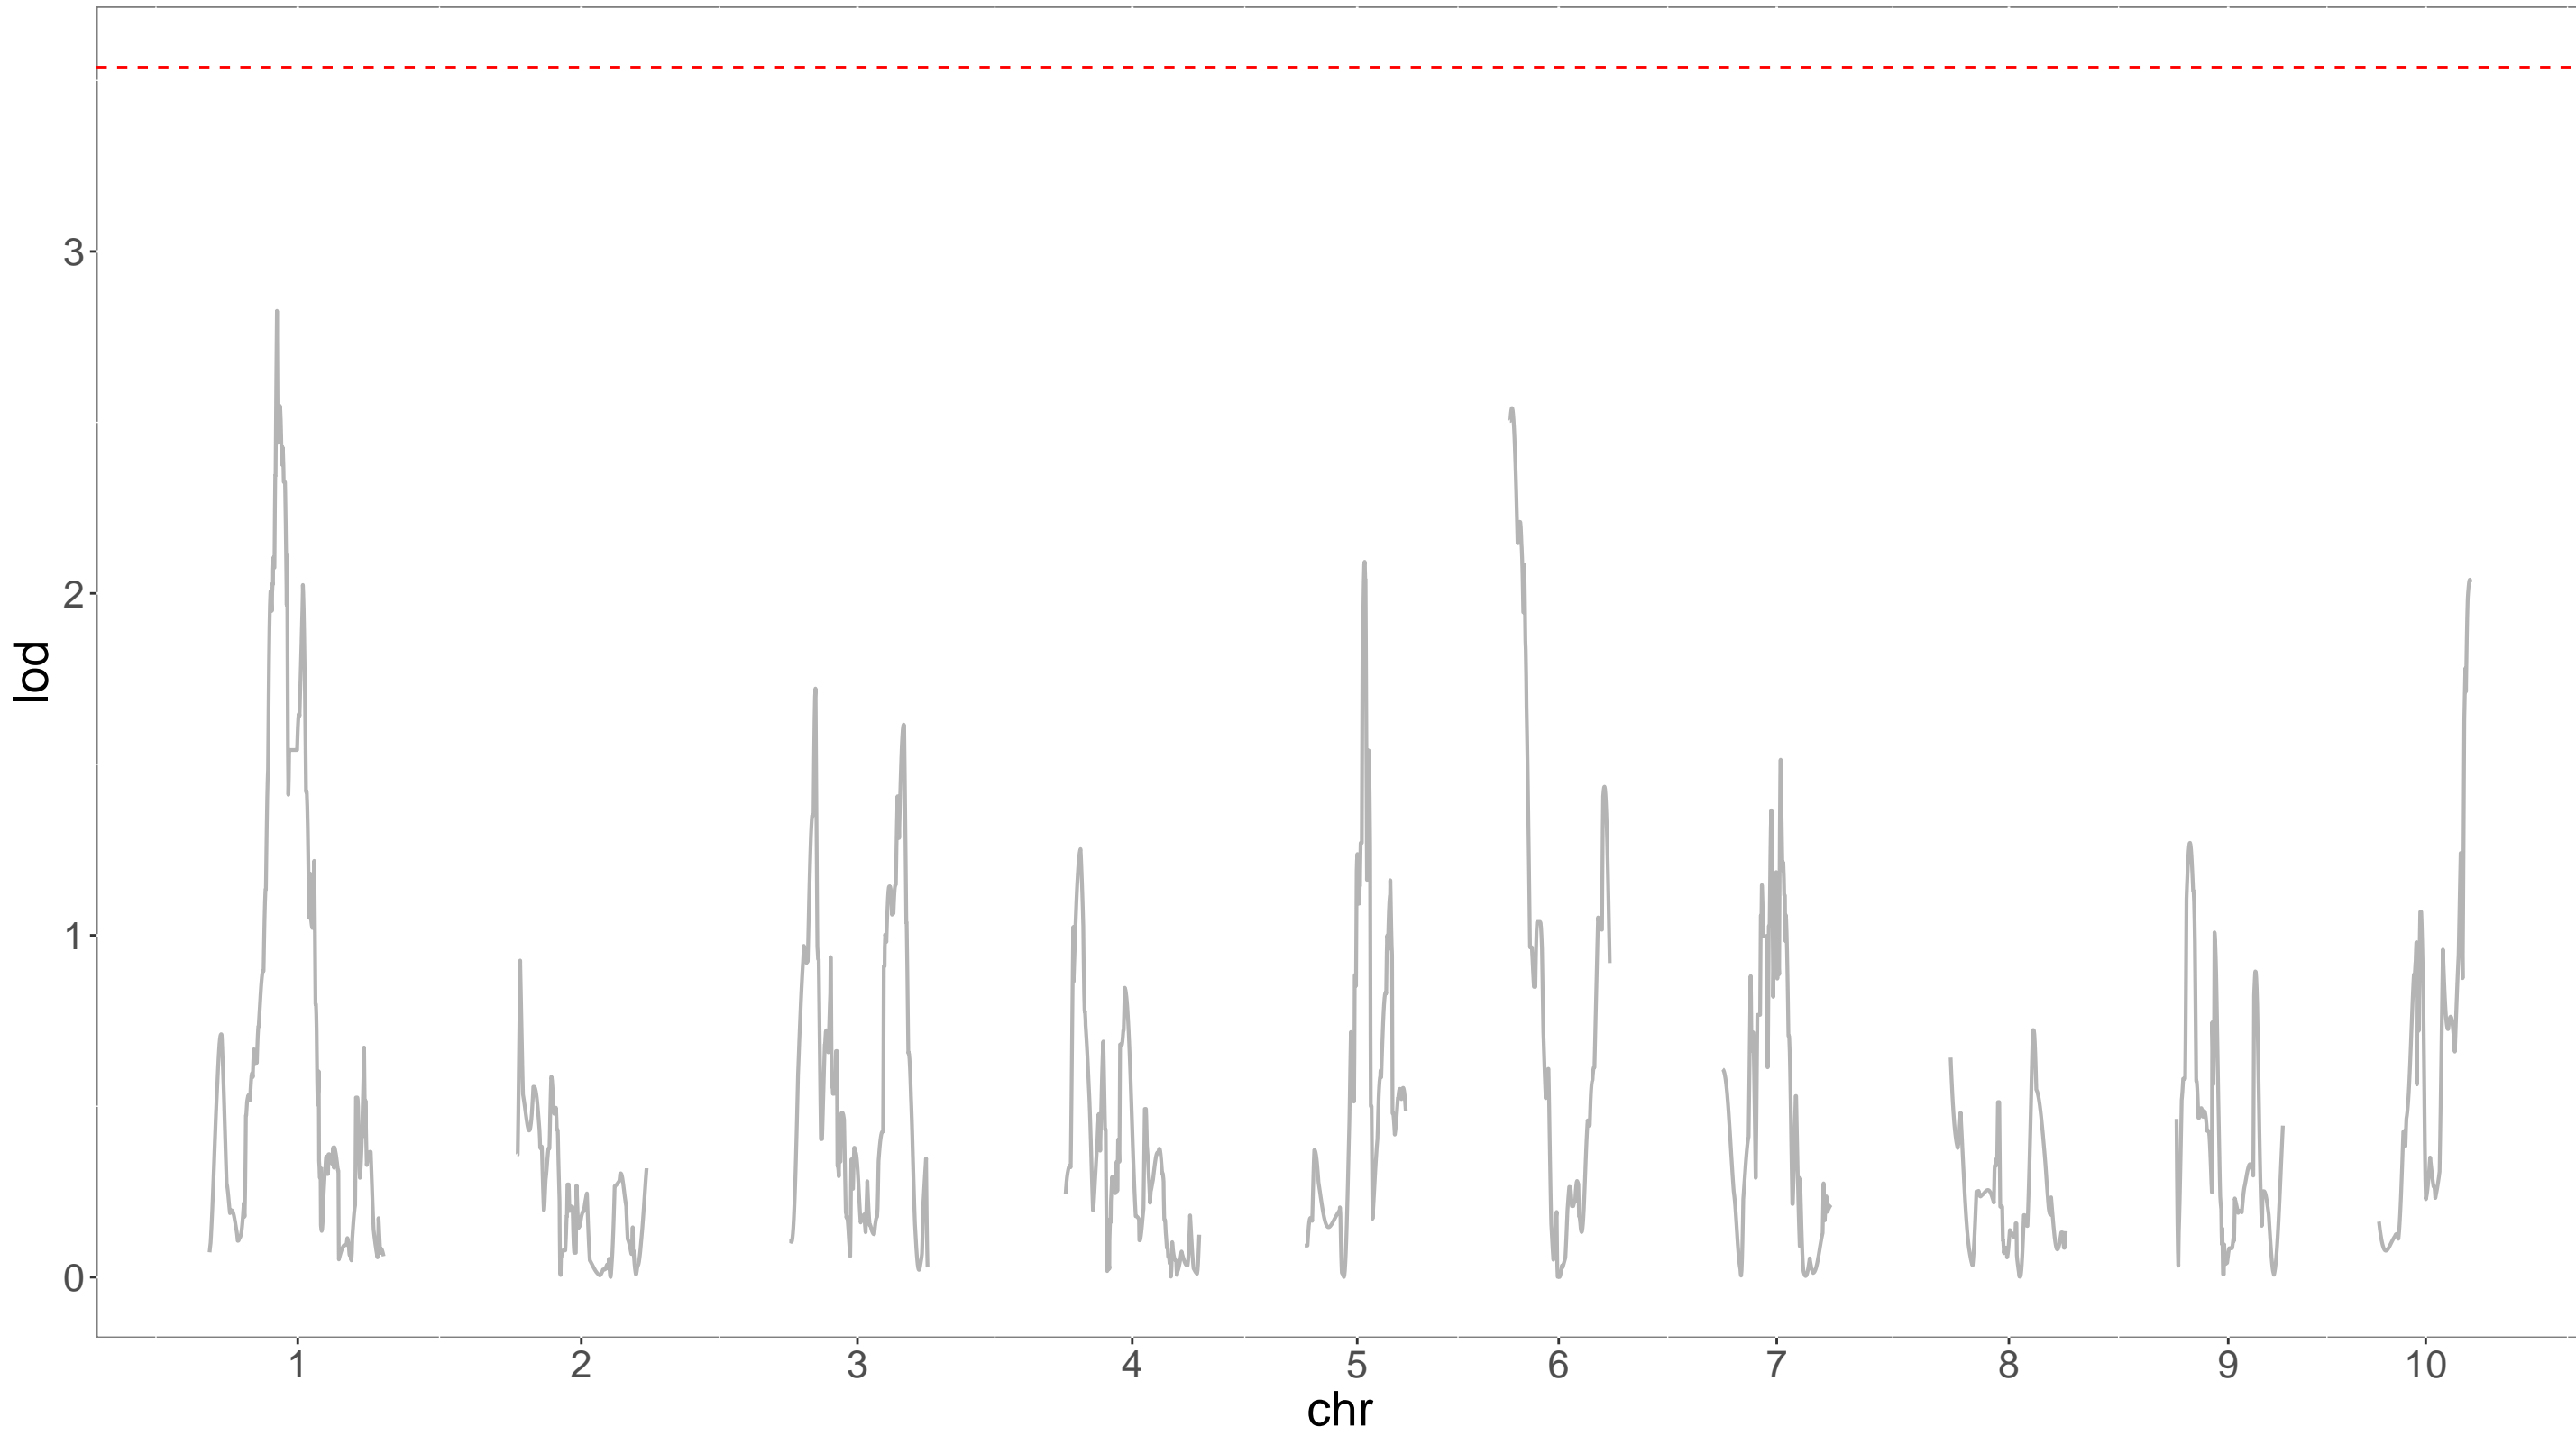

QTL analysis for WT families only for Cd_leaf

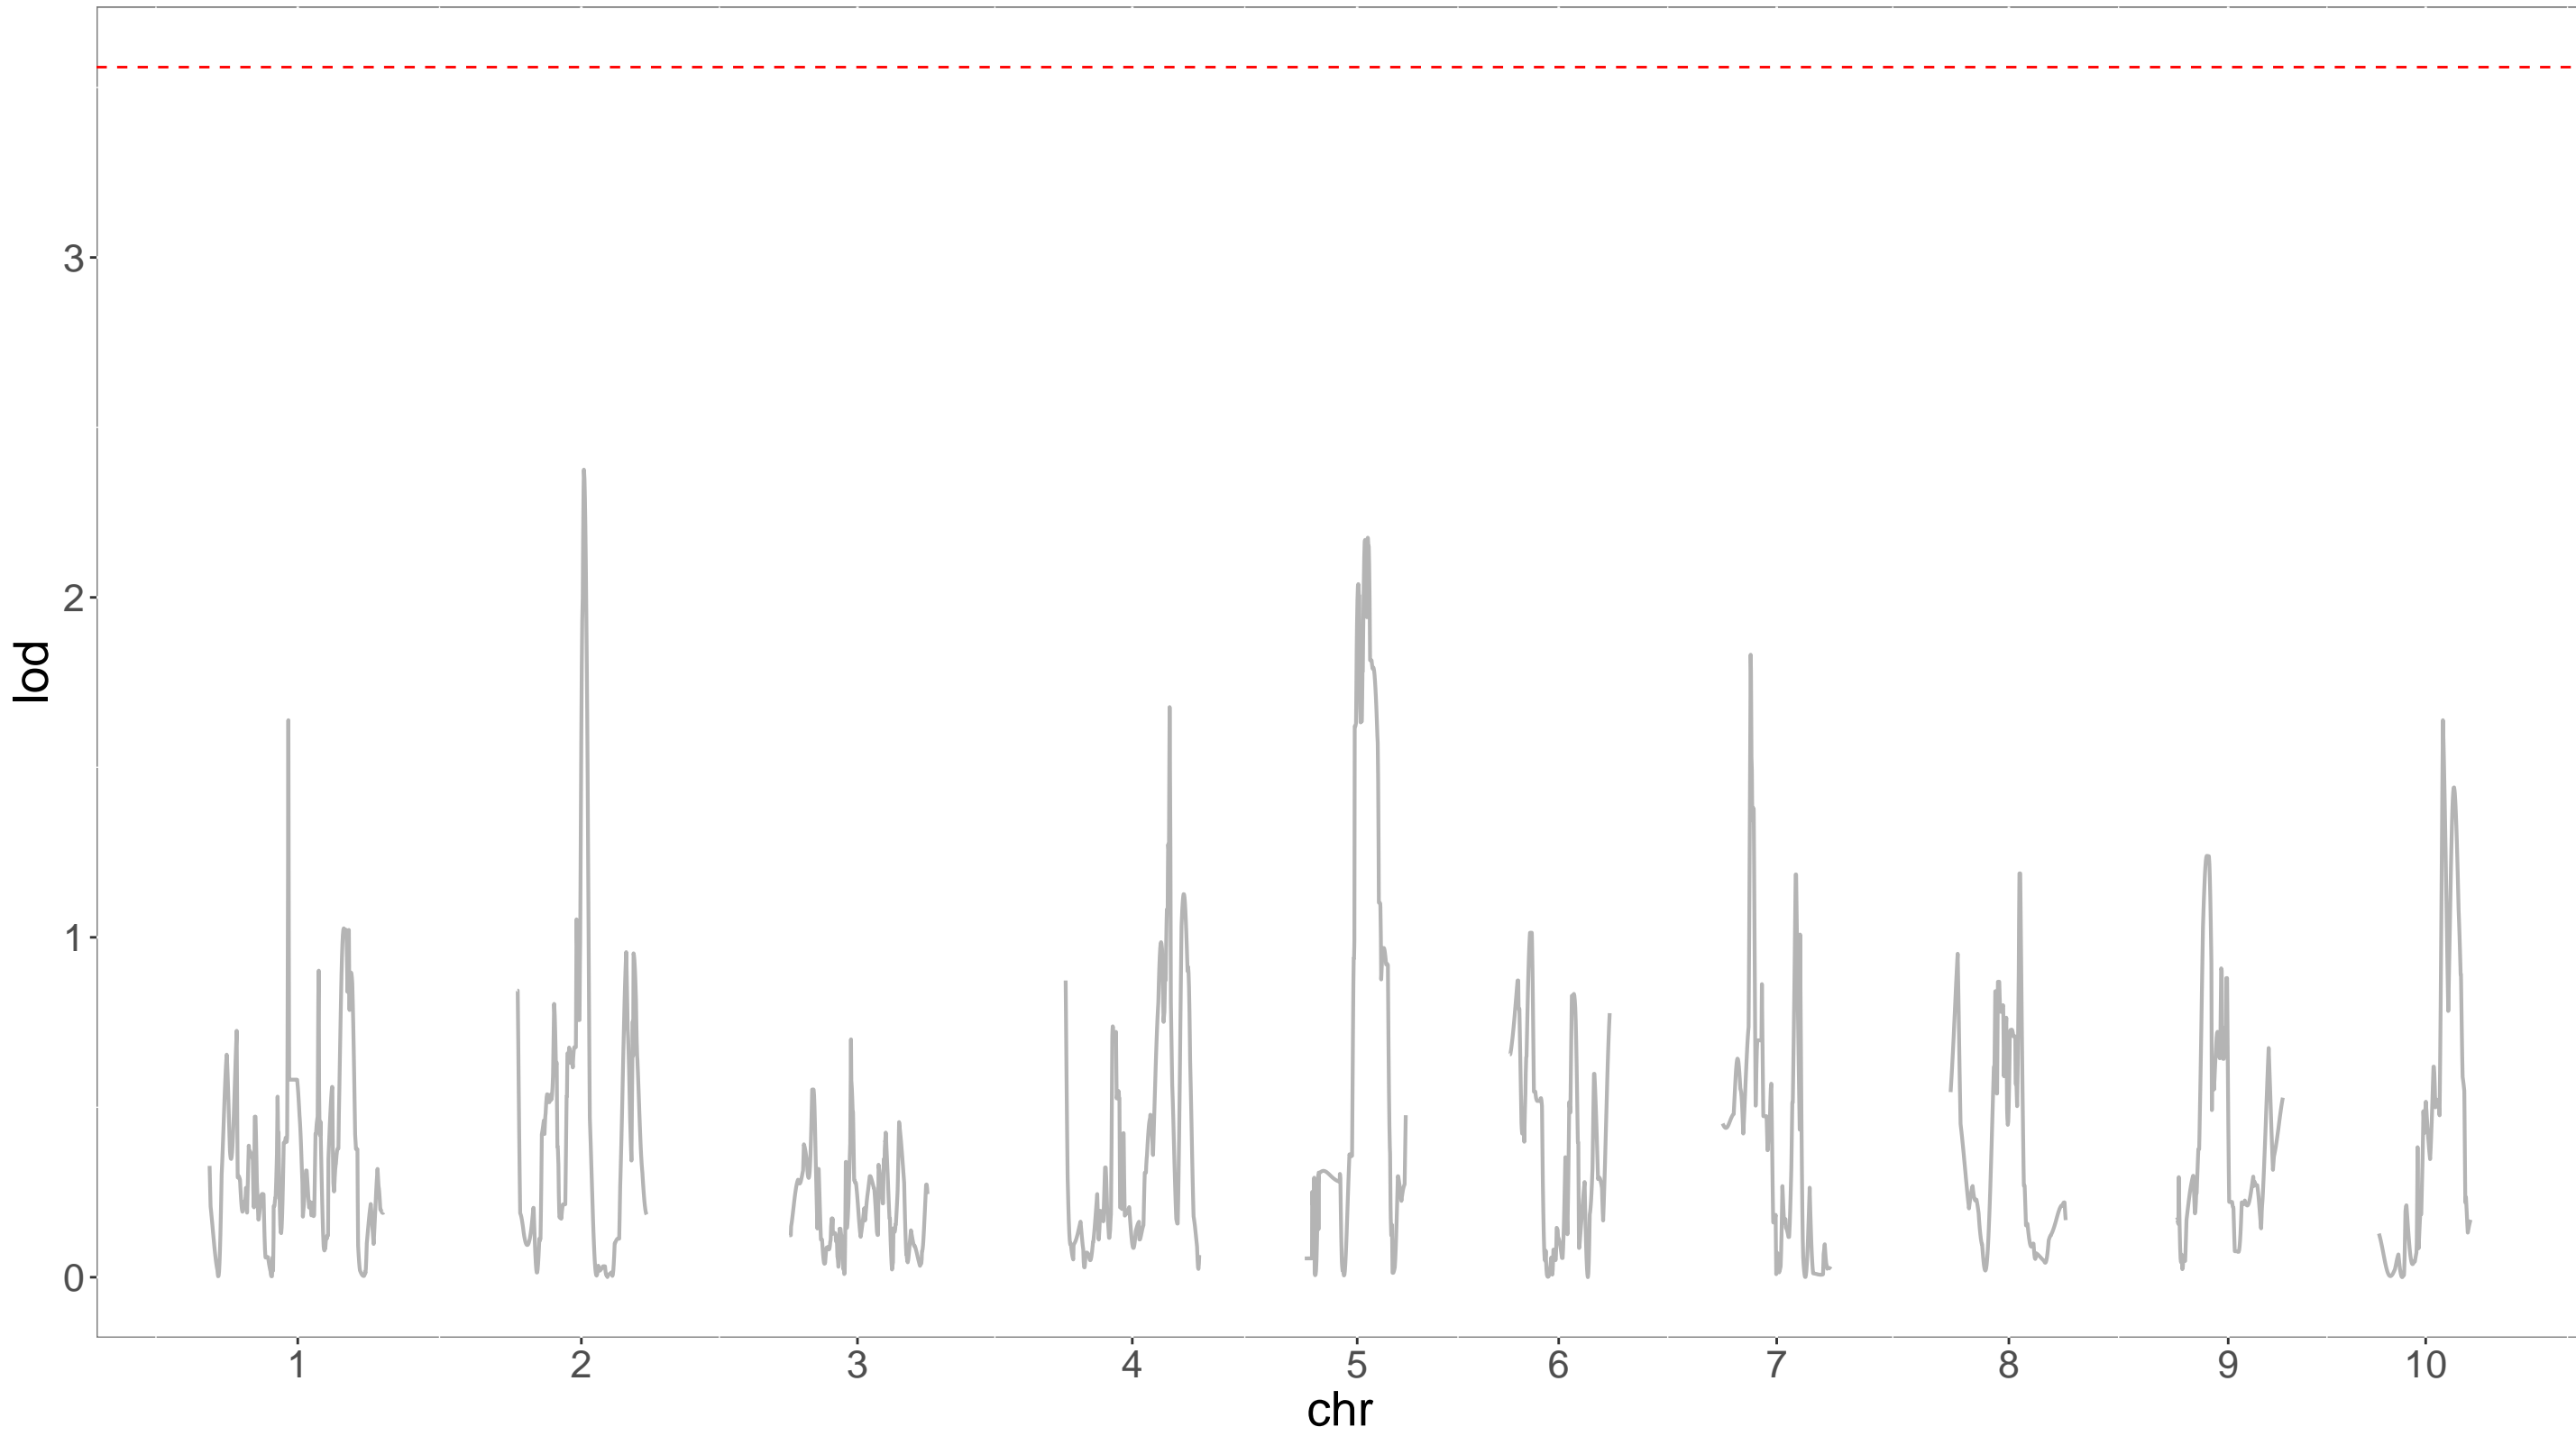

QTL analysis for WT families only for Cd_seed

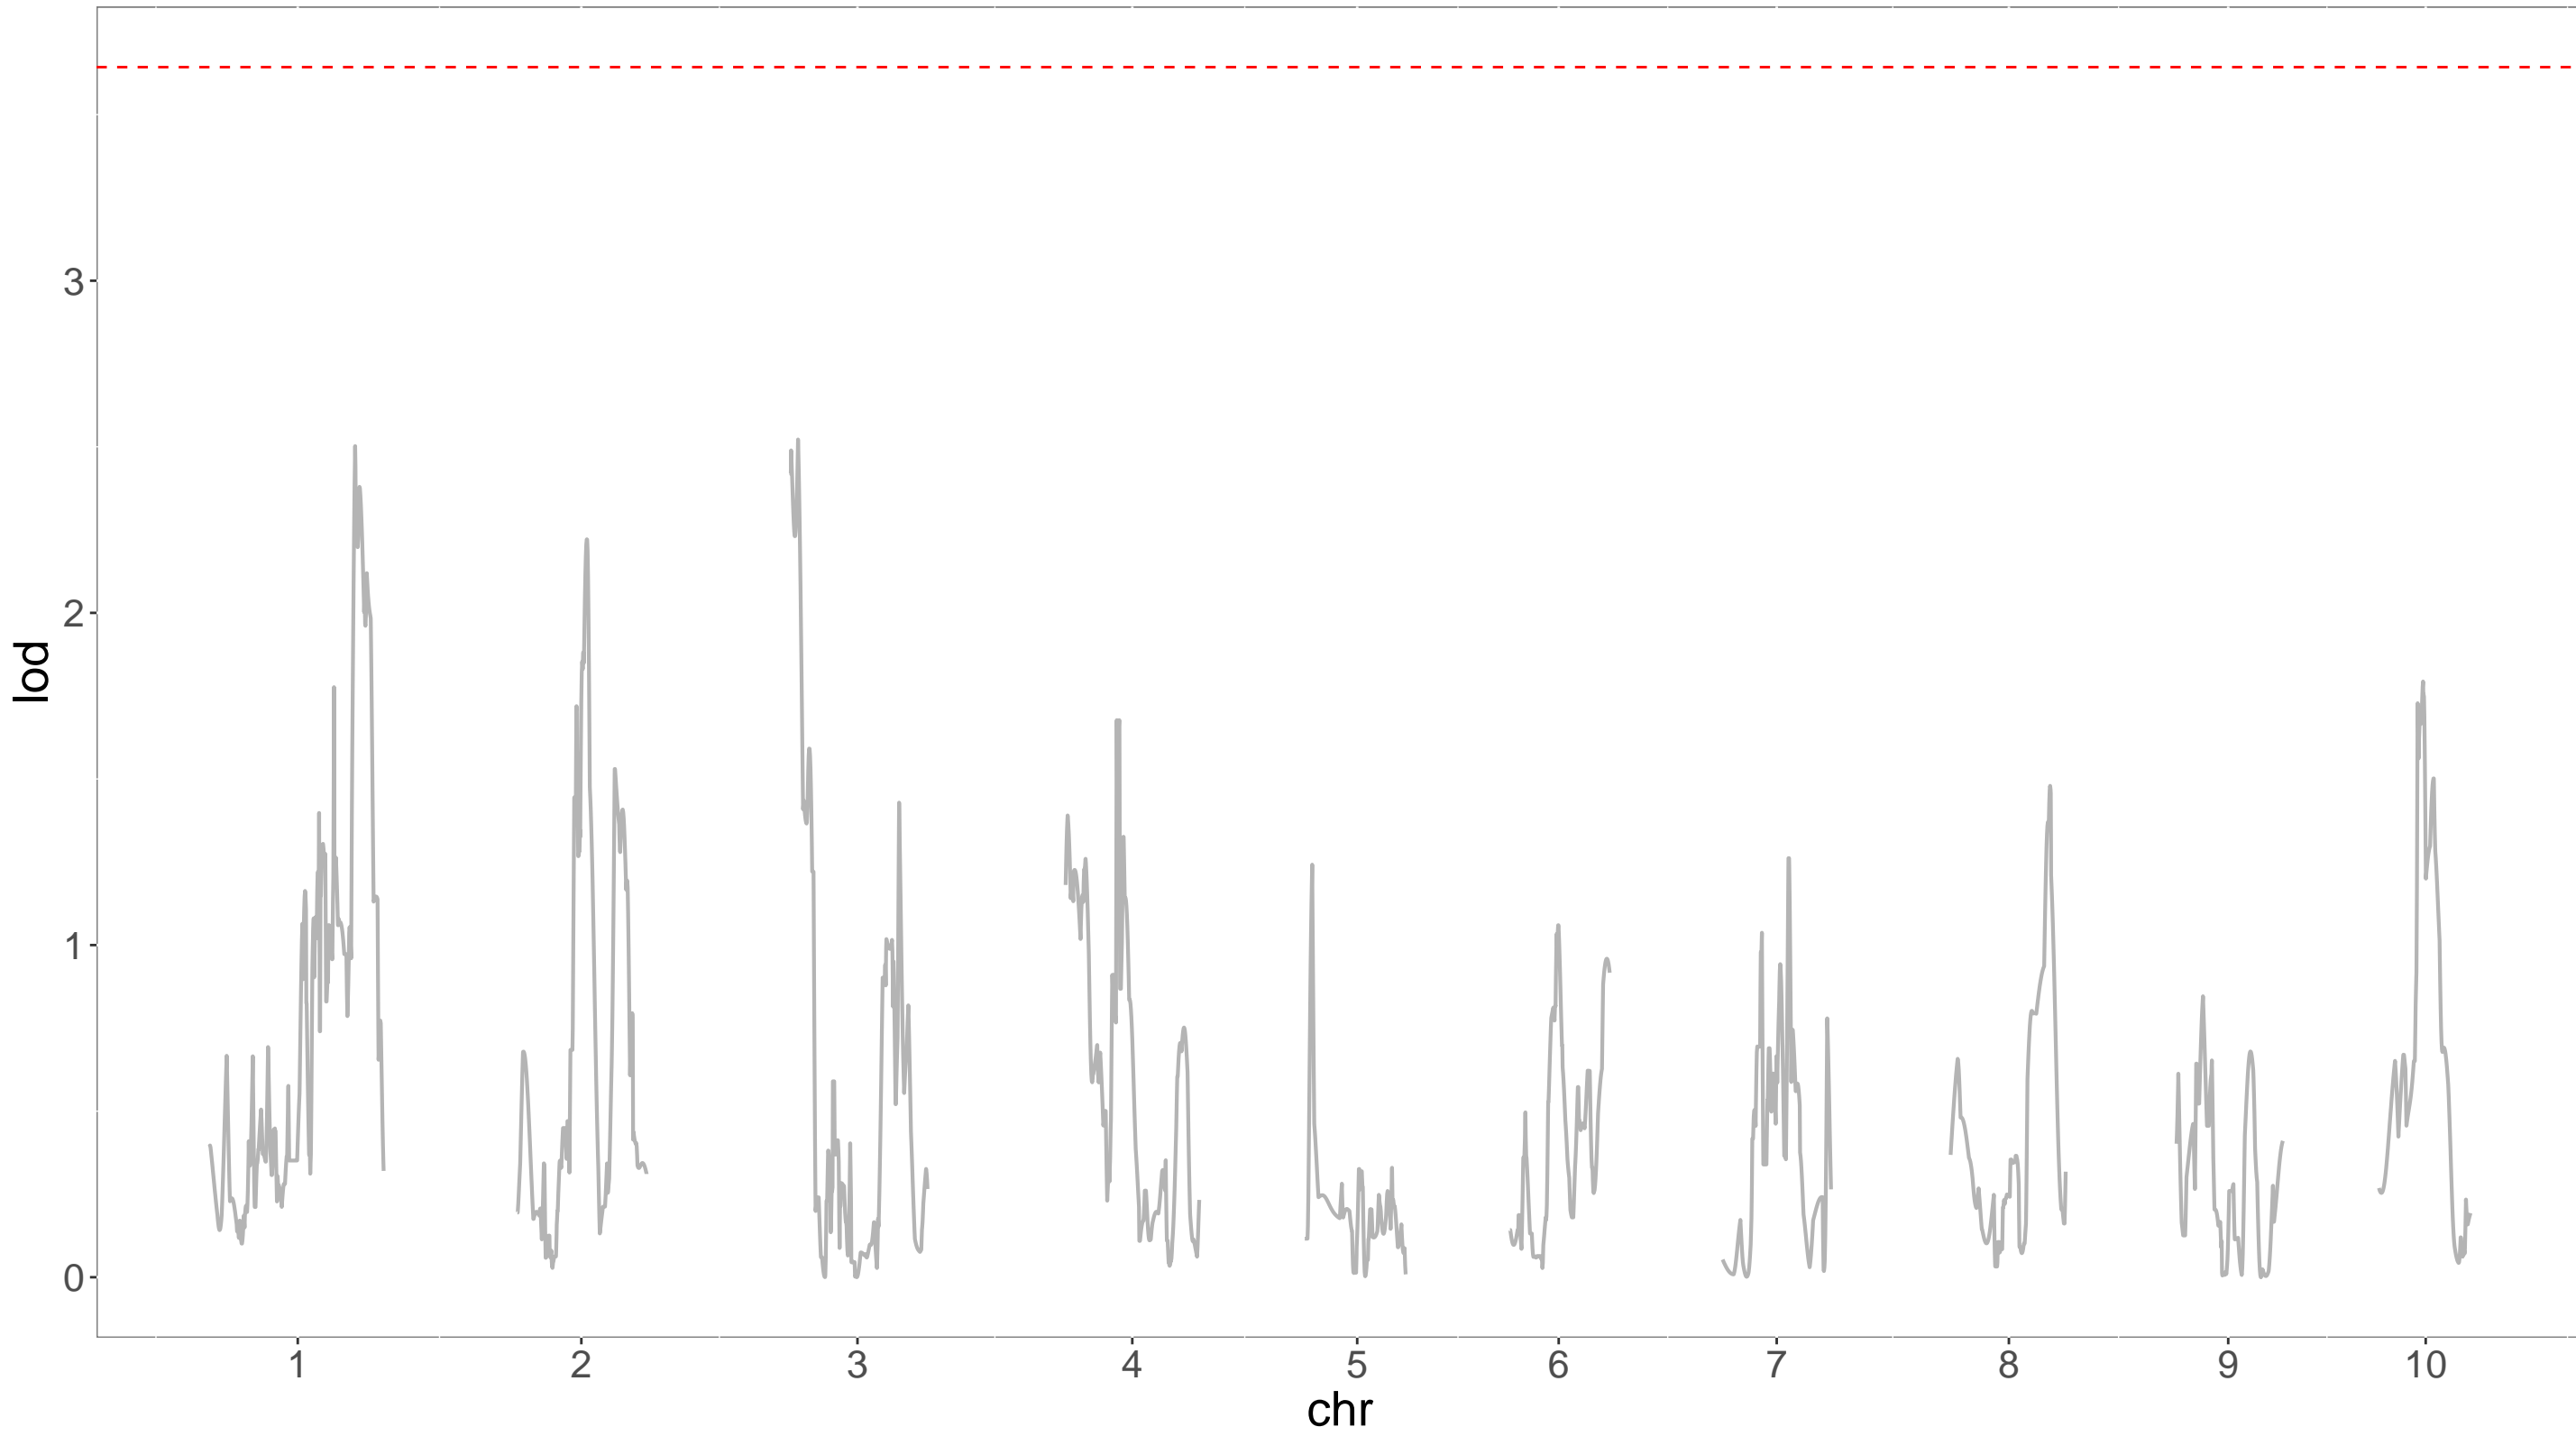

QTL analysis for WT families only for Co_leaf

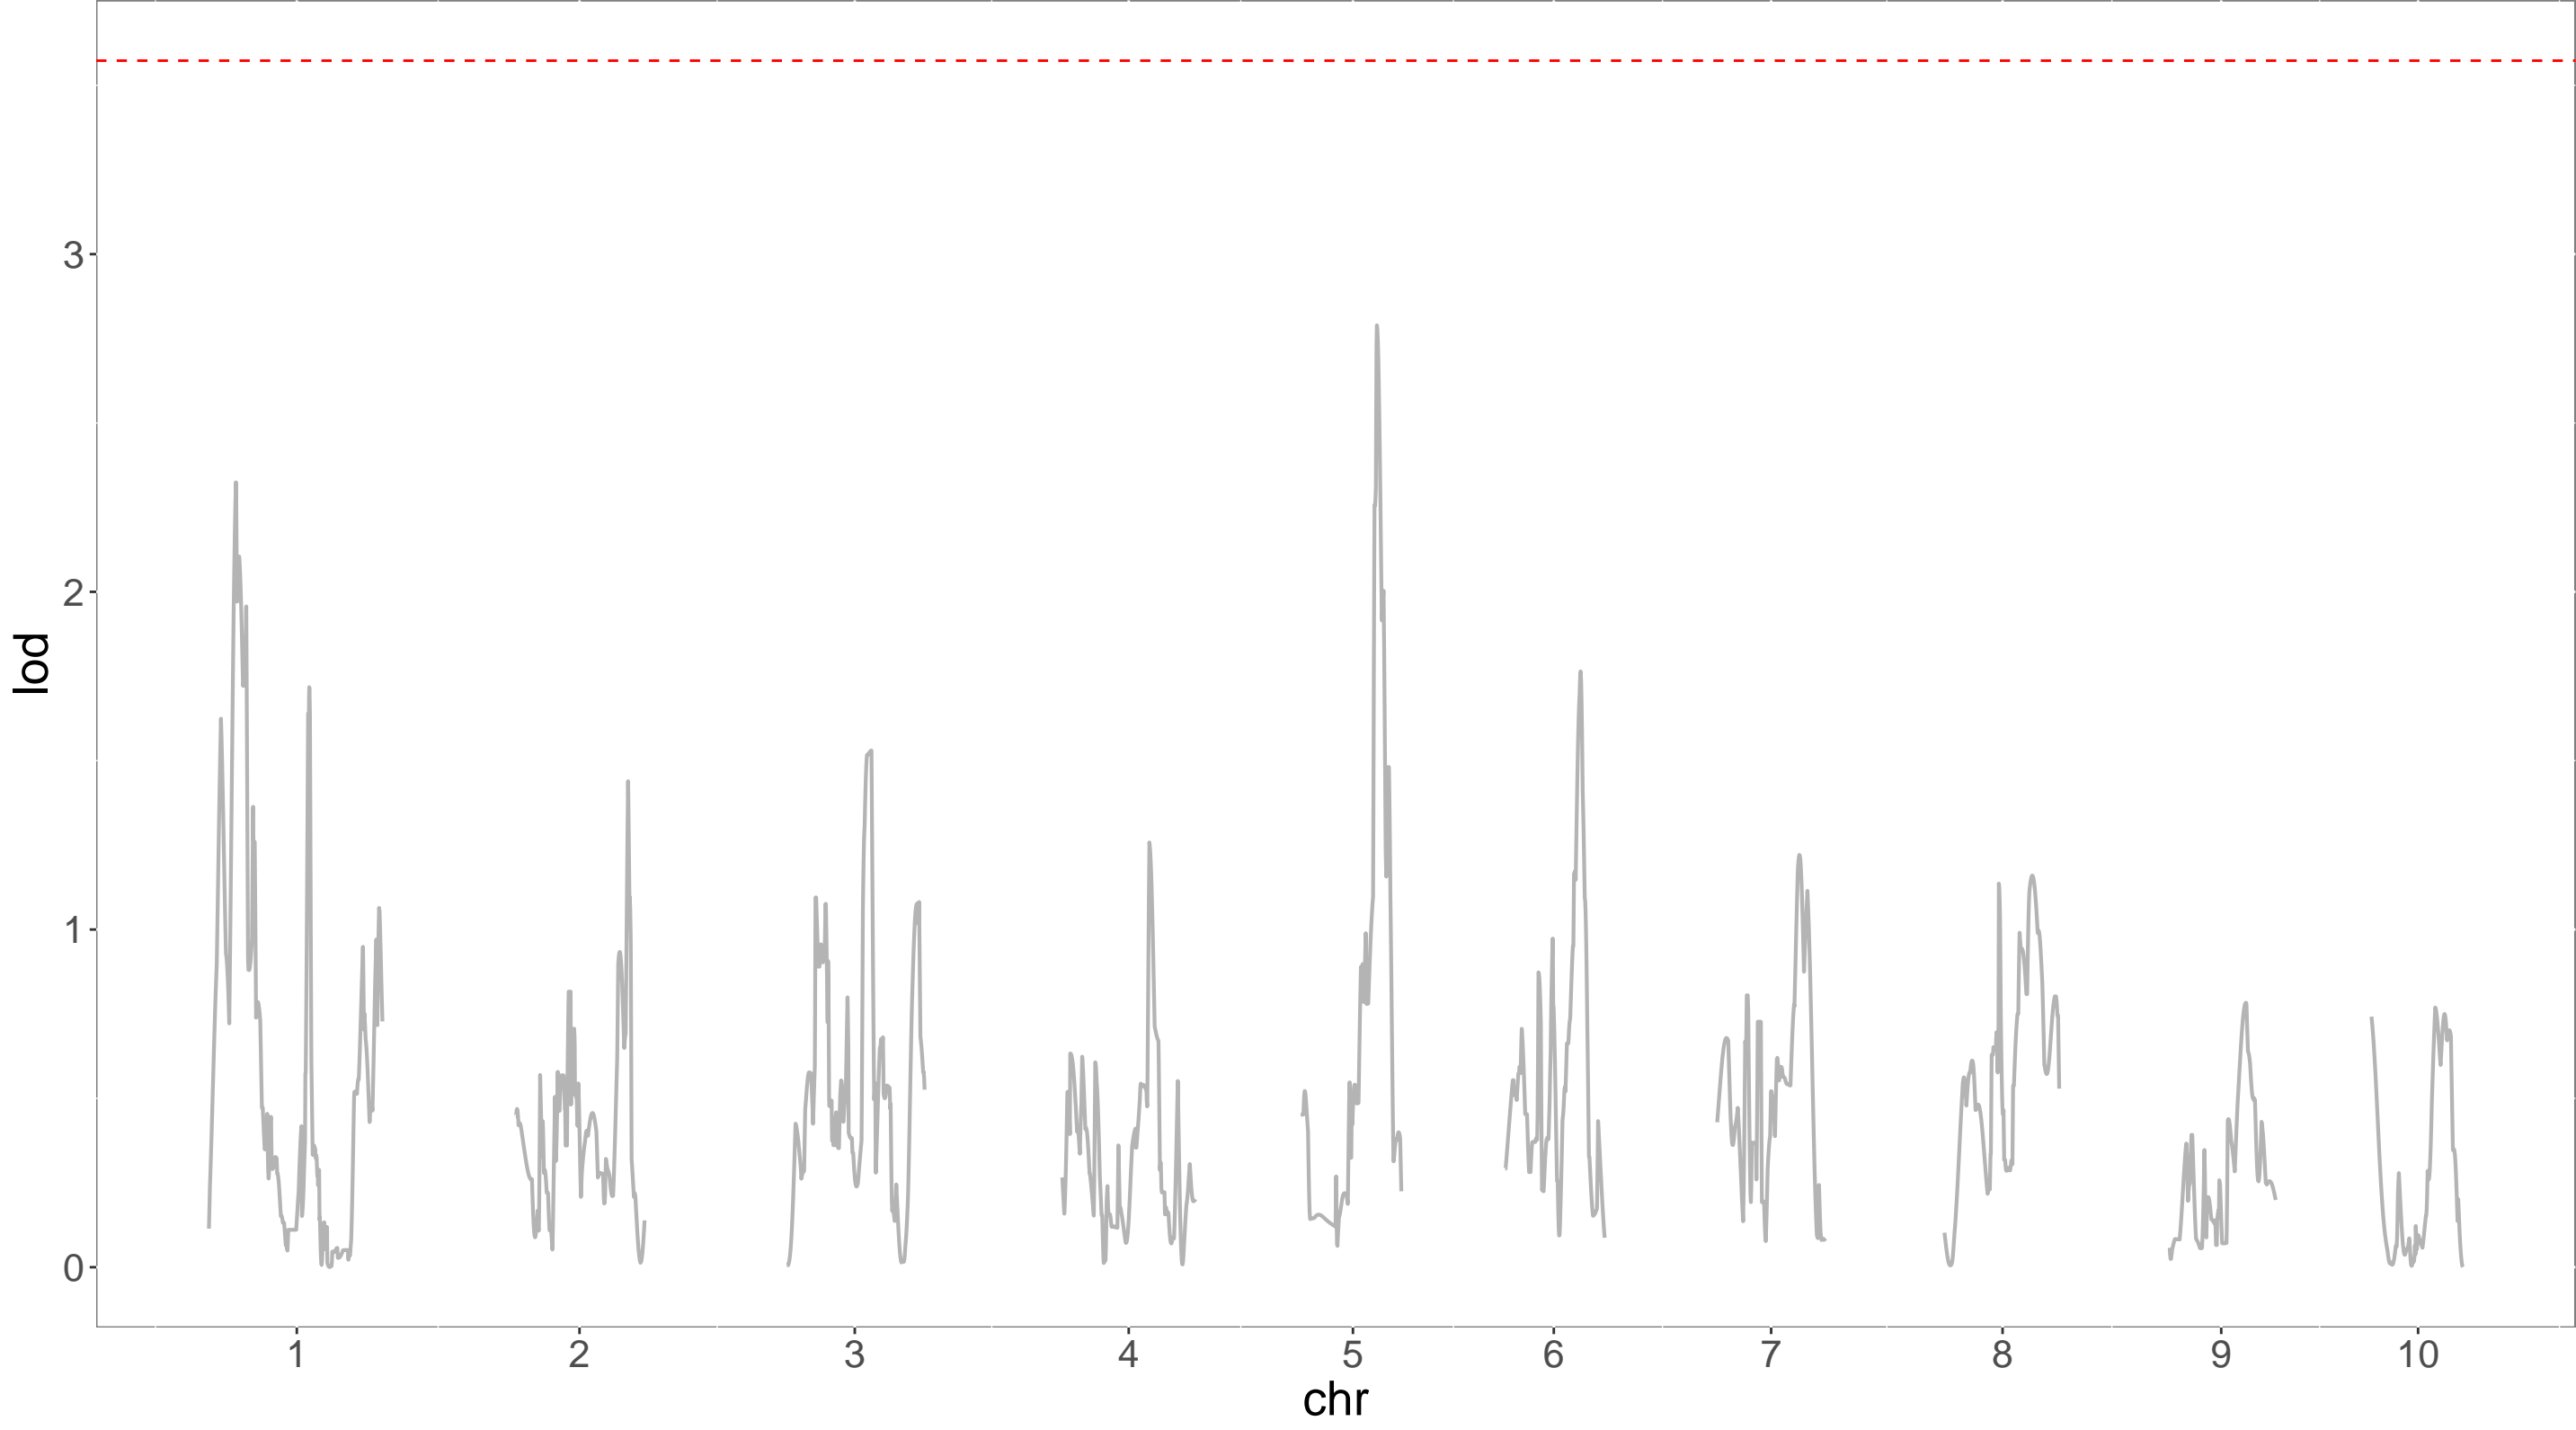

QTL analysis for WT families only for Co_seed

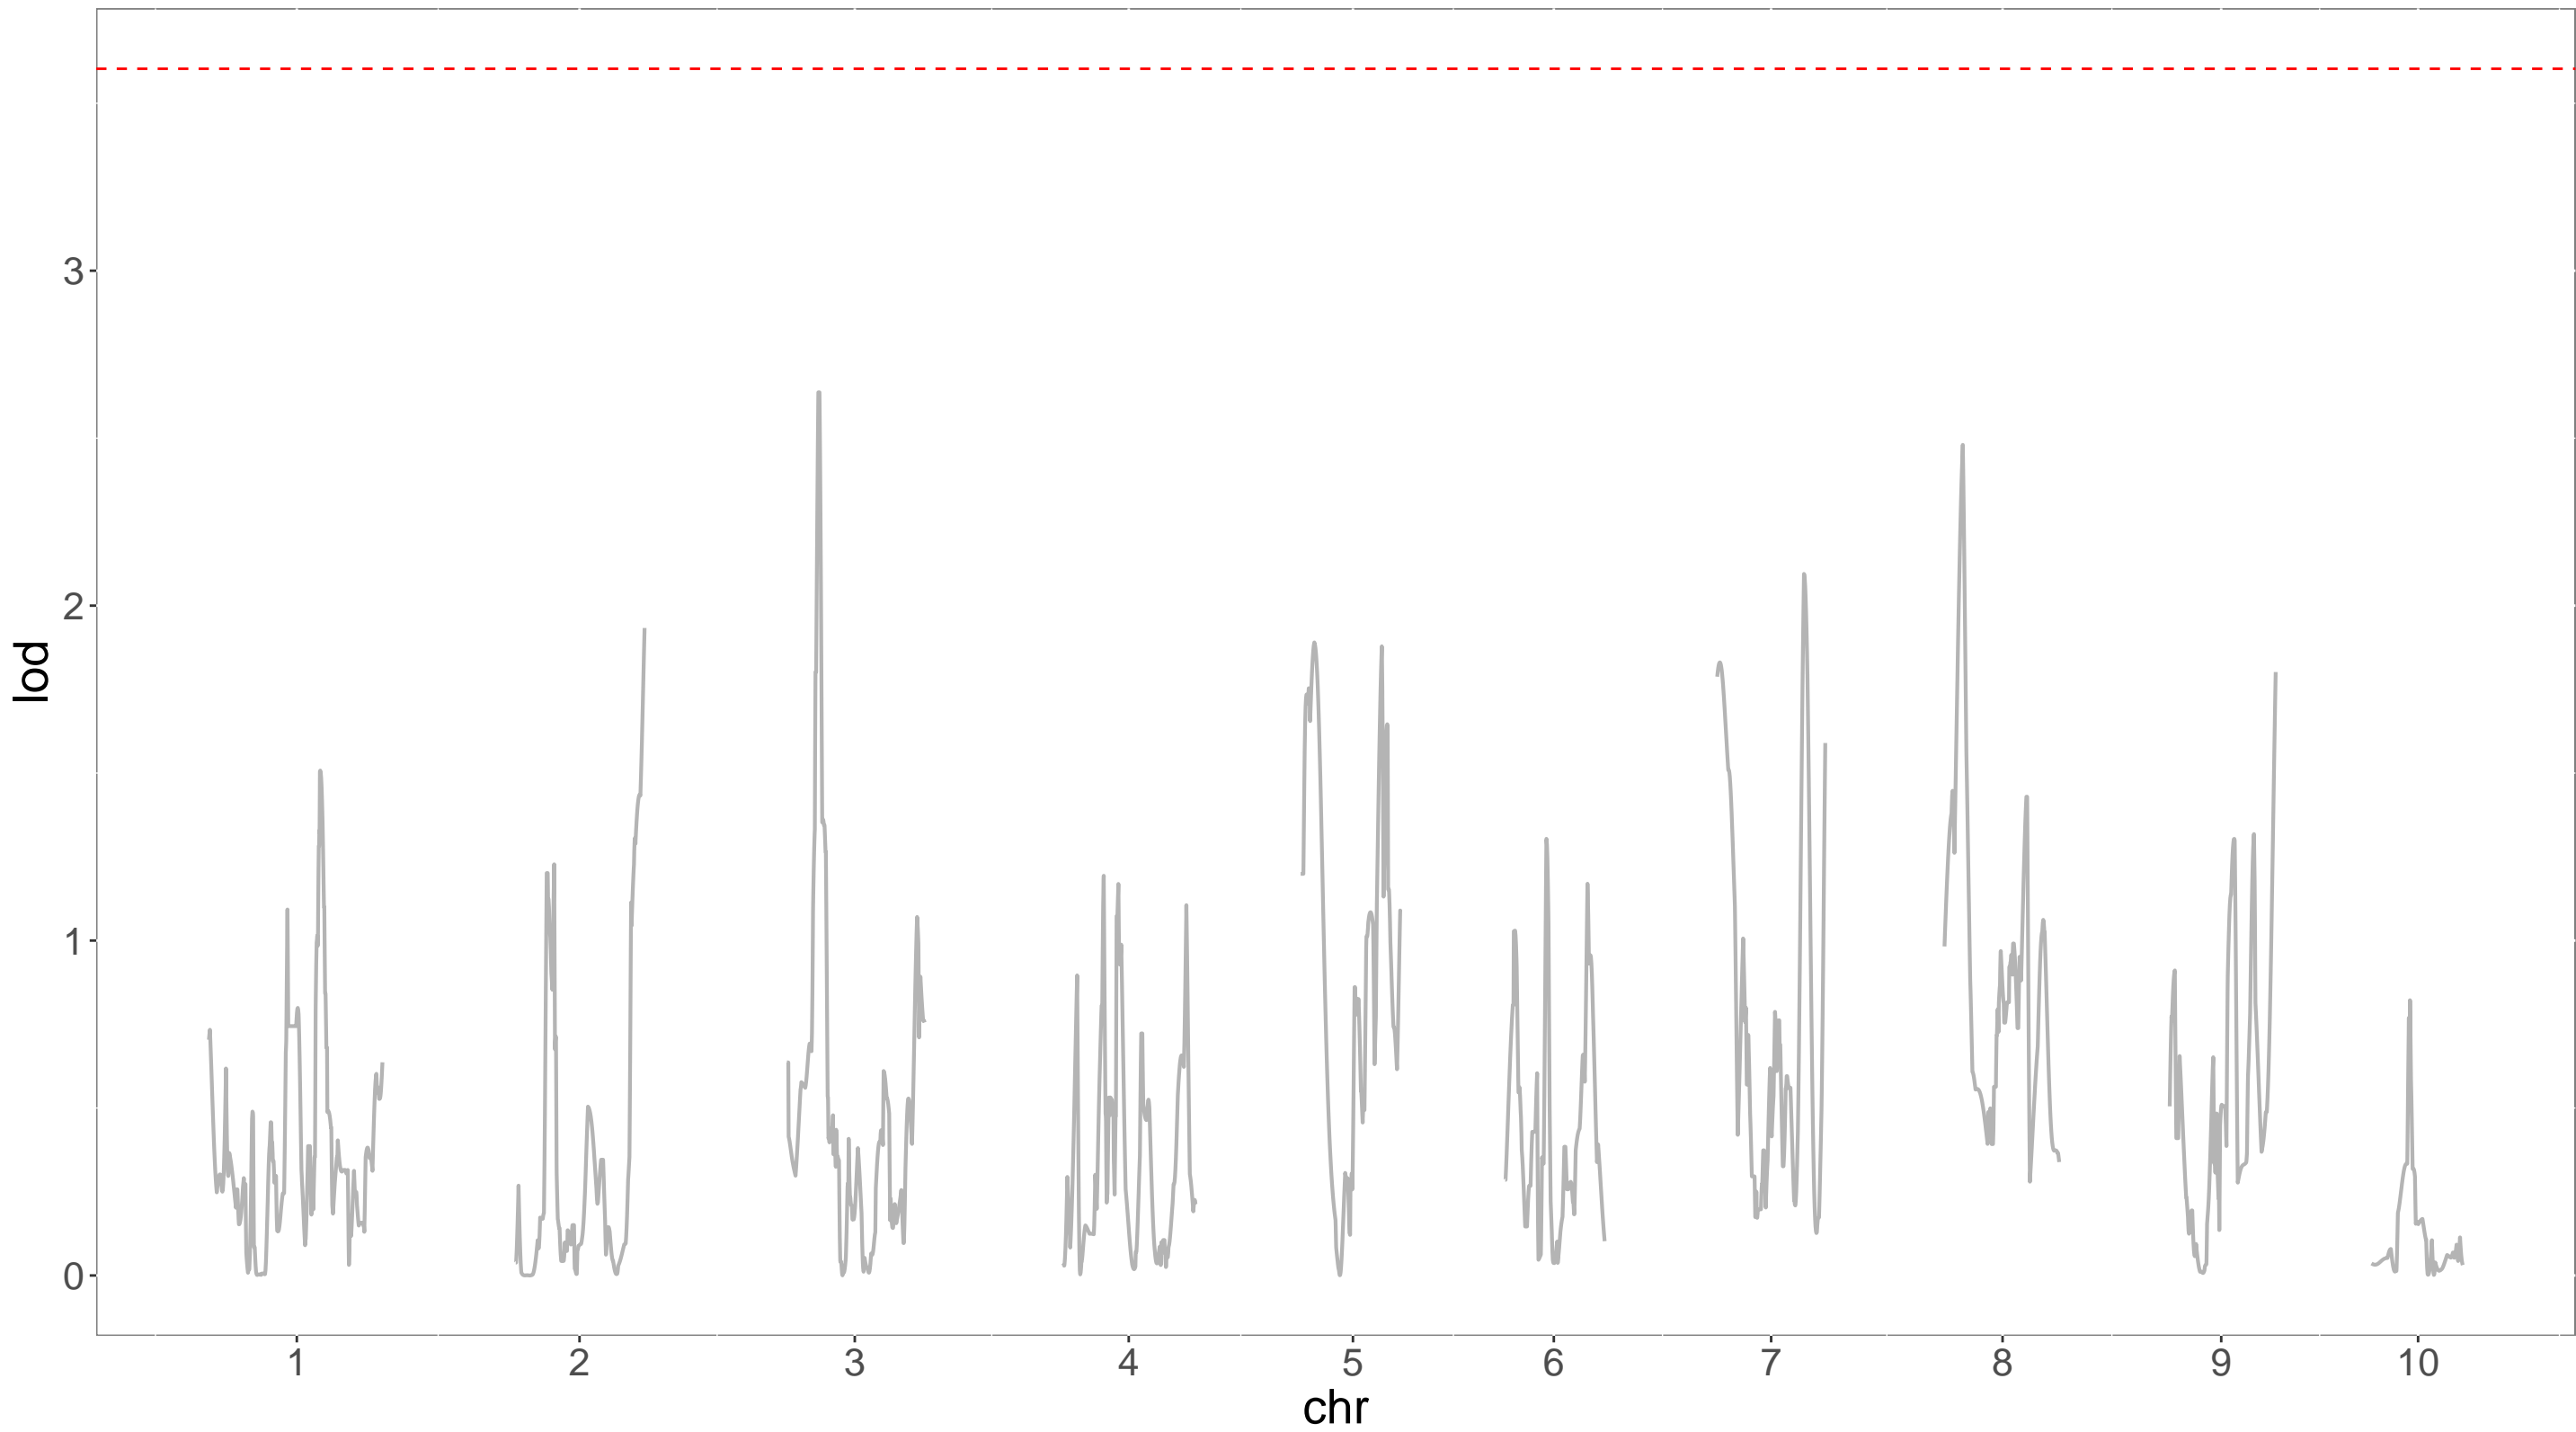

QTL analysis for WT families only for Cu_leaf

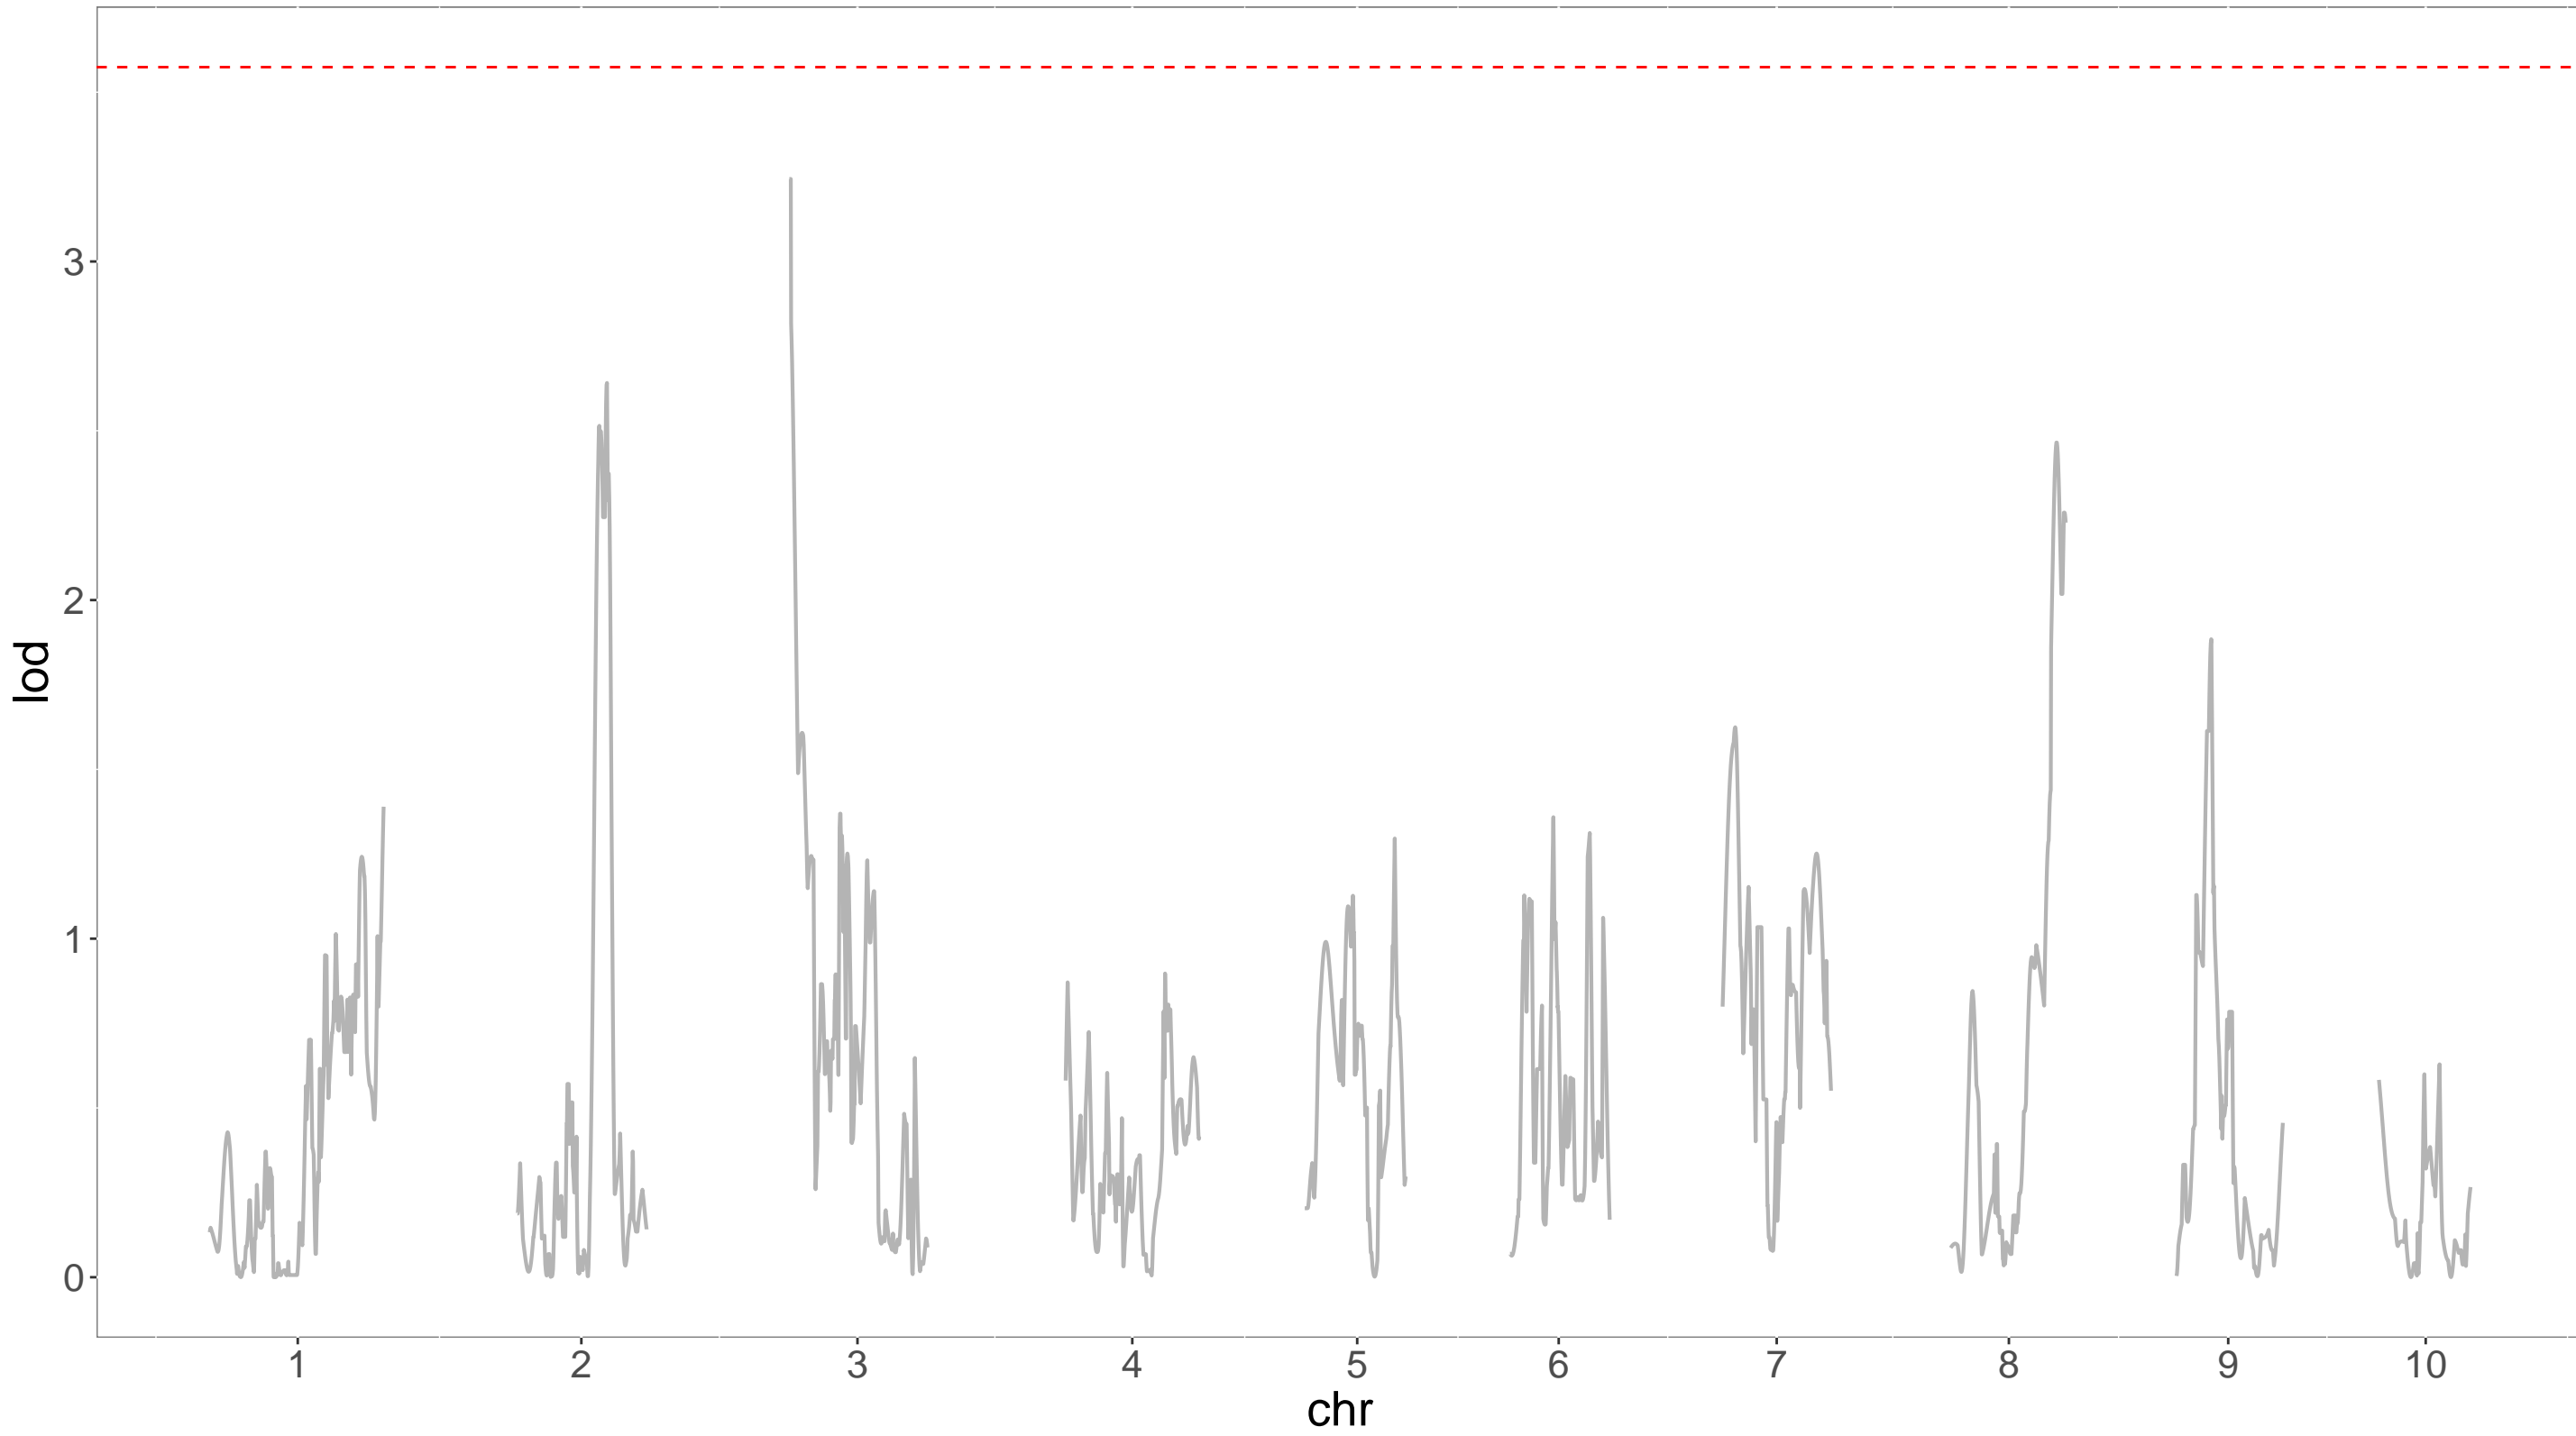

QTL analysis for WT families only for Cu_seed

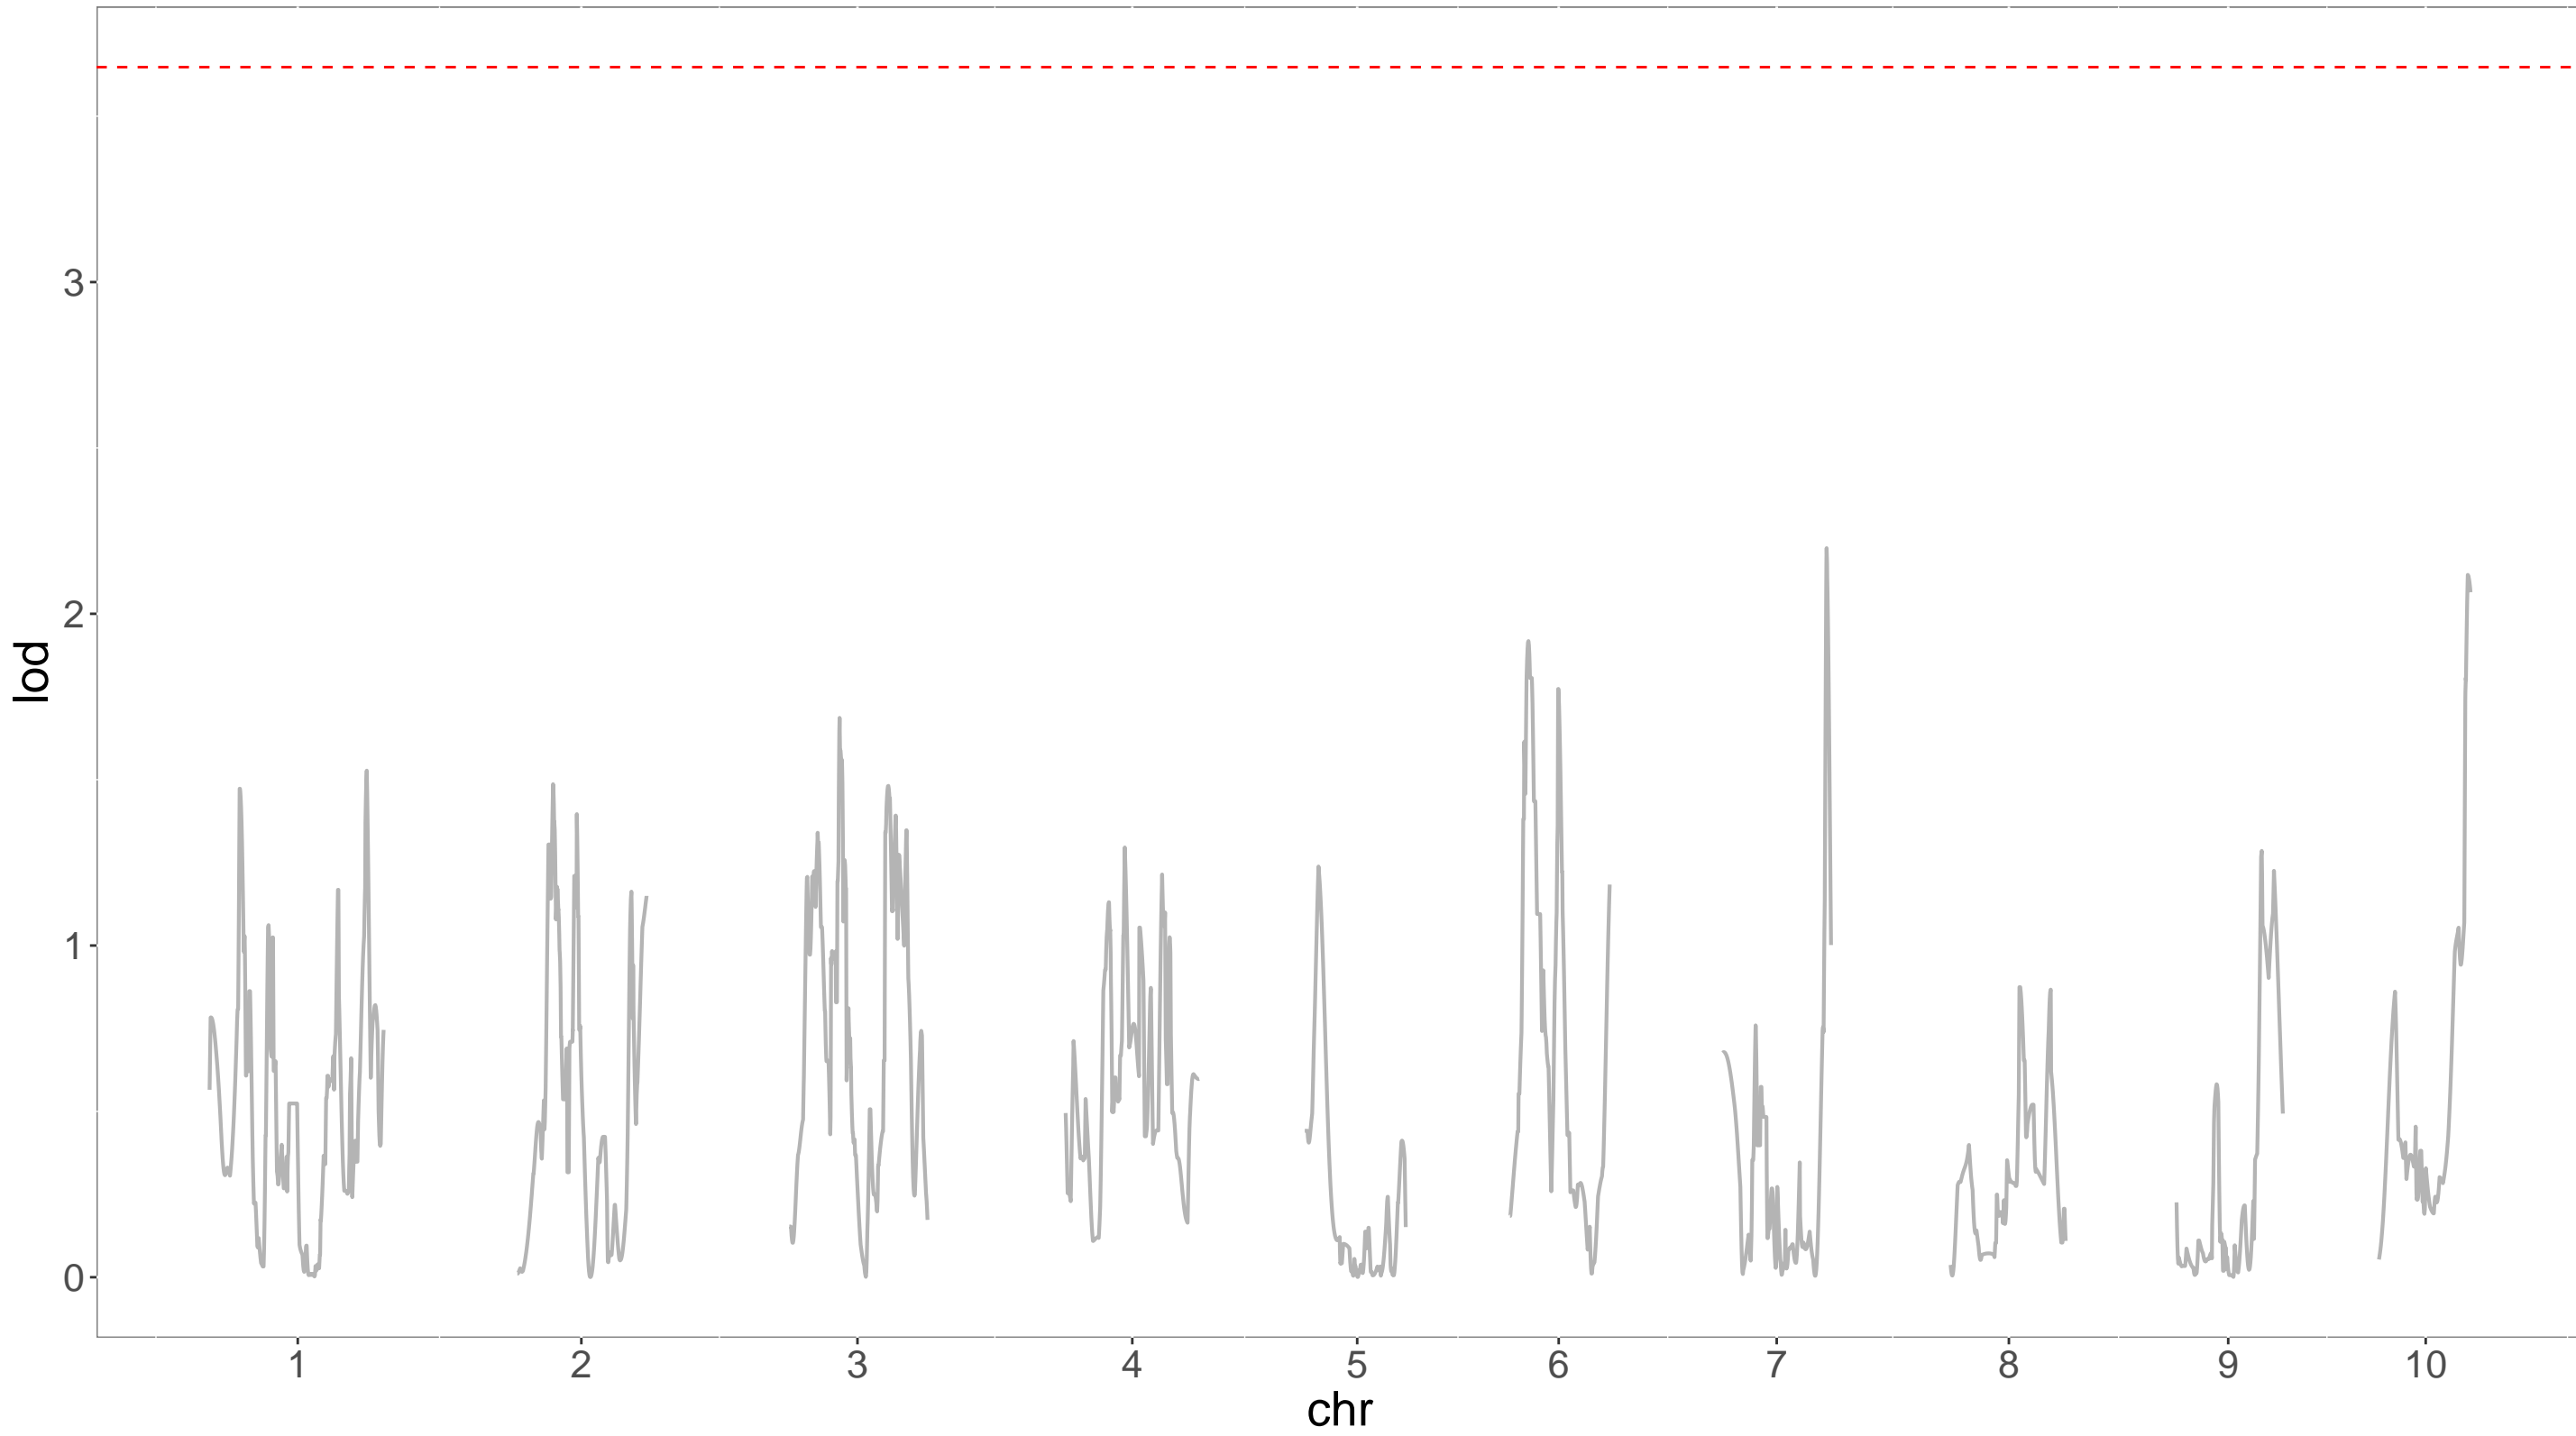

QTL analysis for WT families only for Fe_leaf

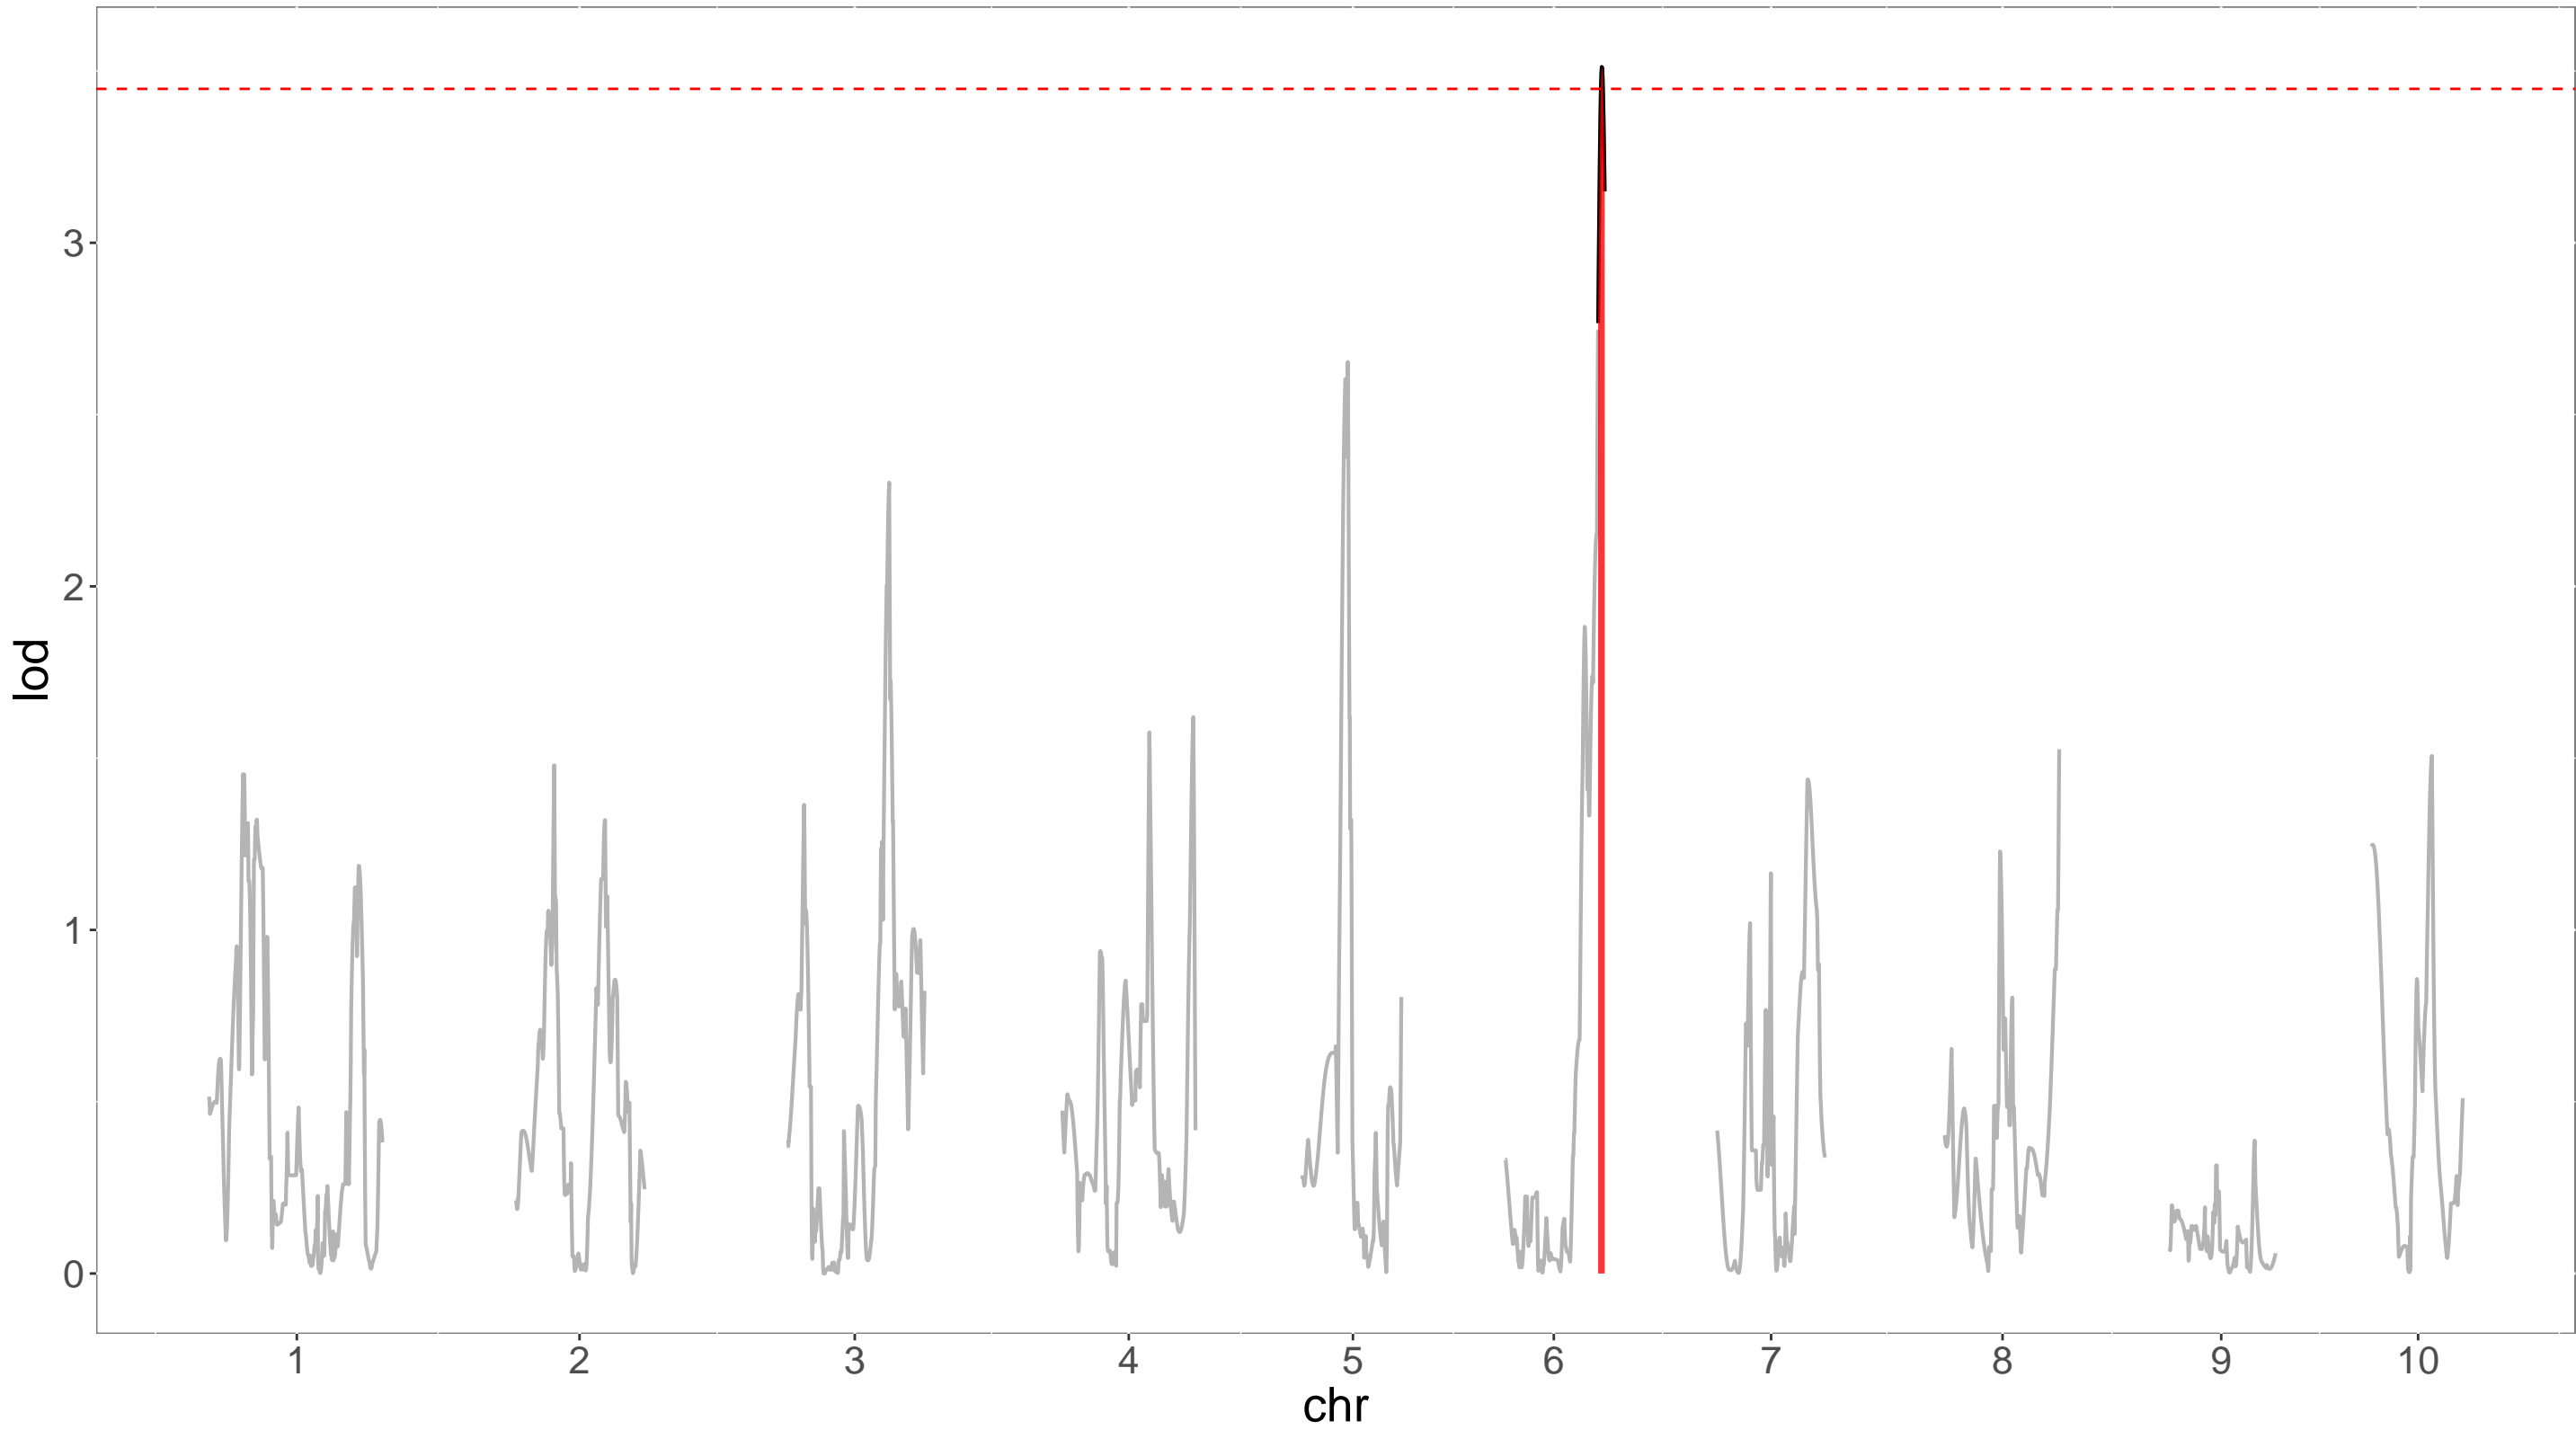

QTL analysis for WT families only for Fe_seed

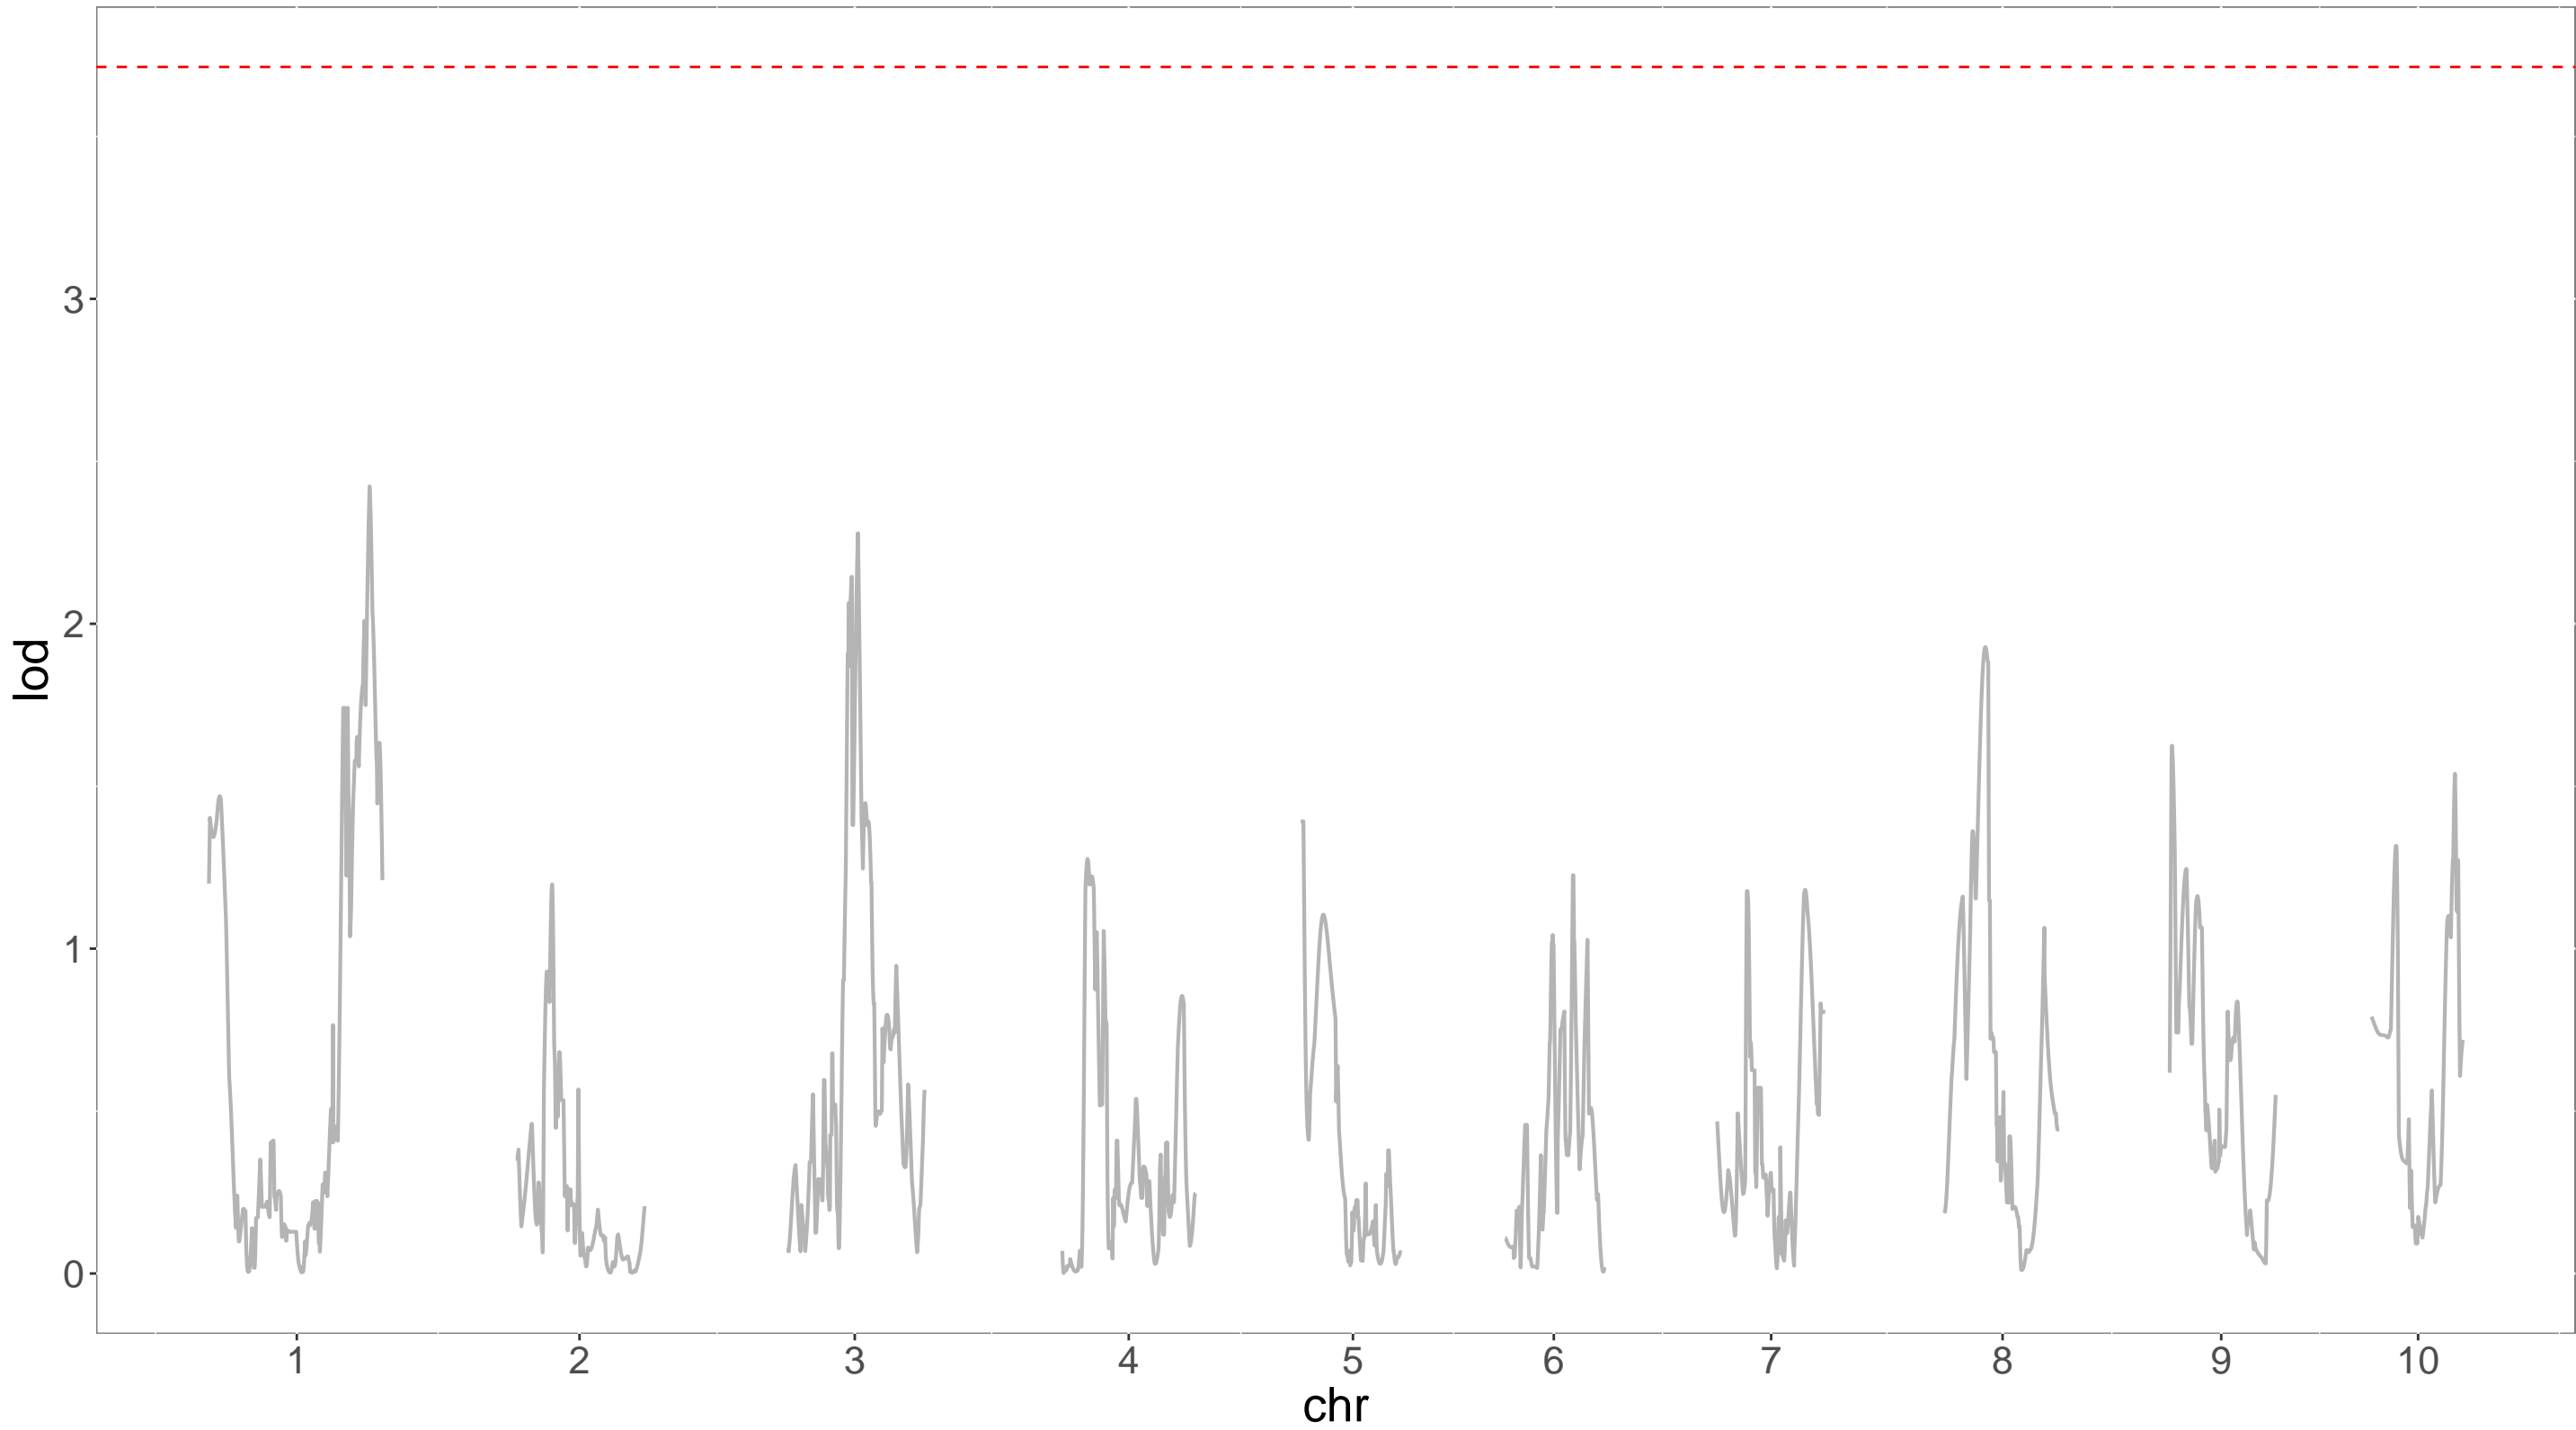

QTL analysis for WT families only for K_leaf

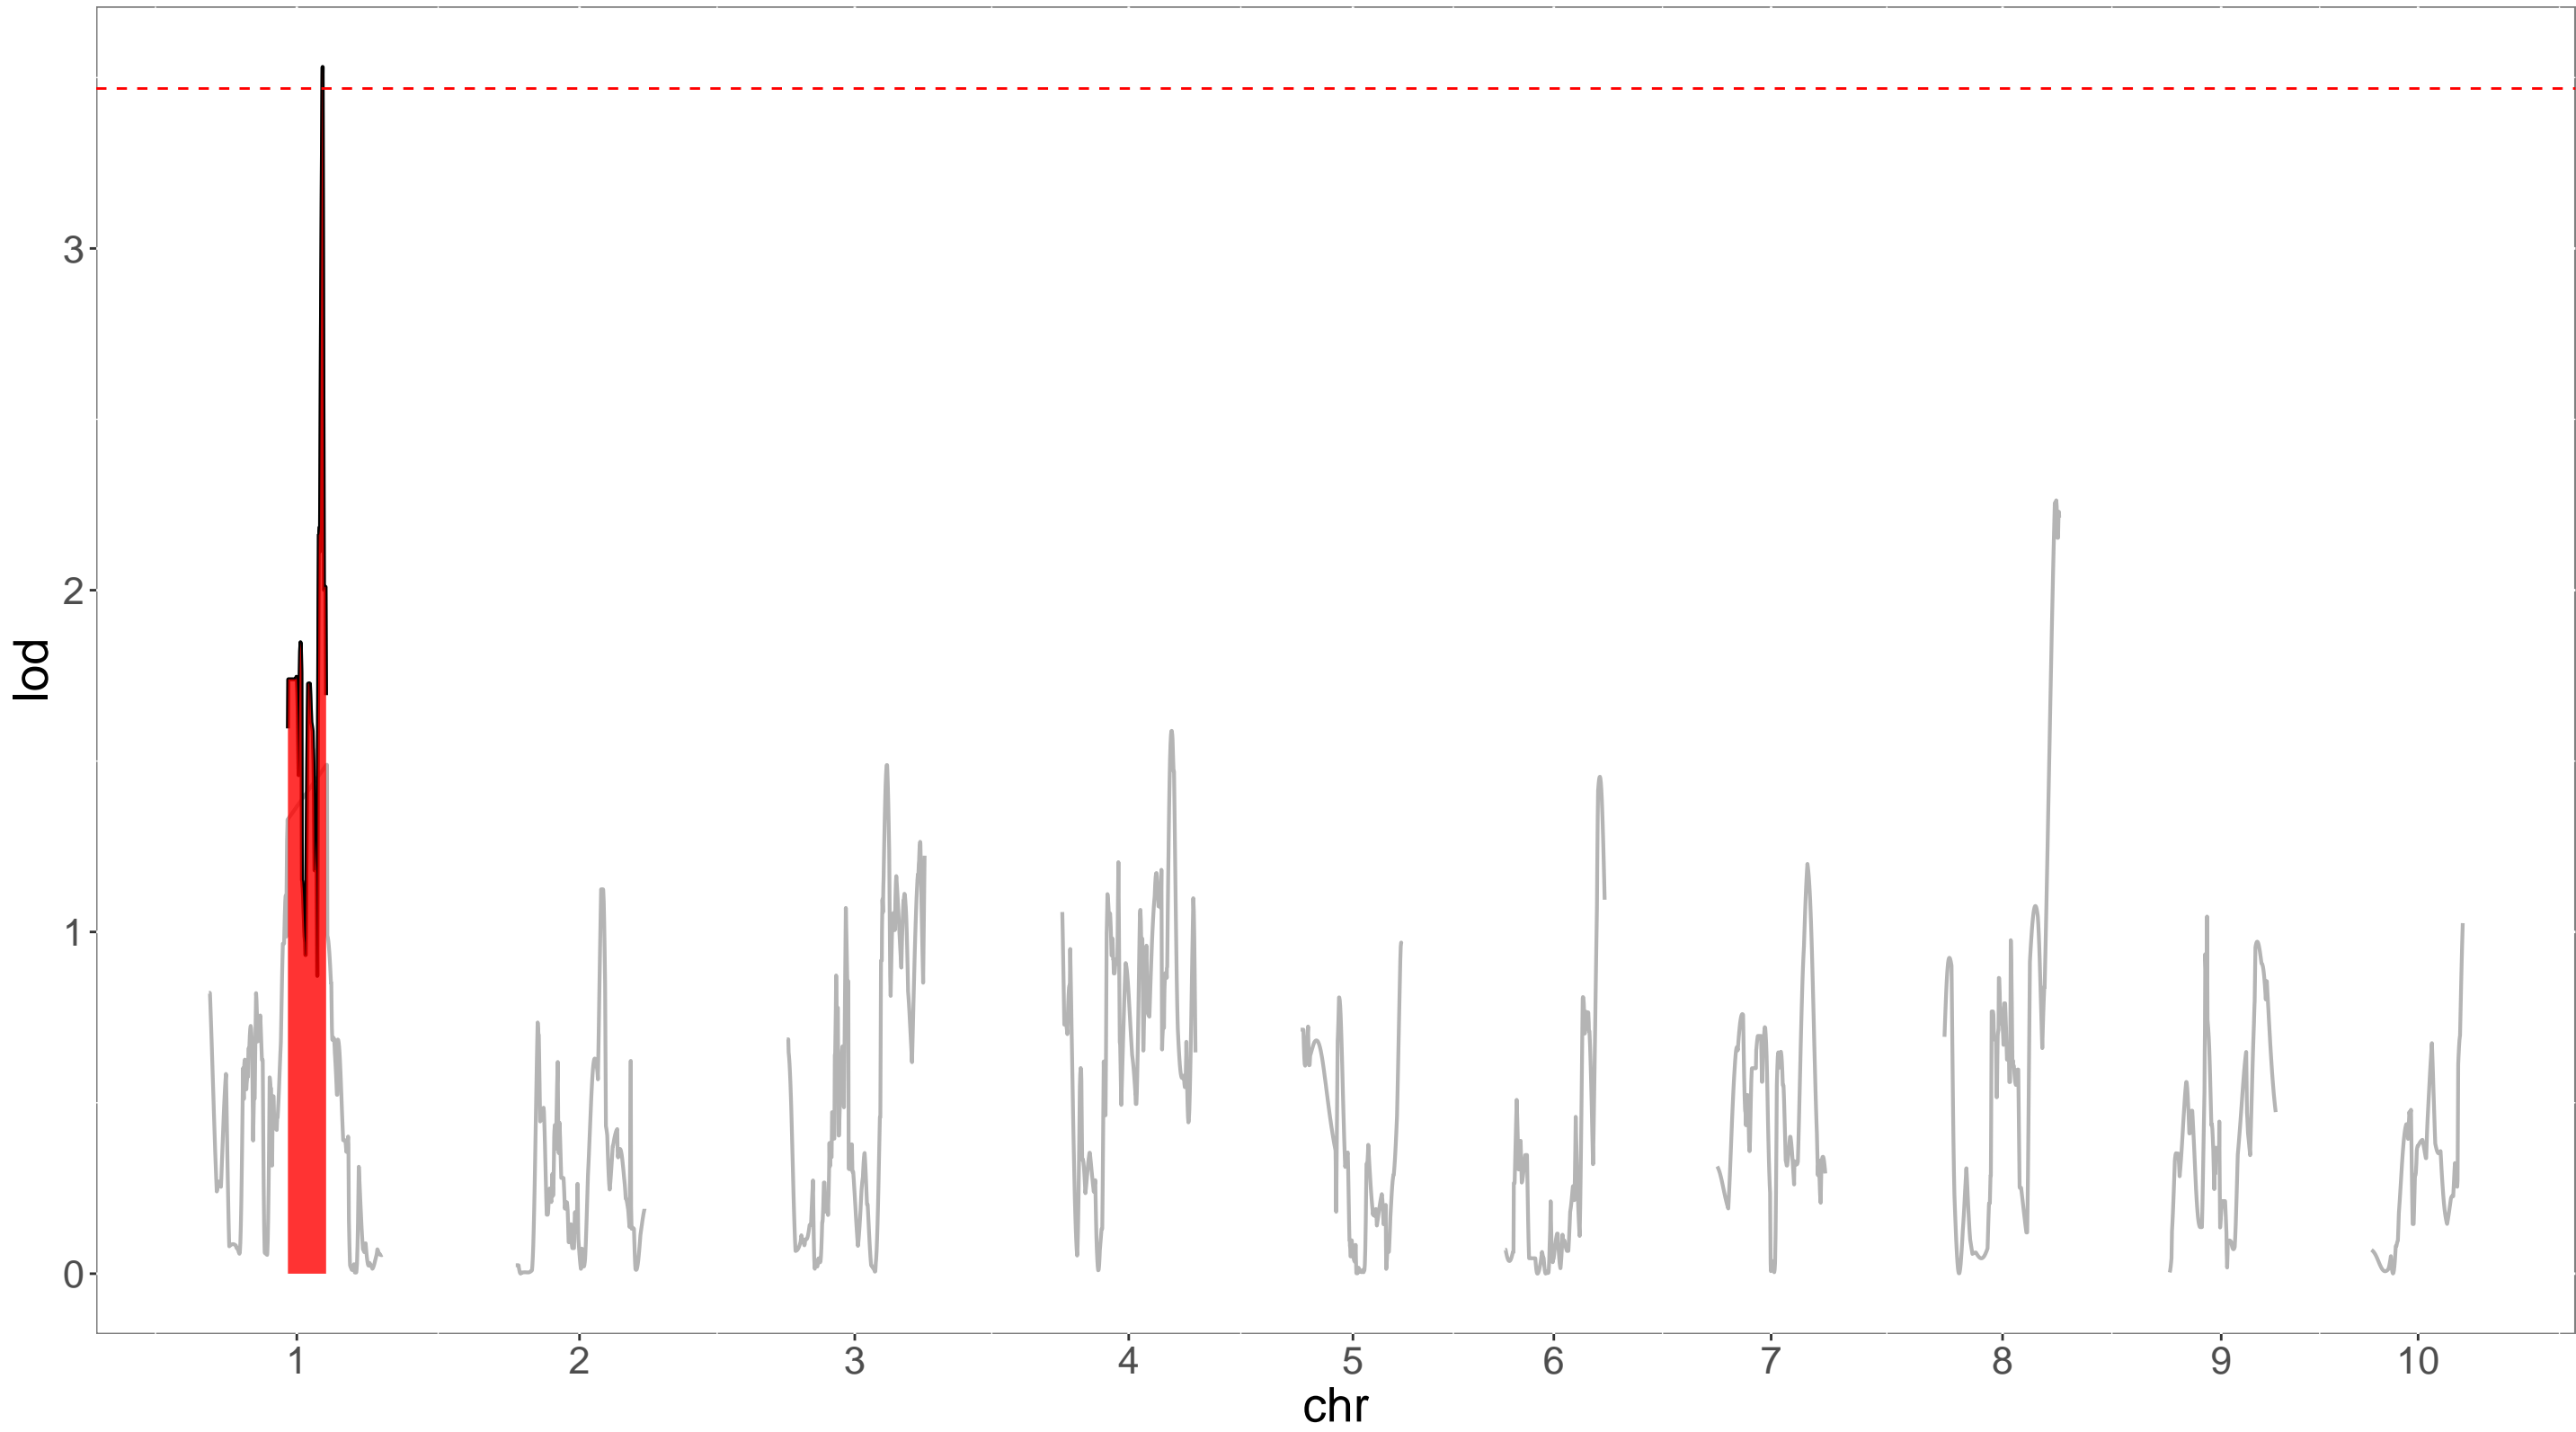

QTL analysis for WT families only for K_seed

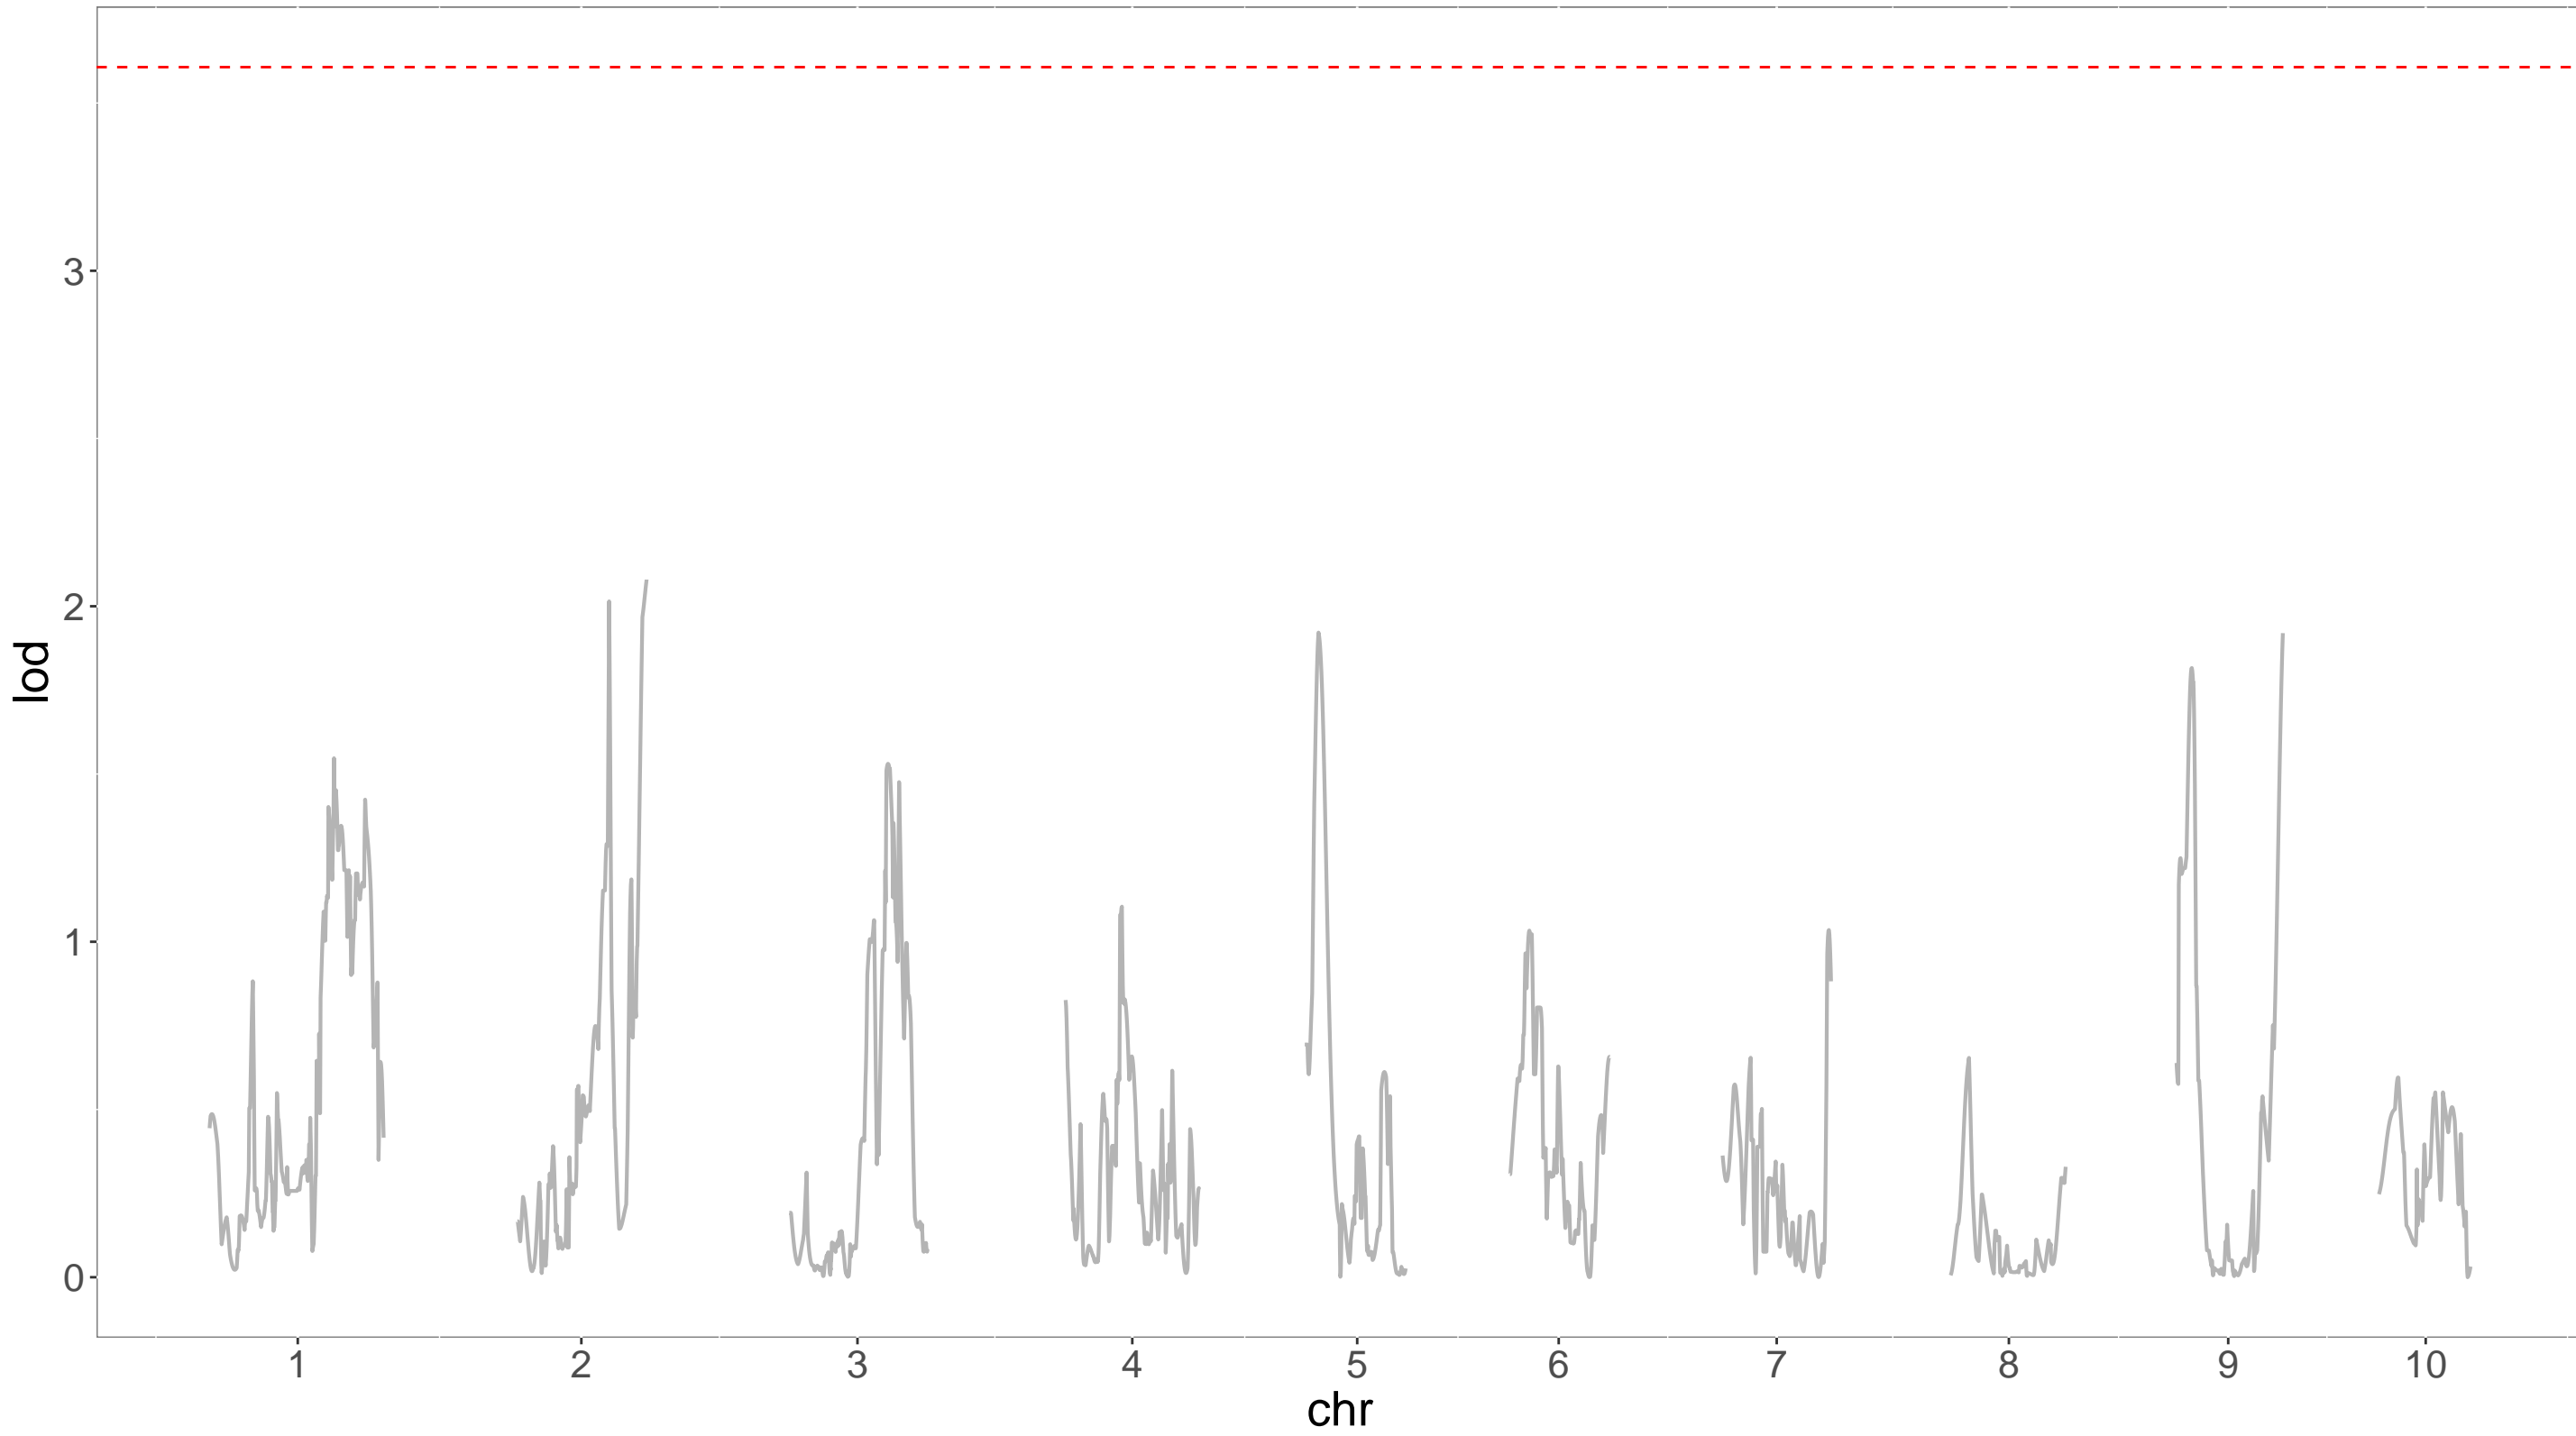

QTL analysis for WT families only for Mg_leaf

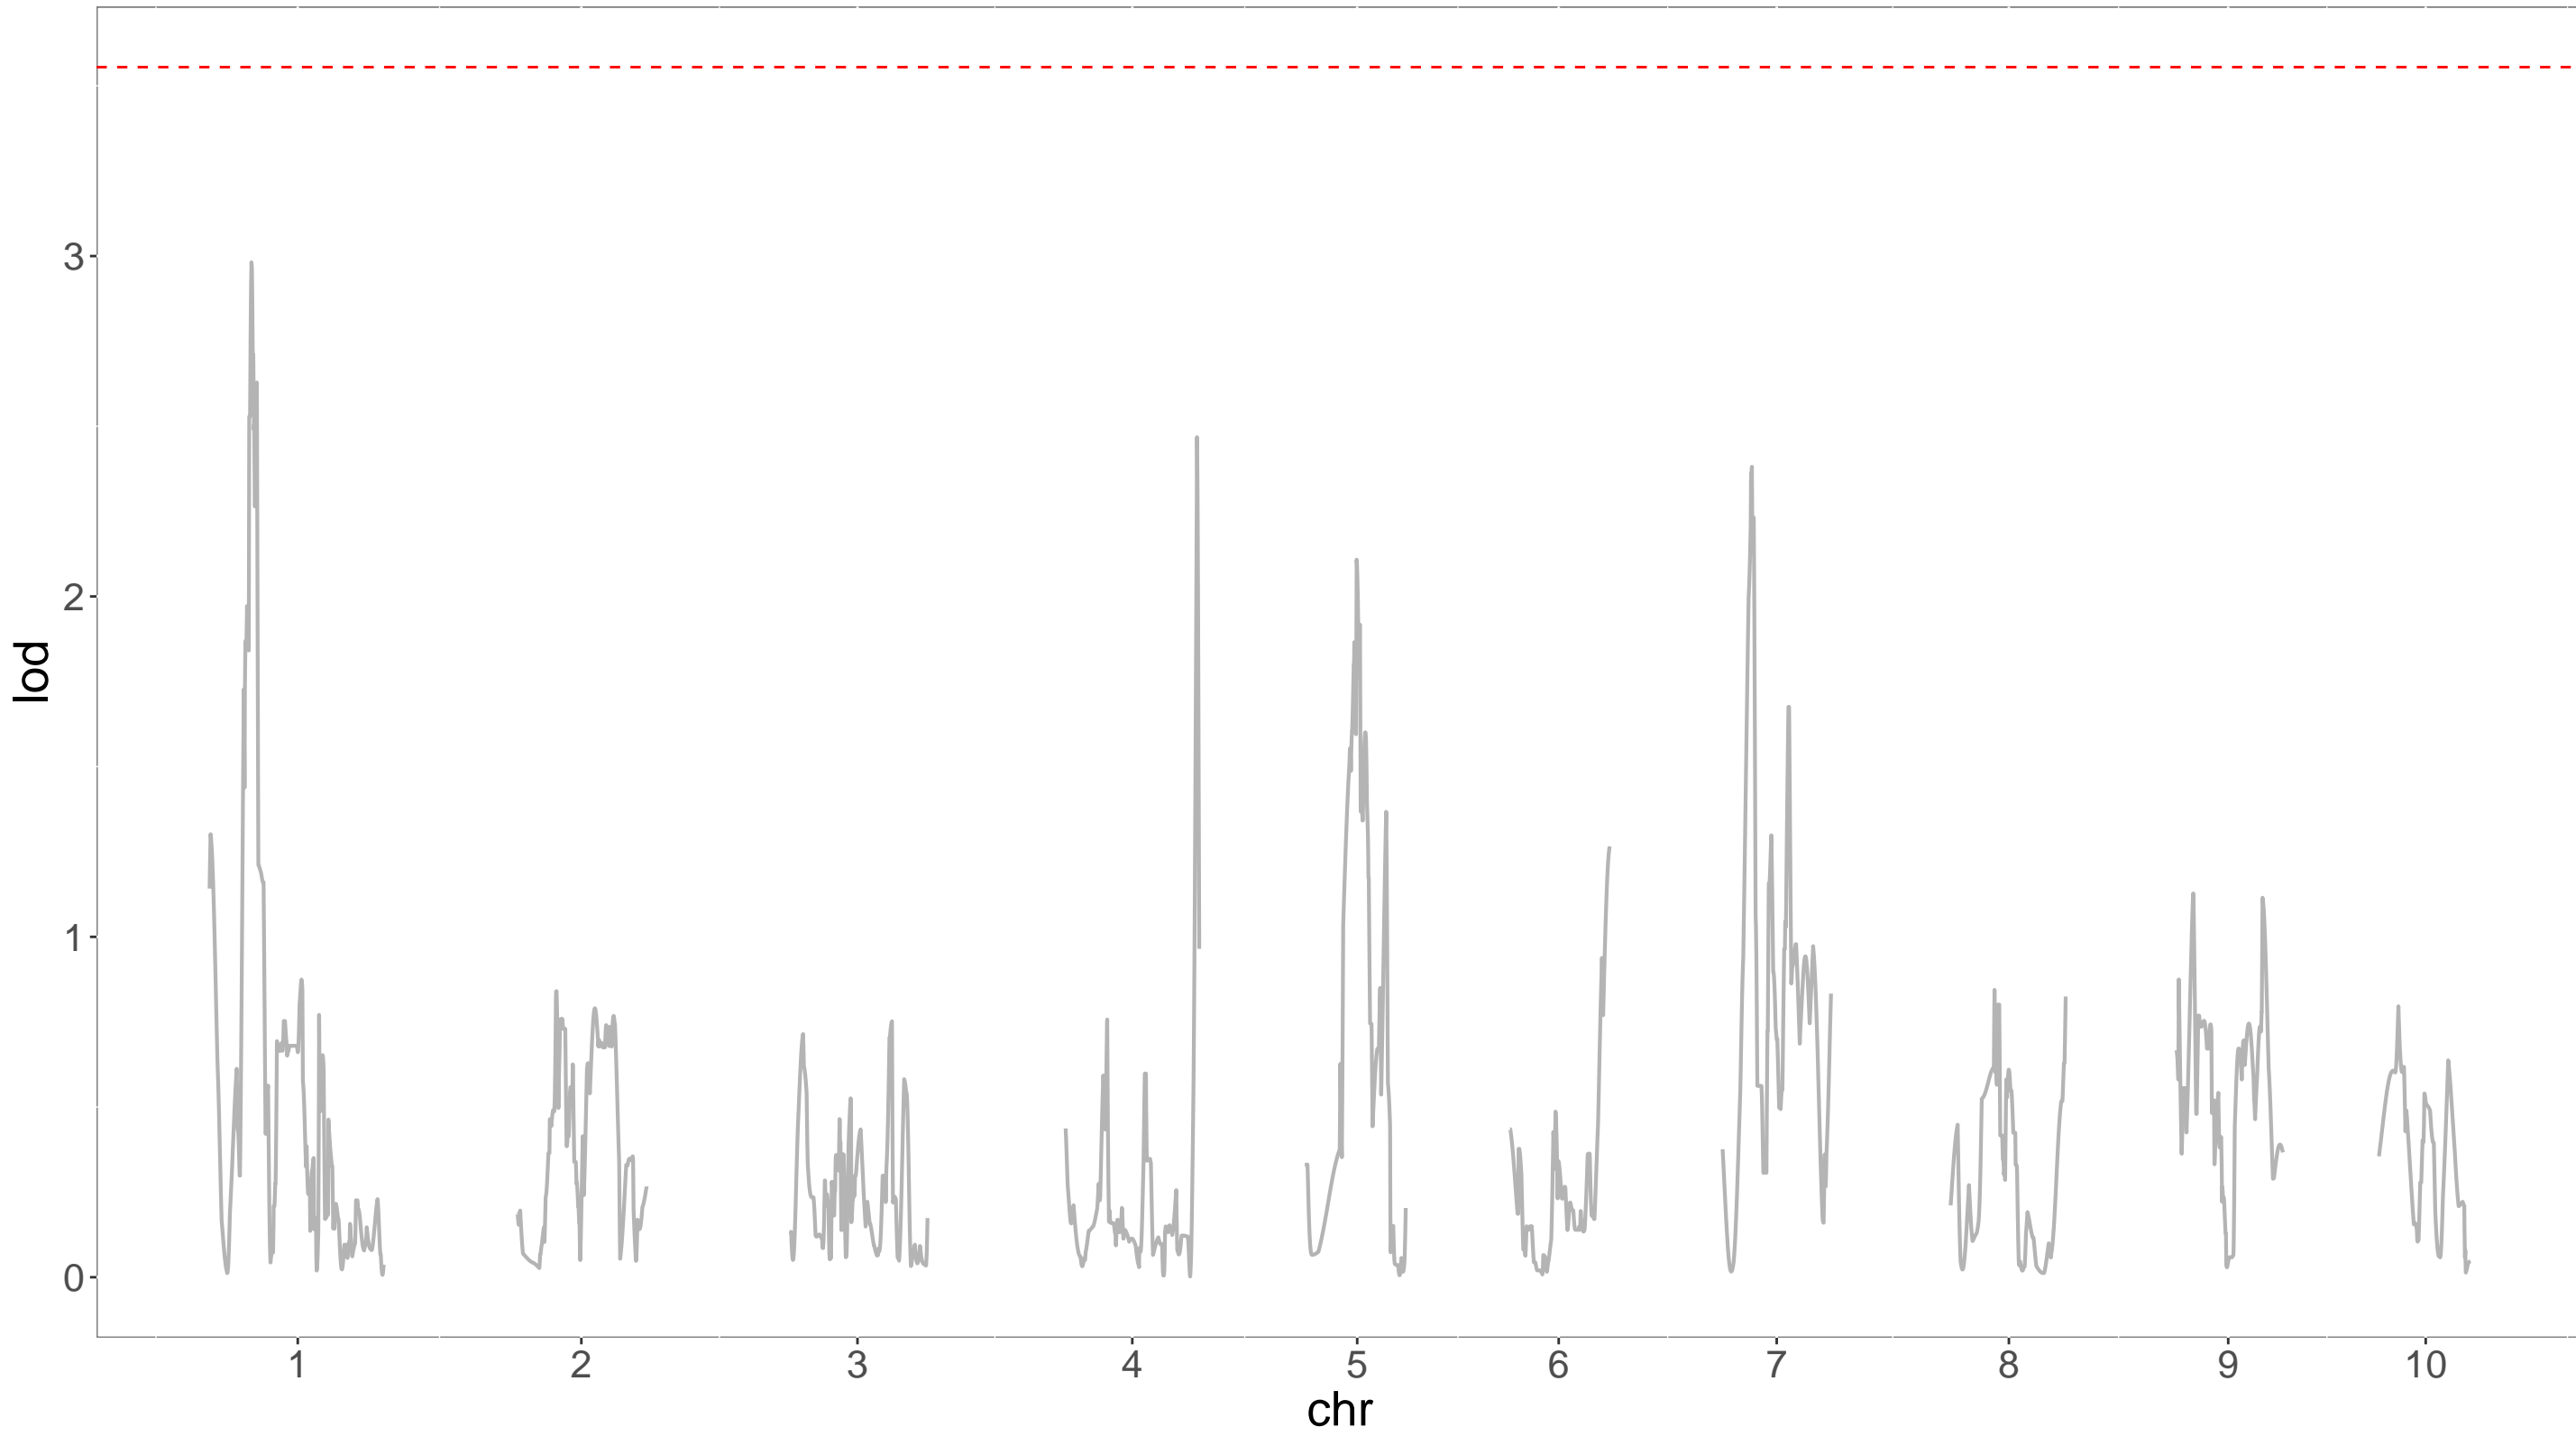

QTL analysis for WT families only for Mg_seed

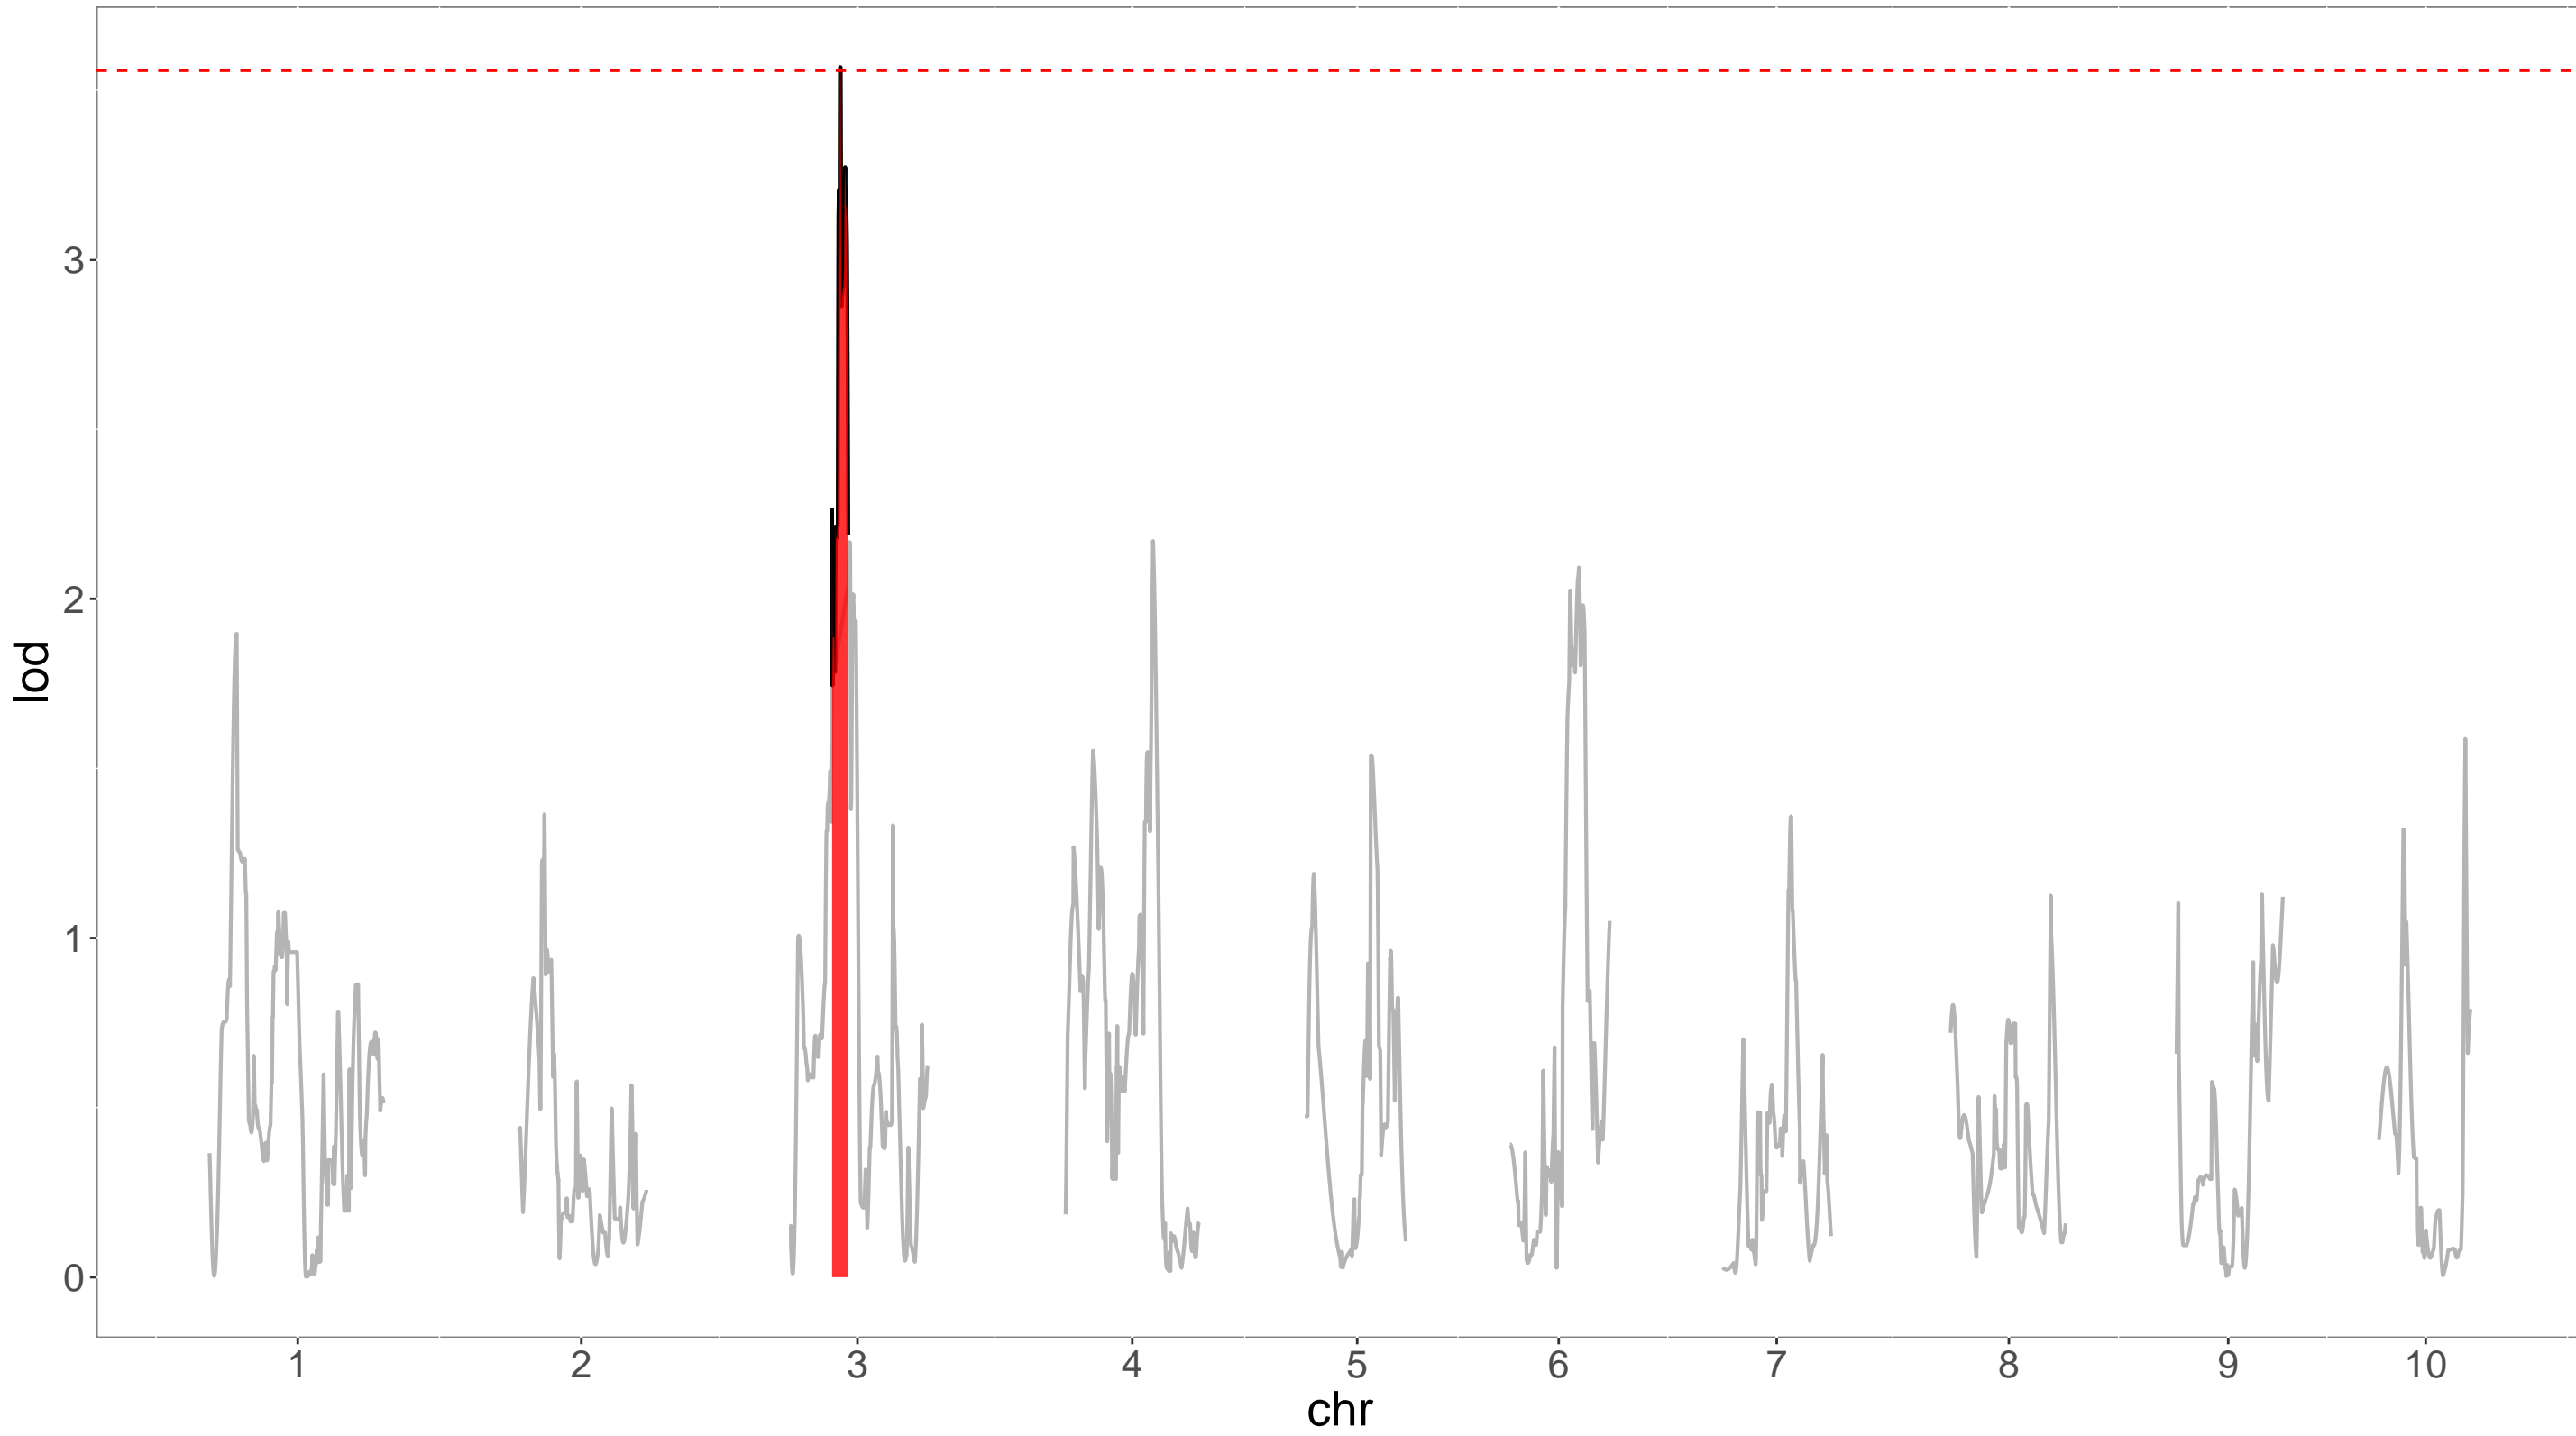

QTL analysis for WT families only for Mn_leaf

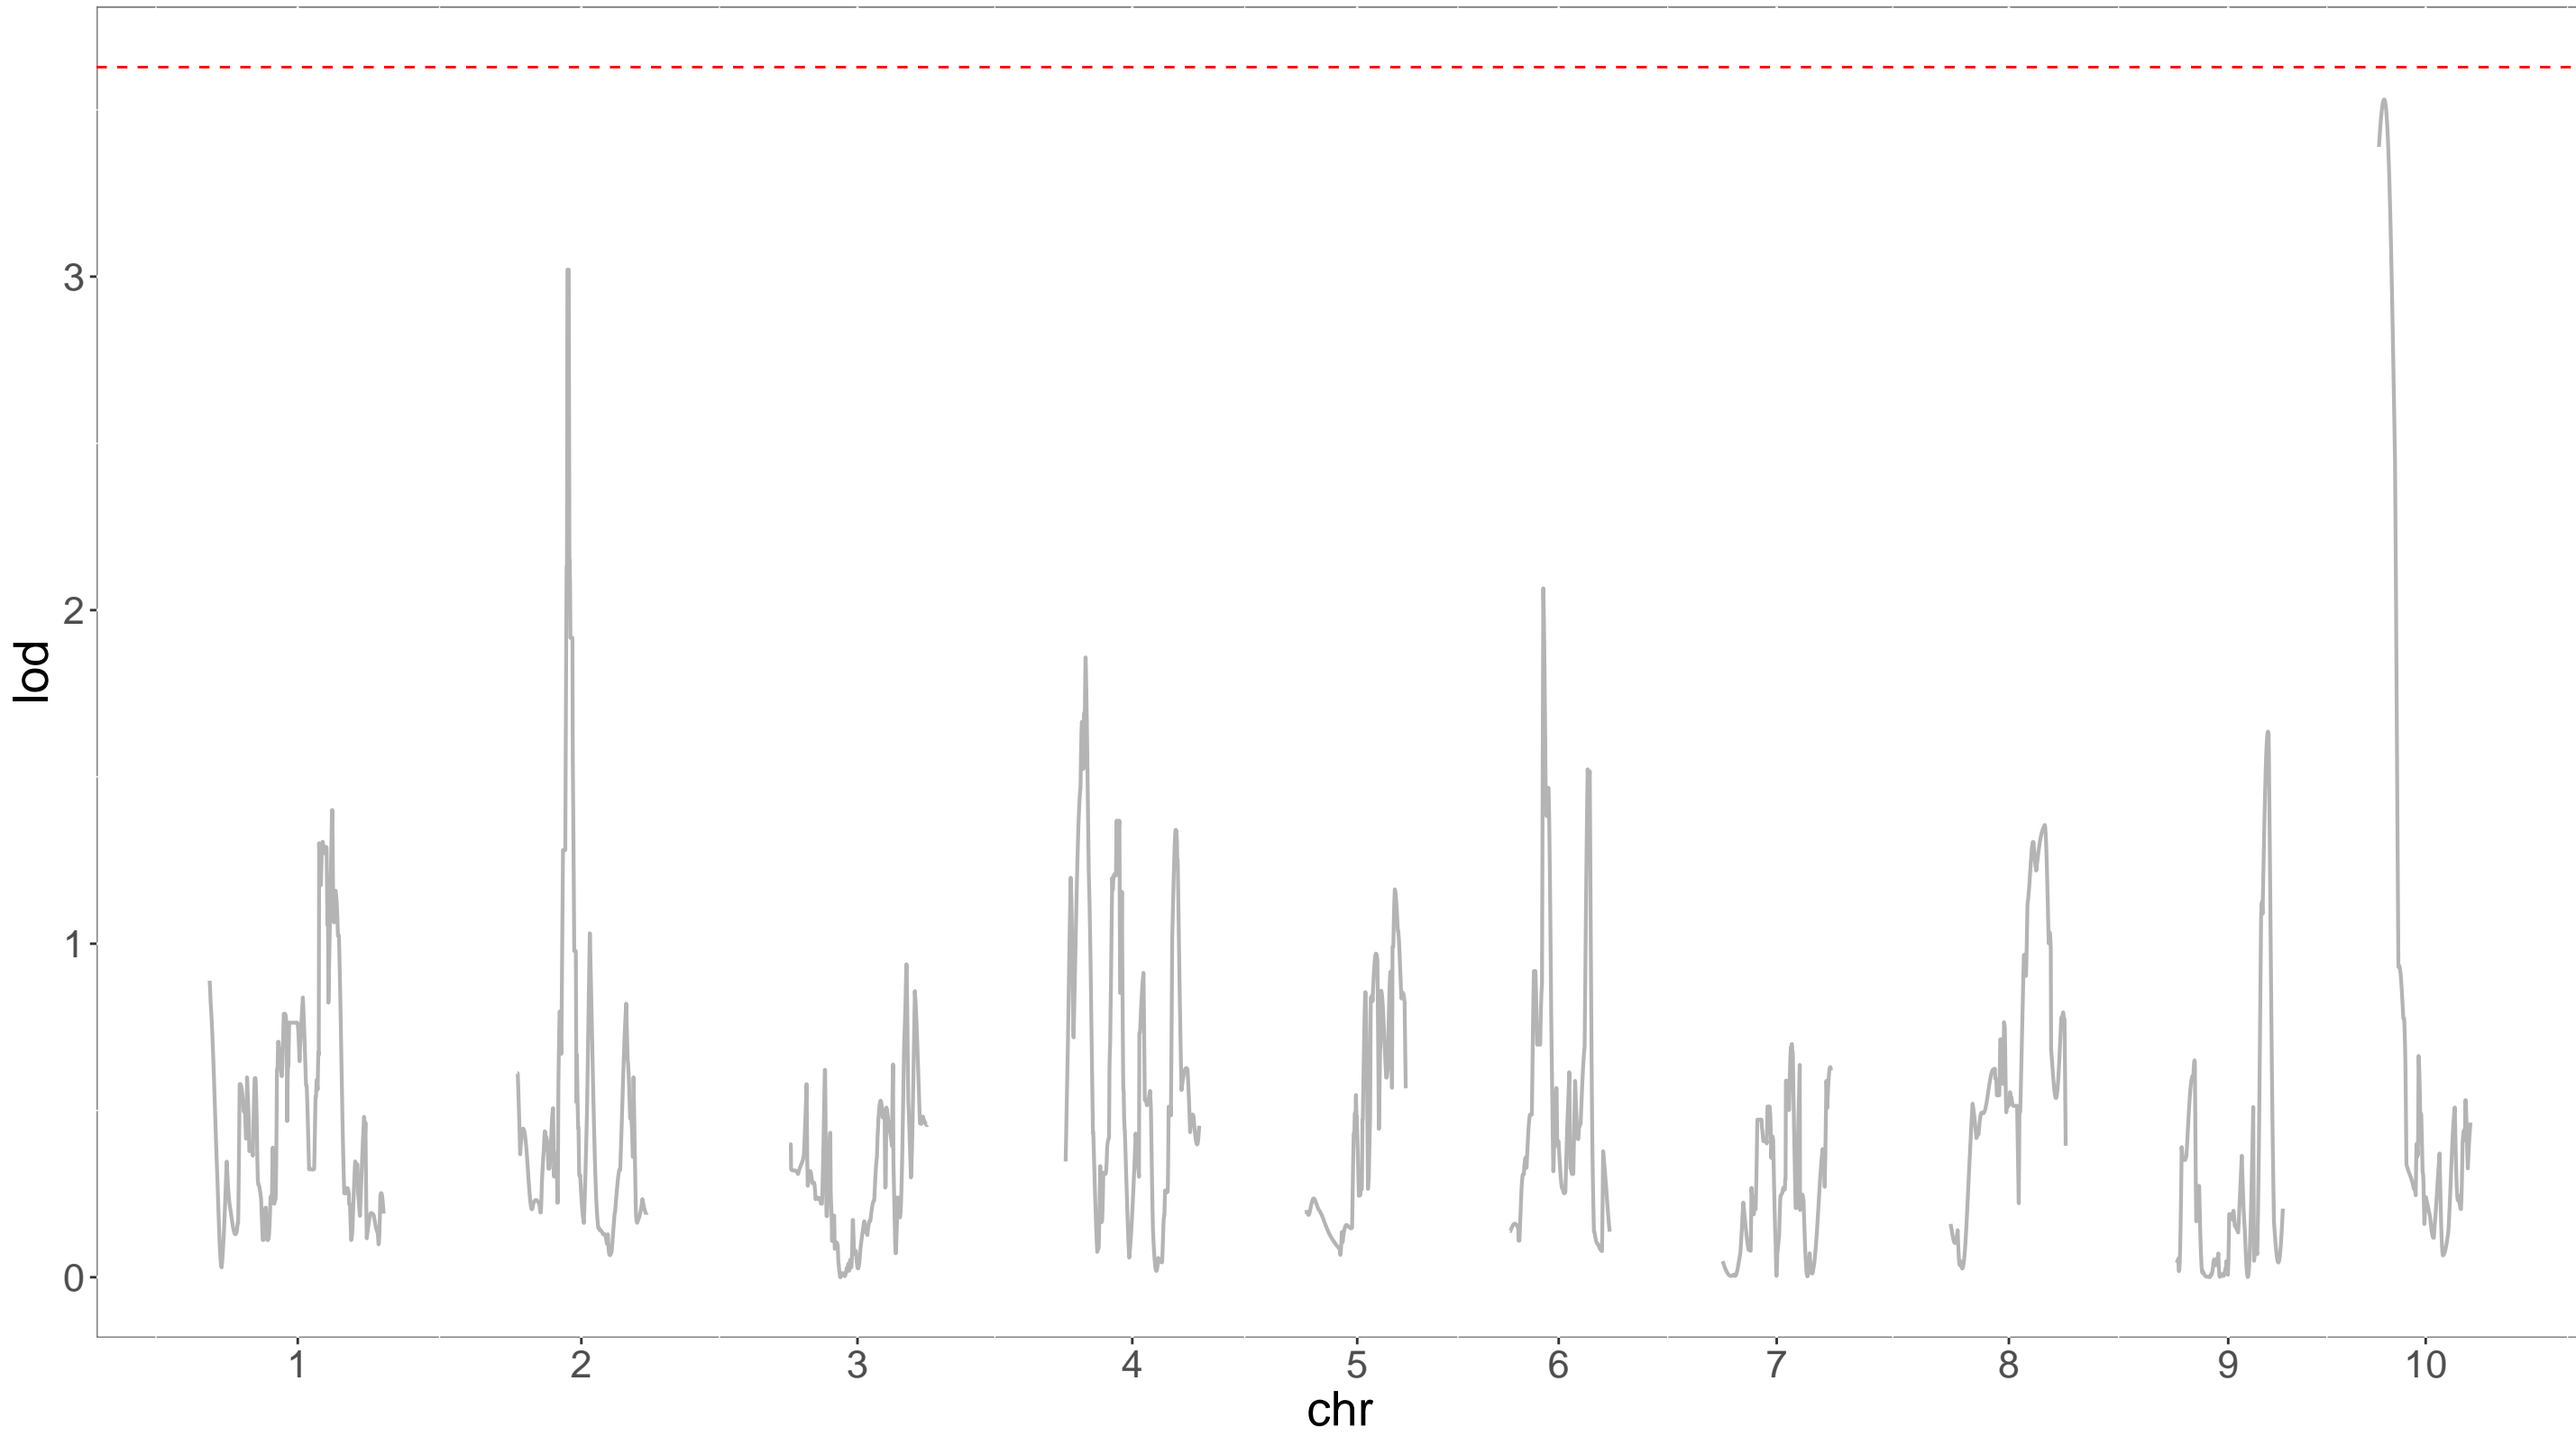

QTL analysis for WT families only for Mn_seed

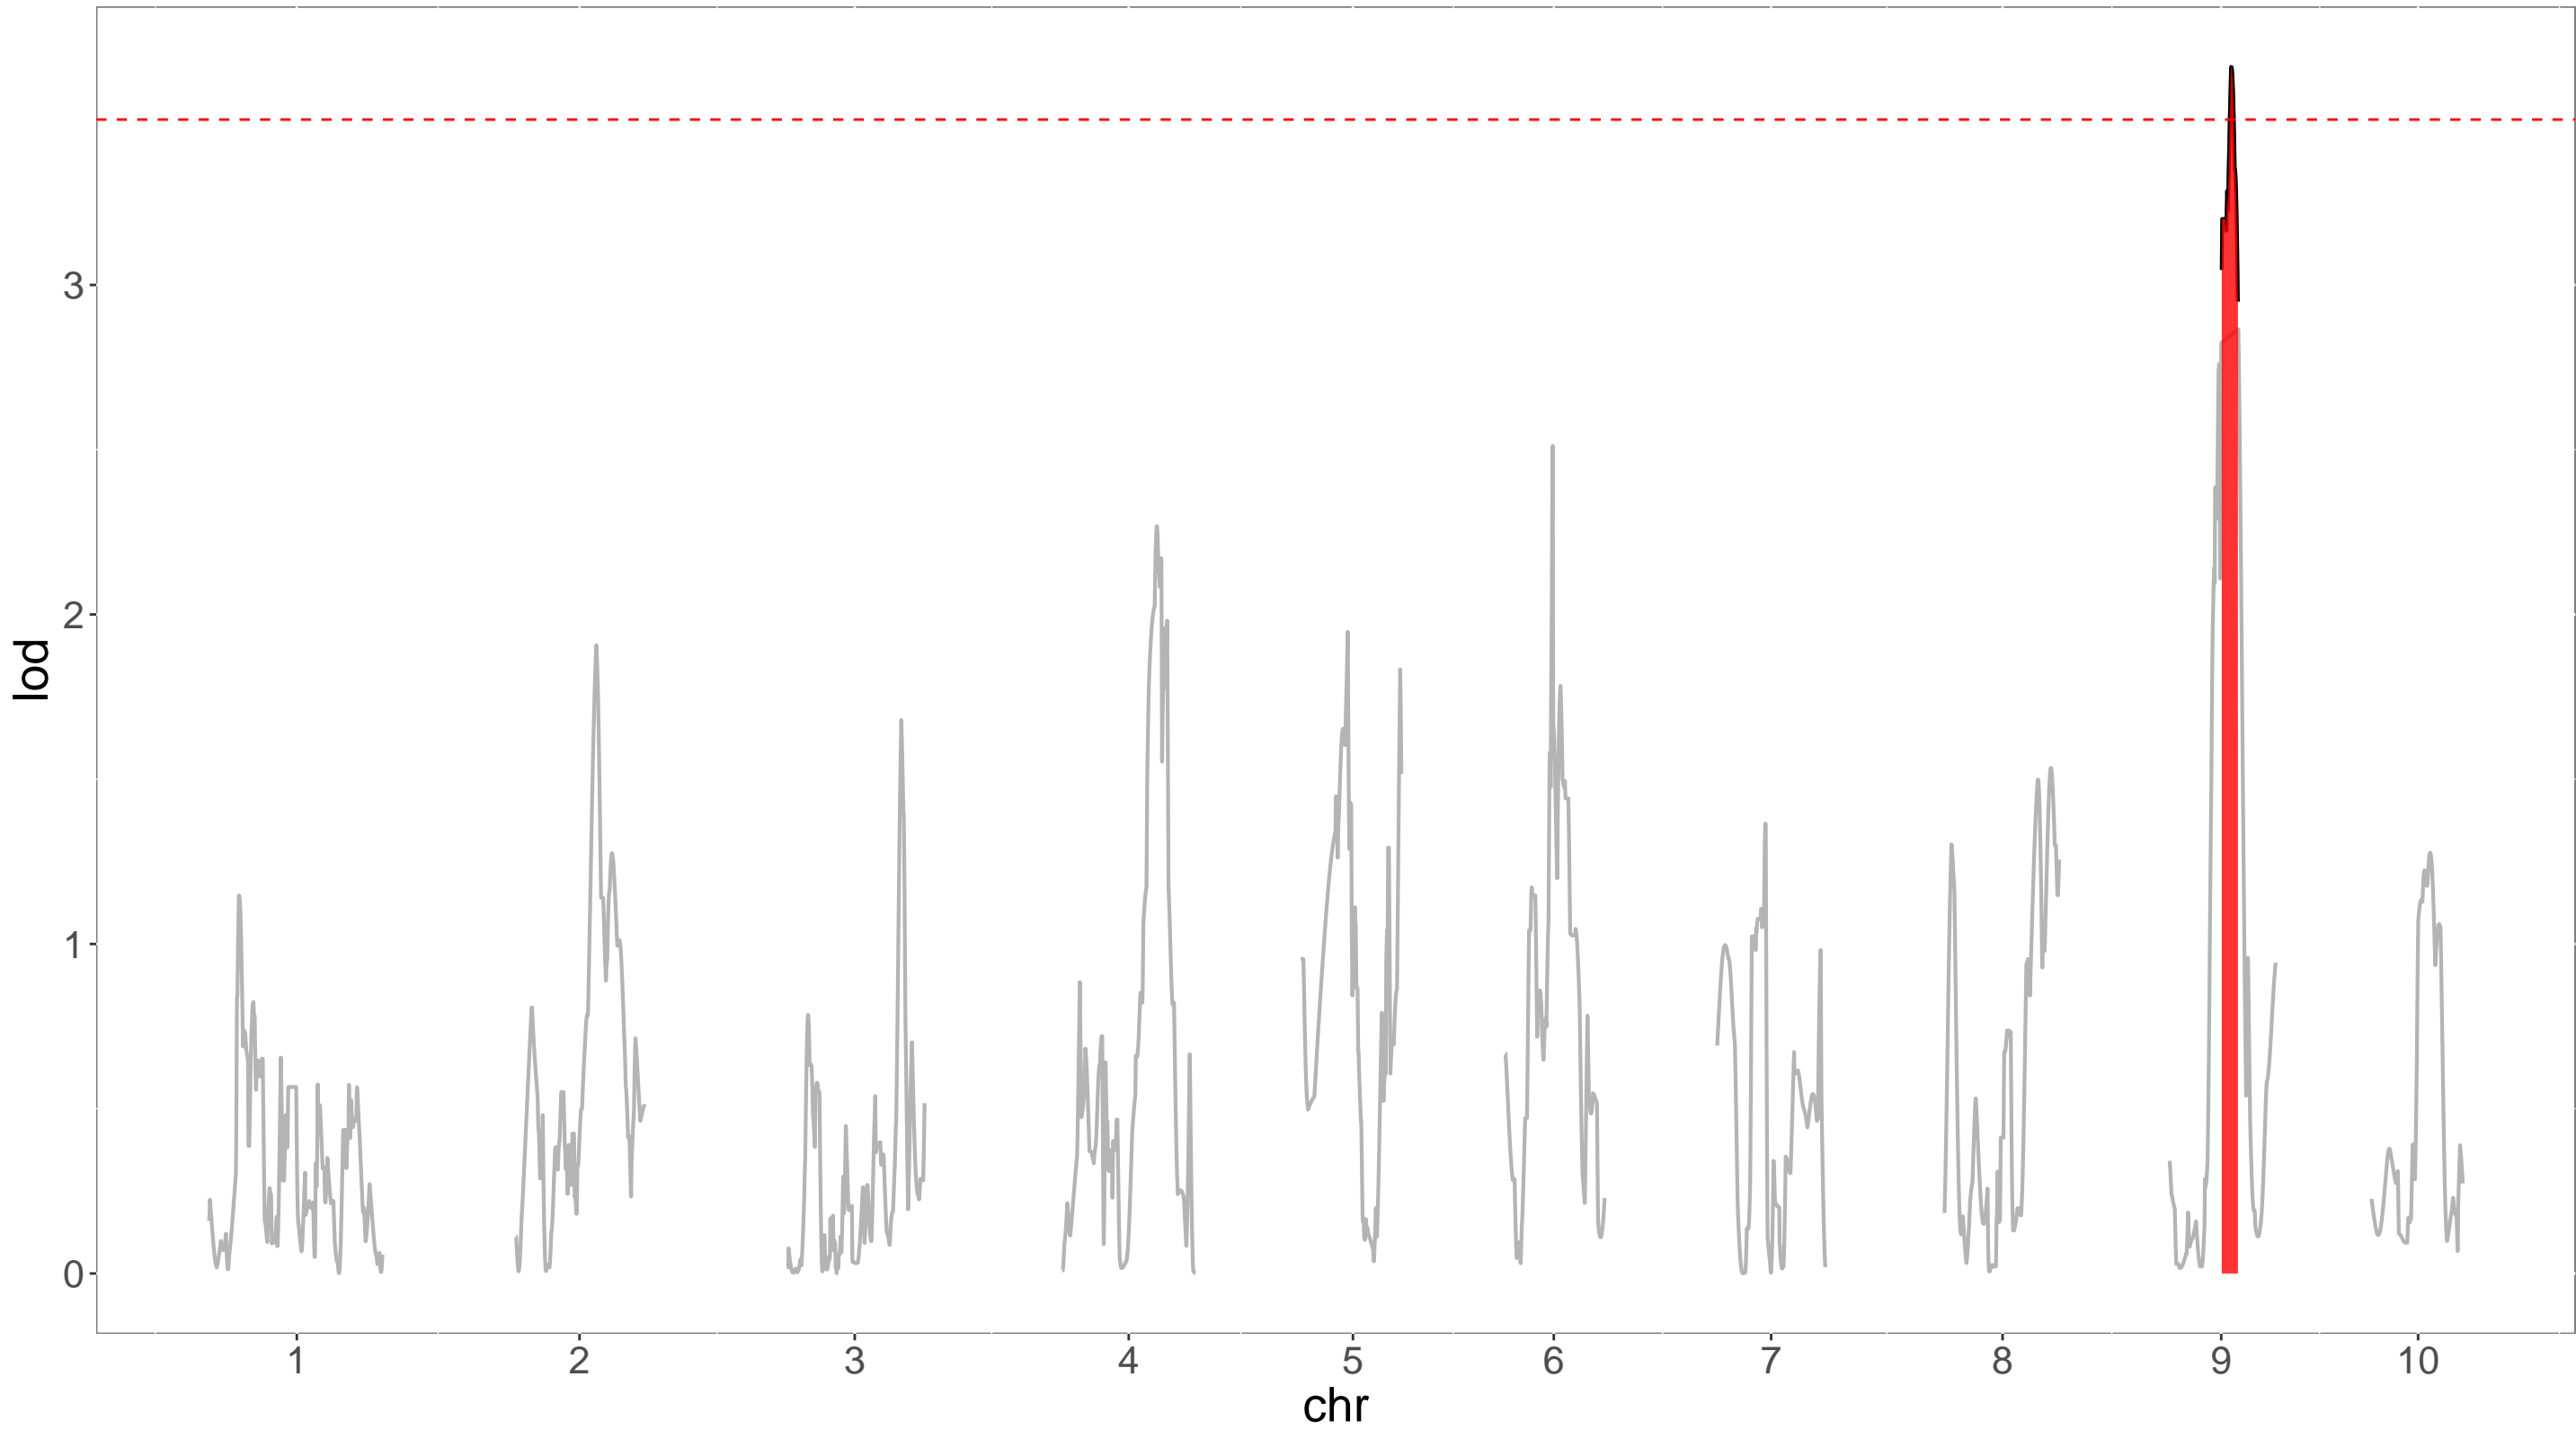

QTL analysis for WT families only for Mo_leaf

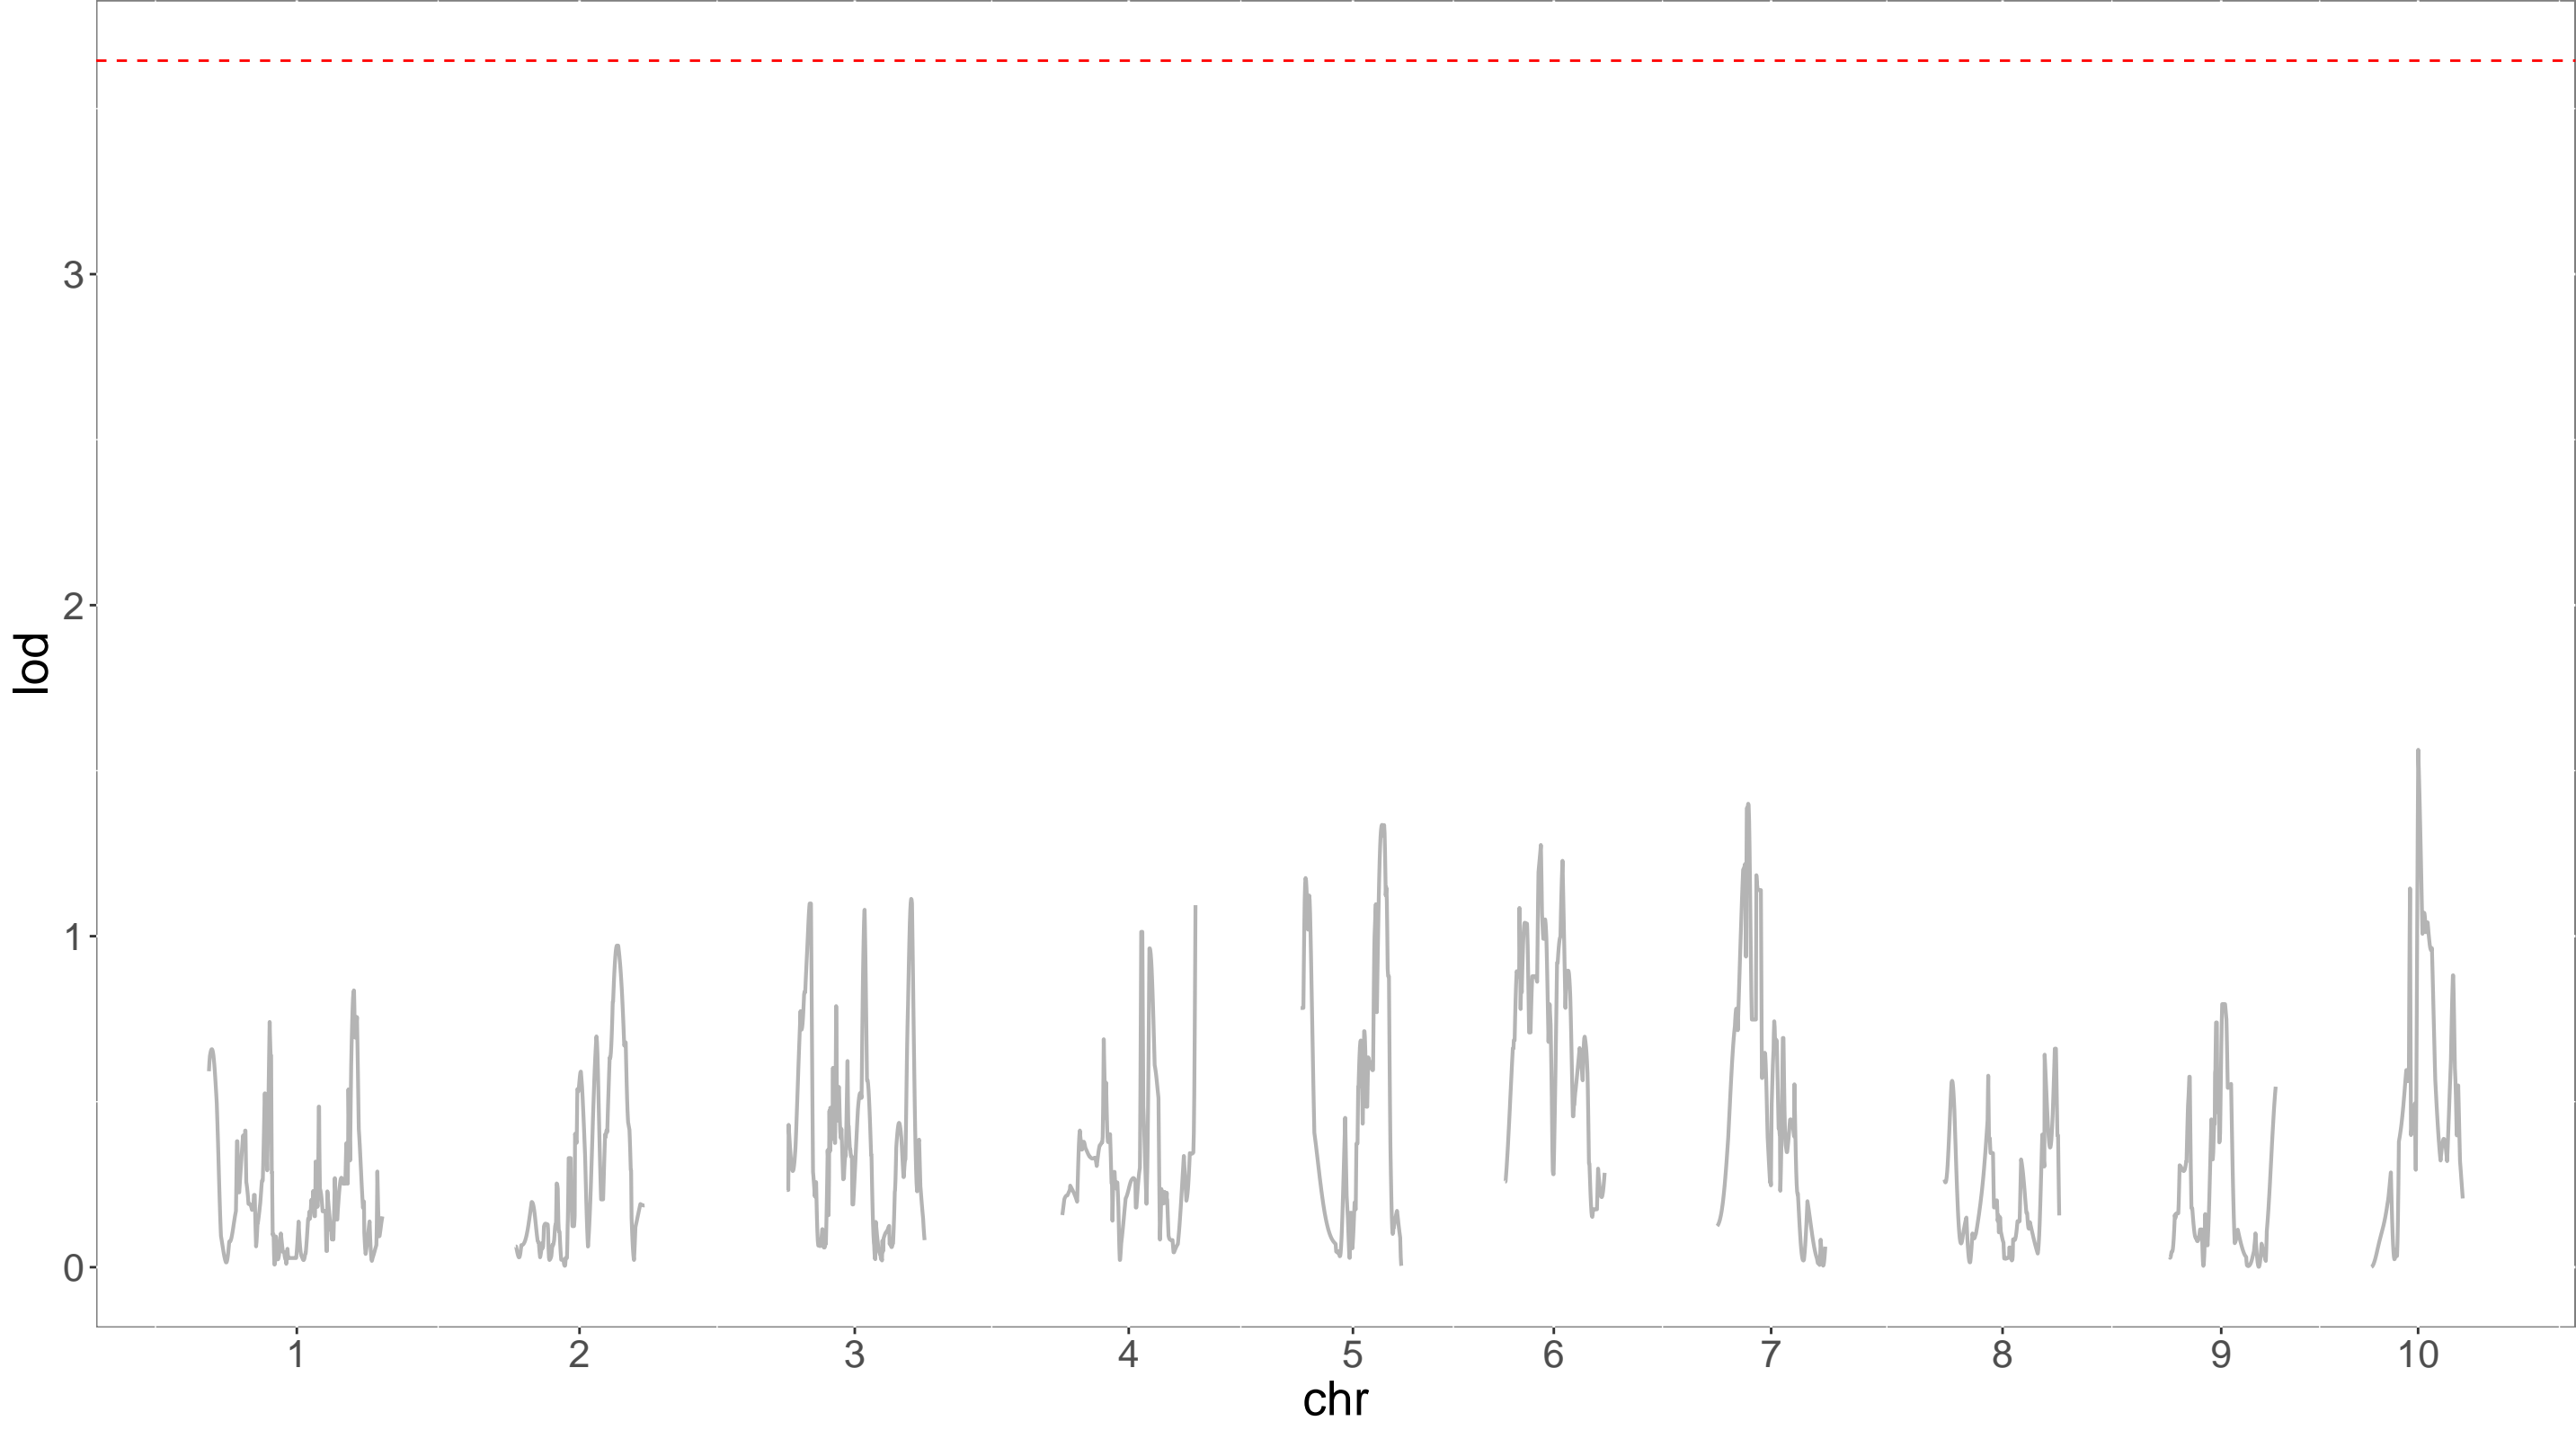

QTL analysis for WT families only for Mo_seed

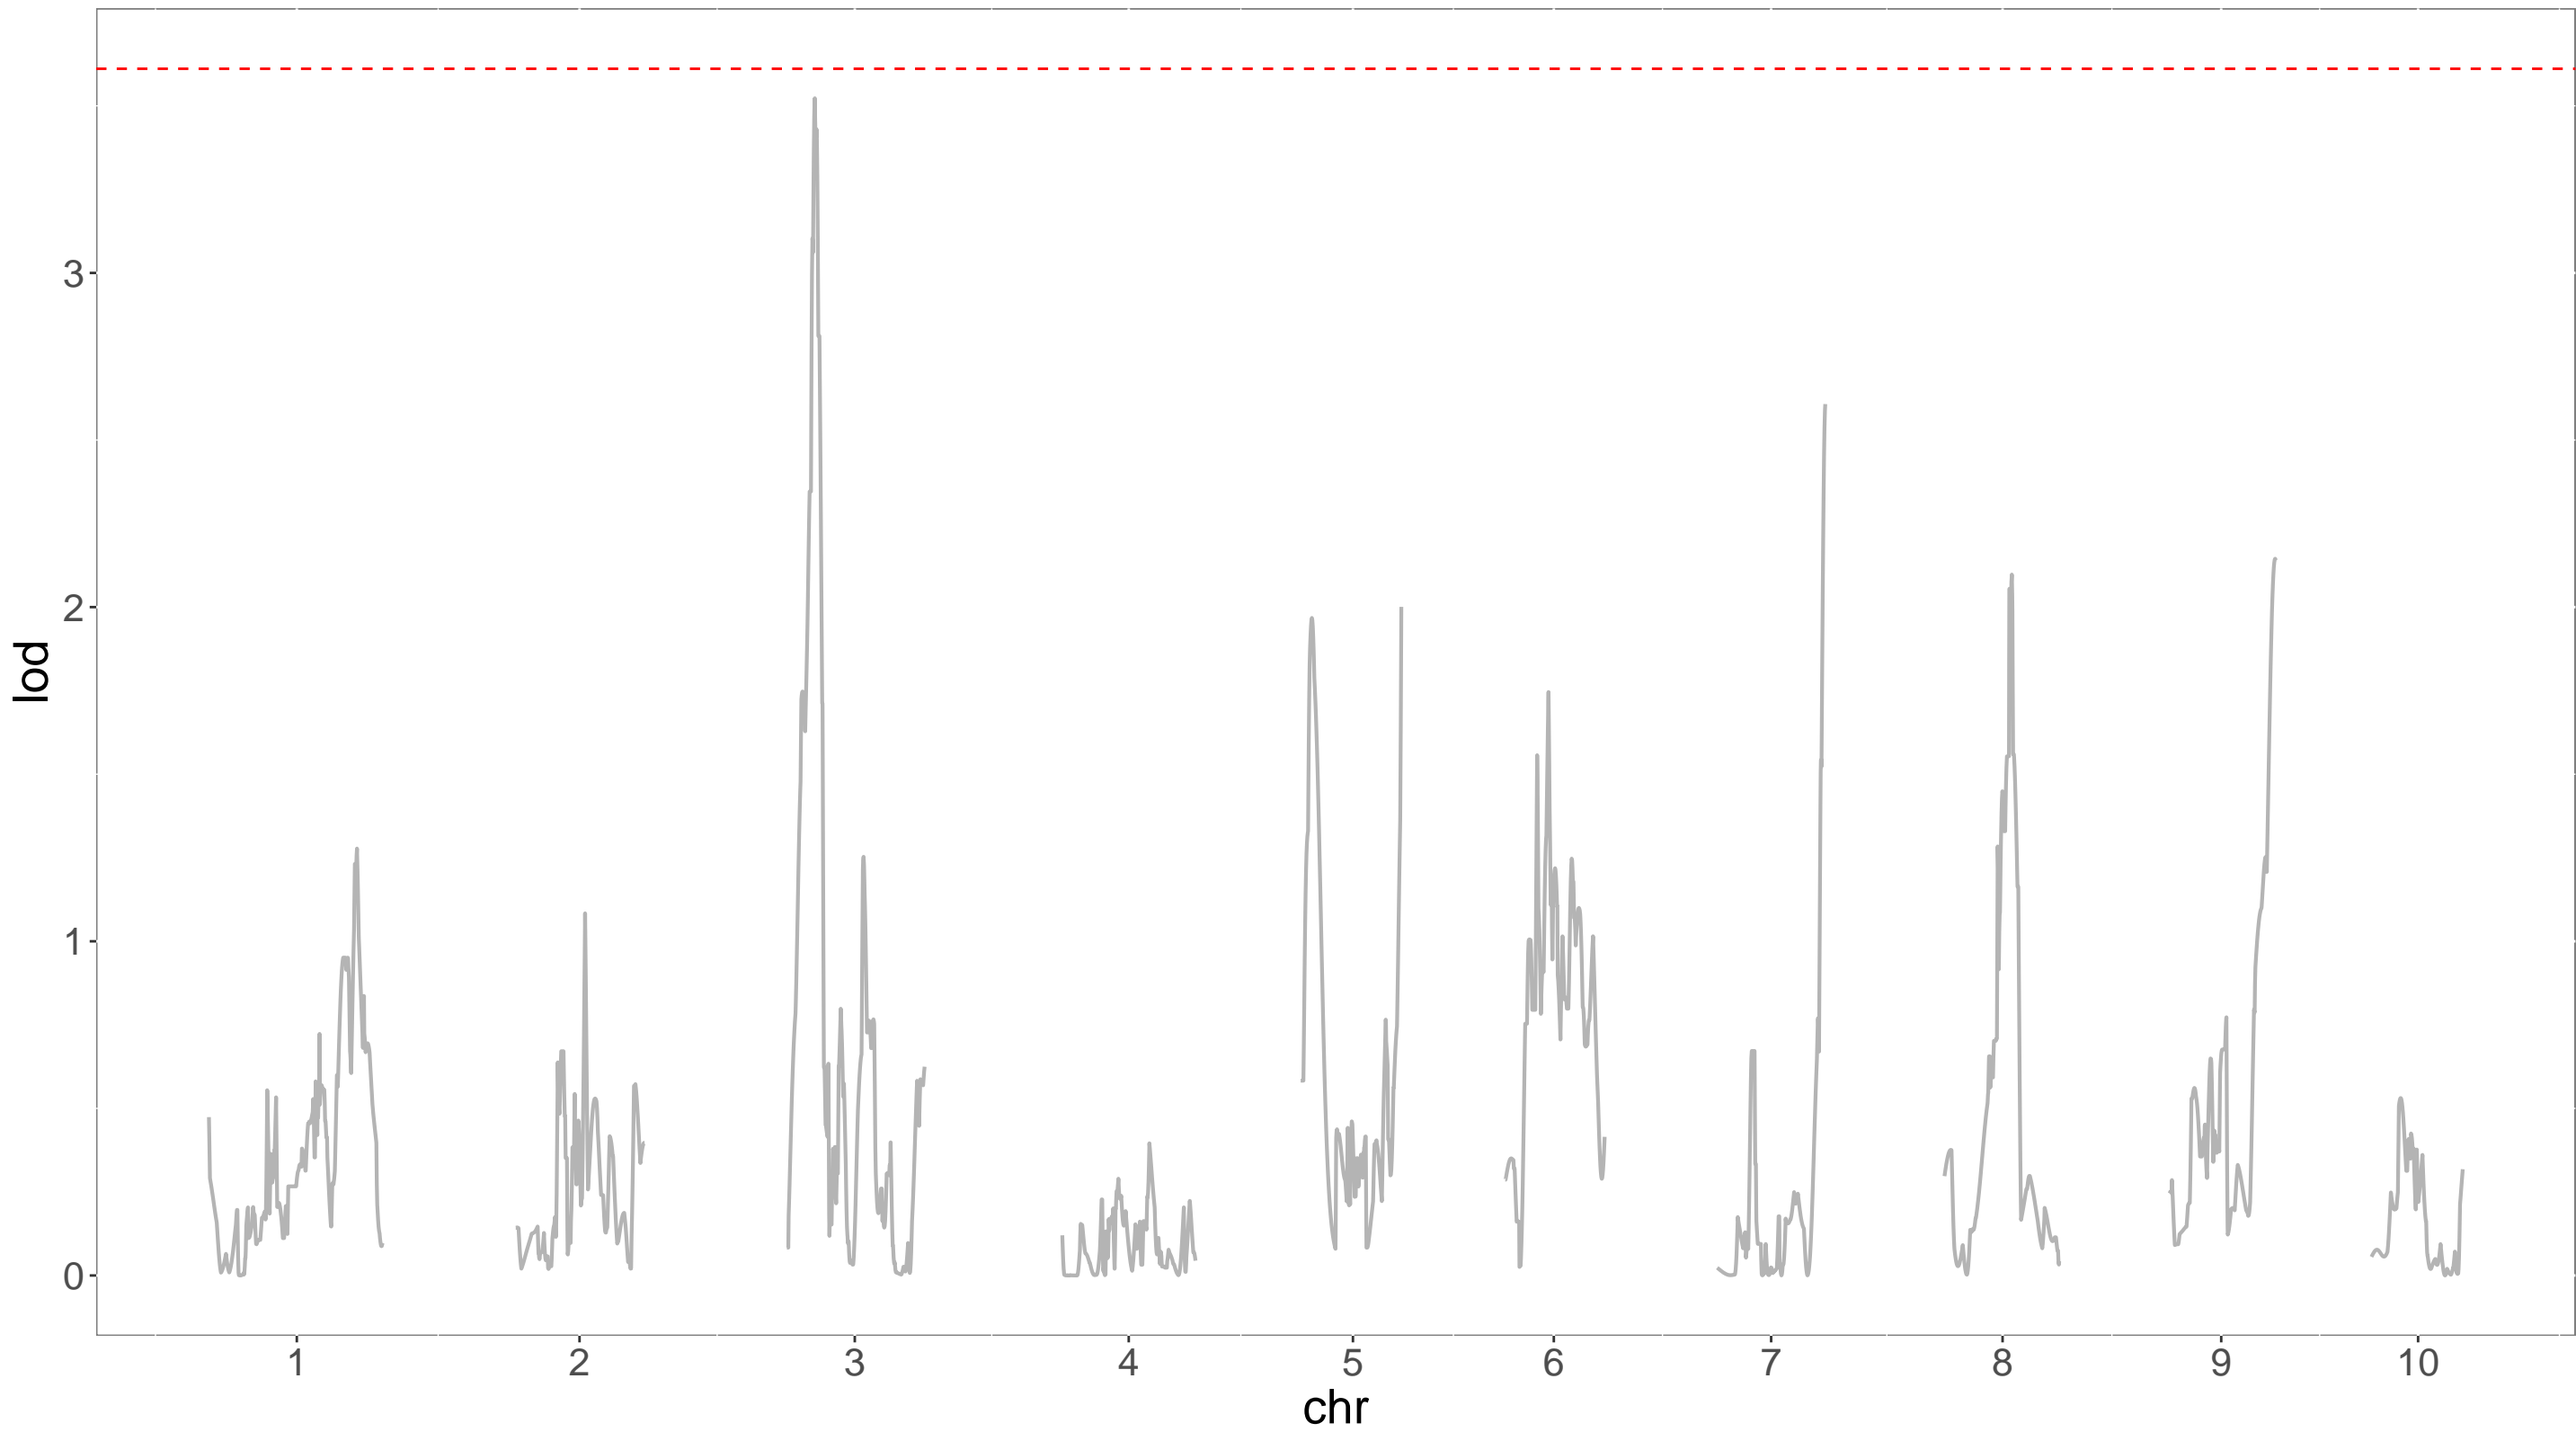

QTL analysis for WT families only for Na_leaf

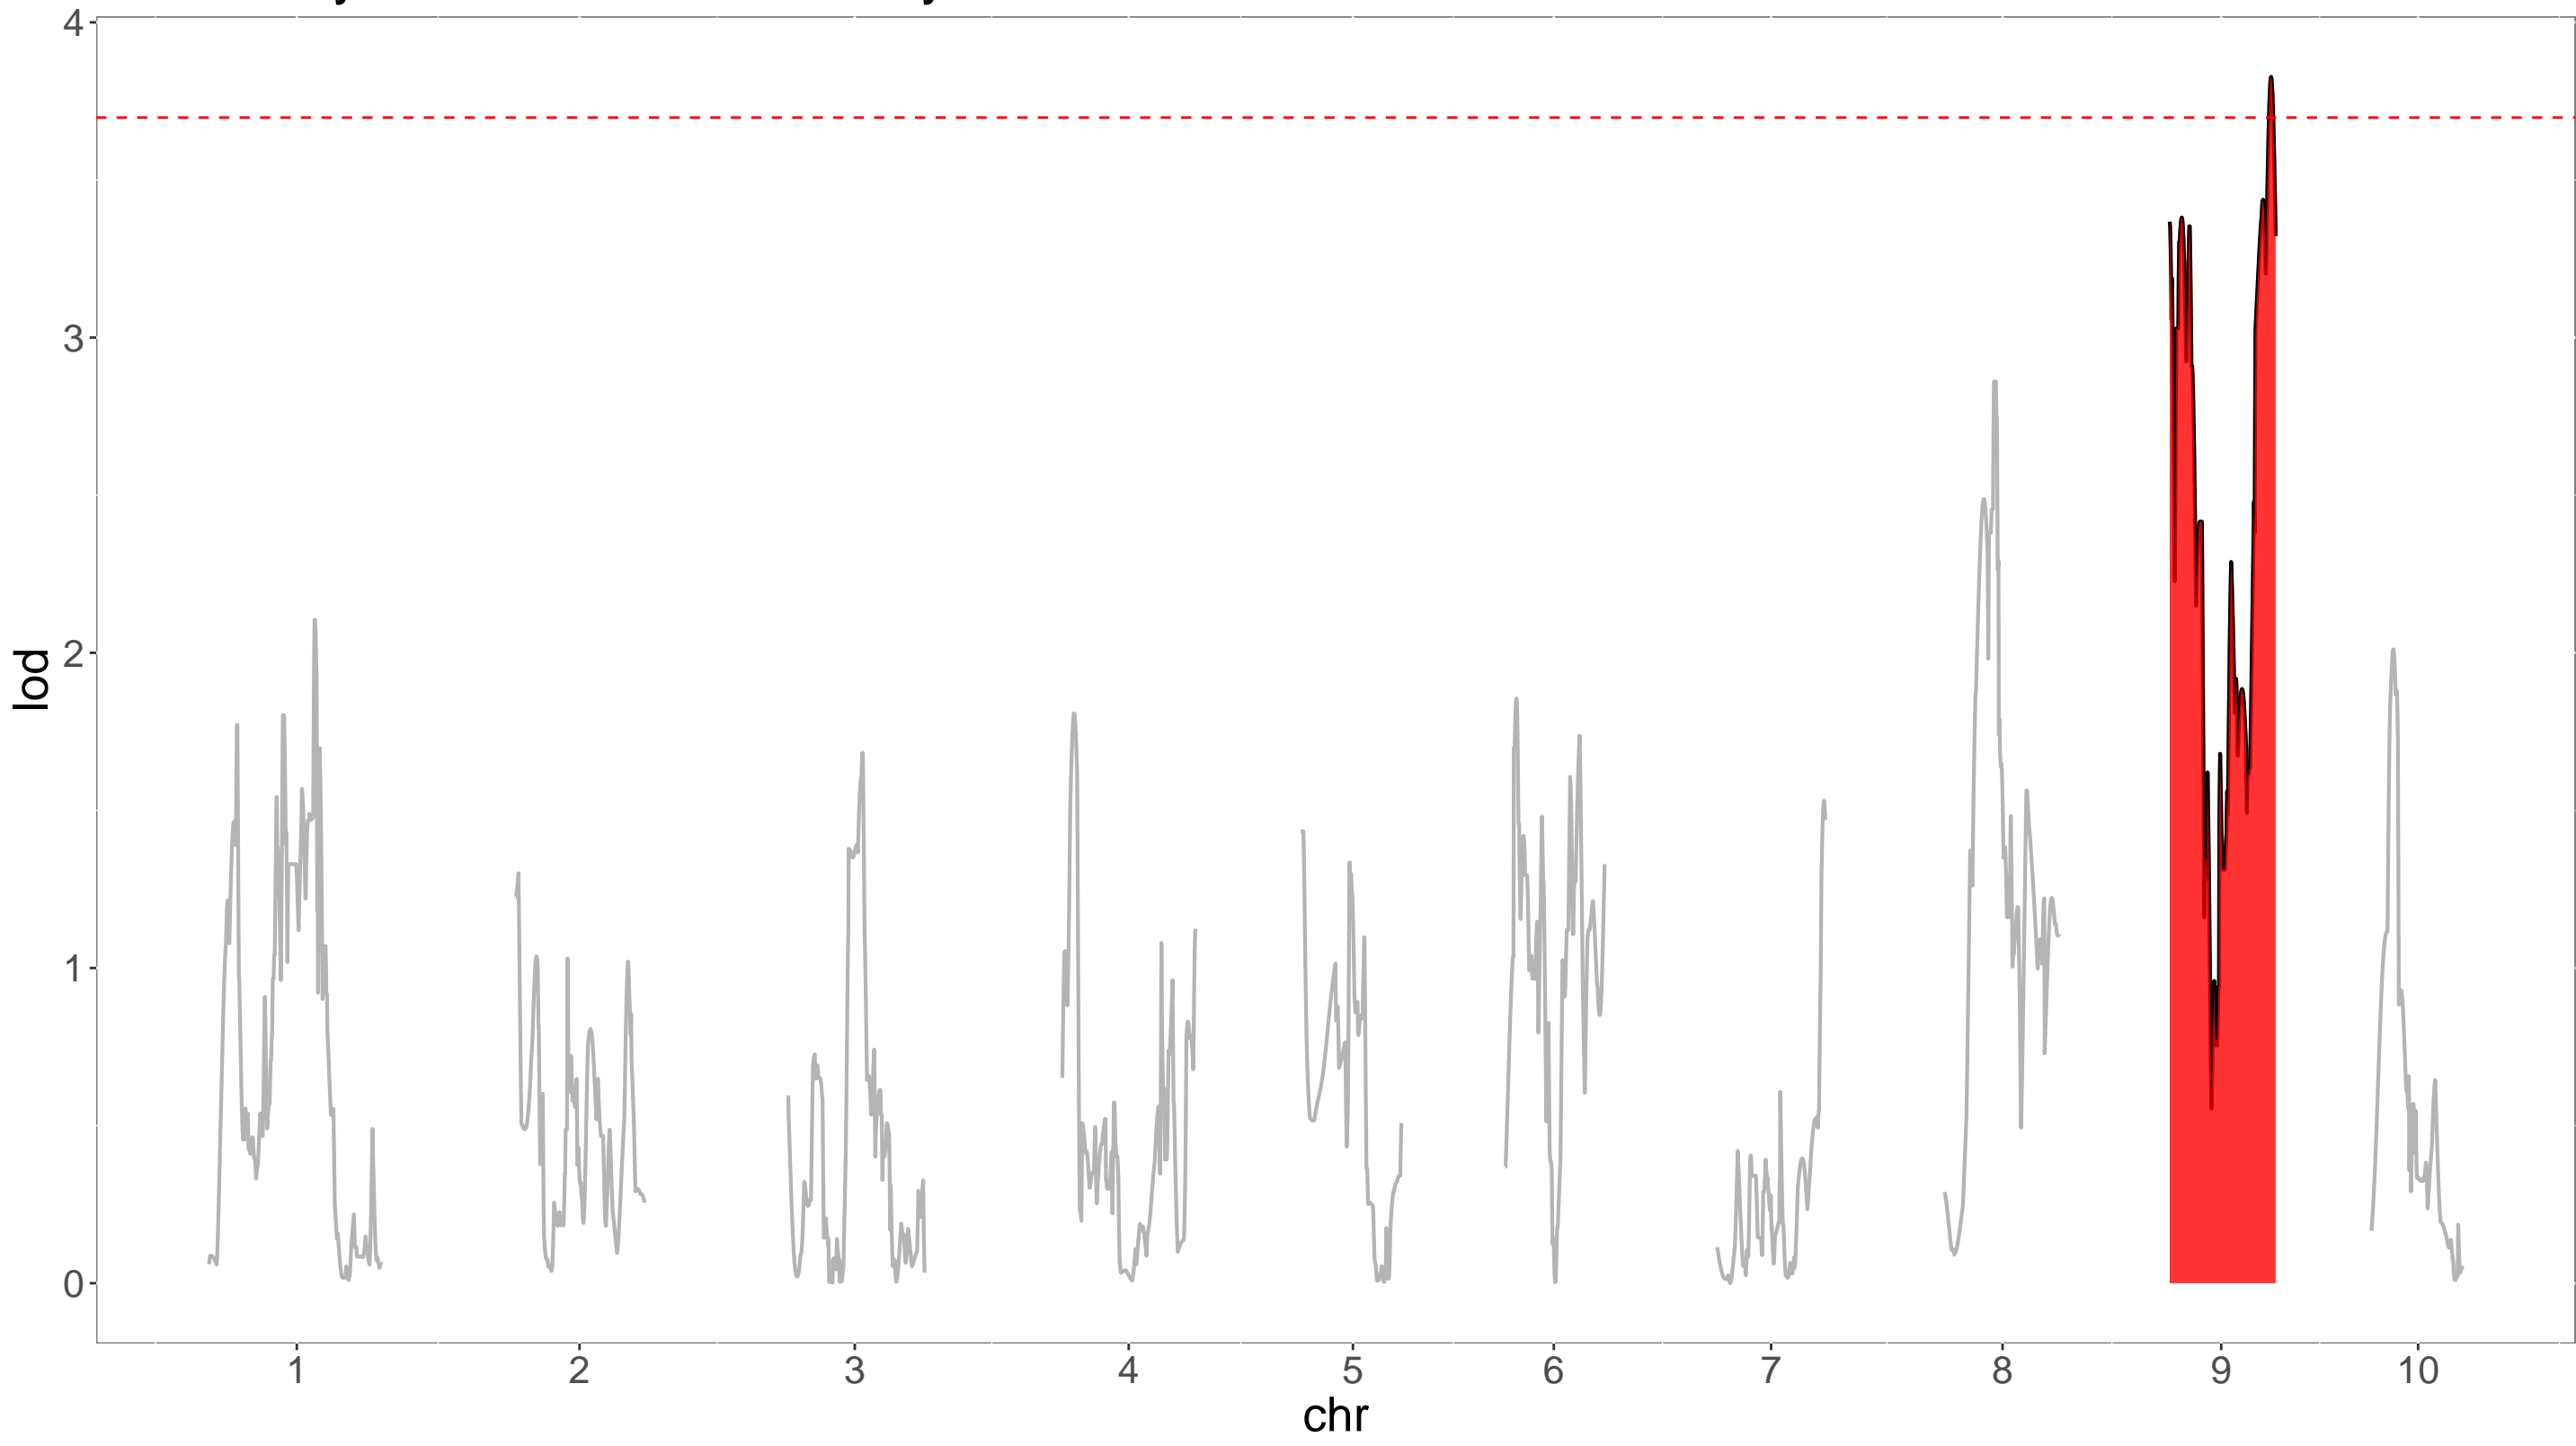

QTL analysis for WT families only for Na_seed

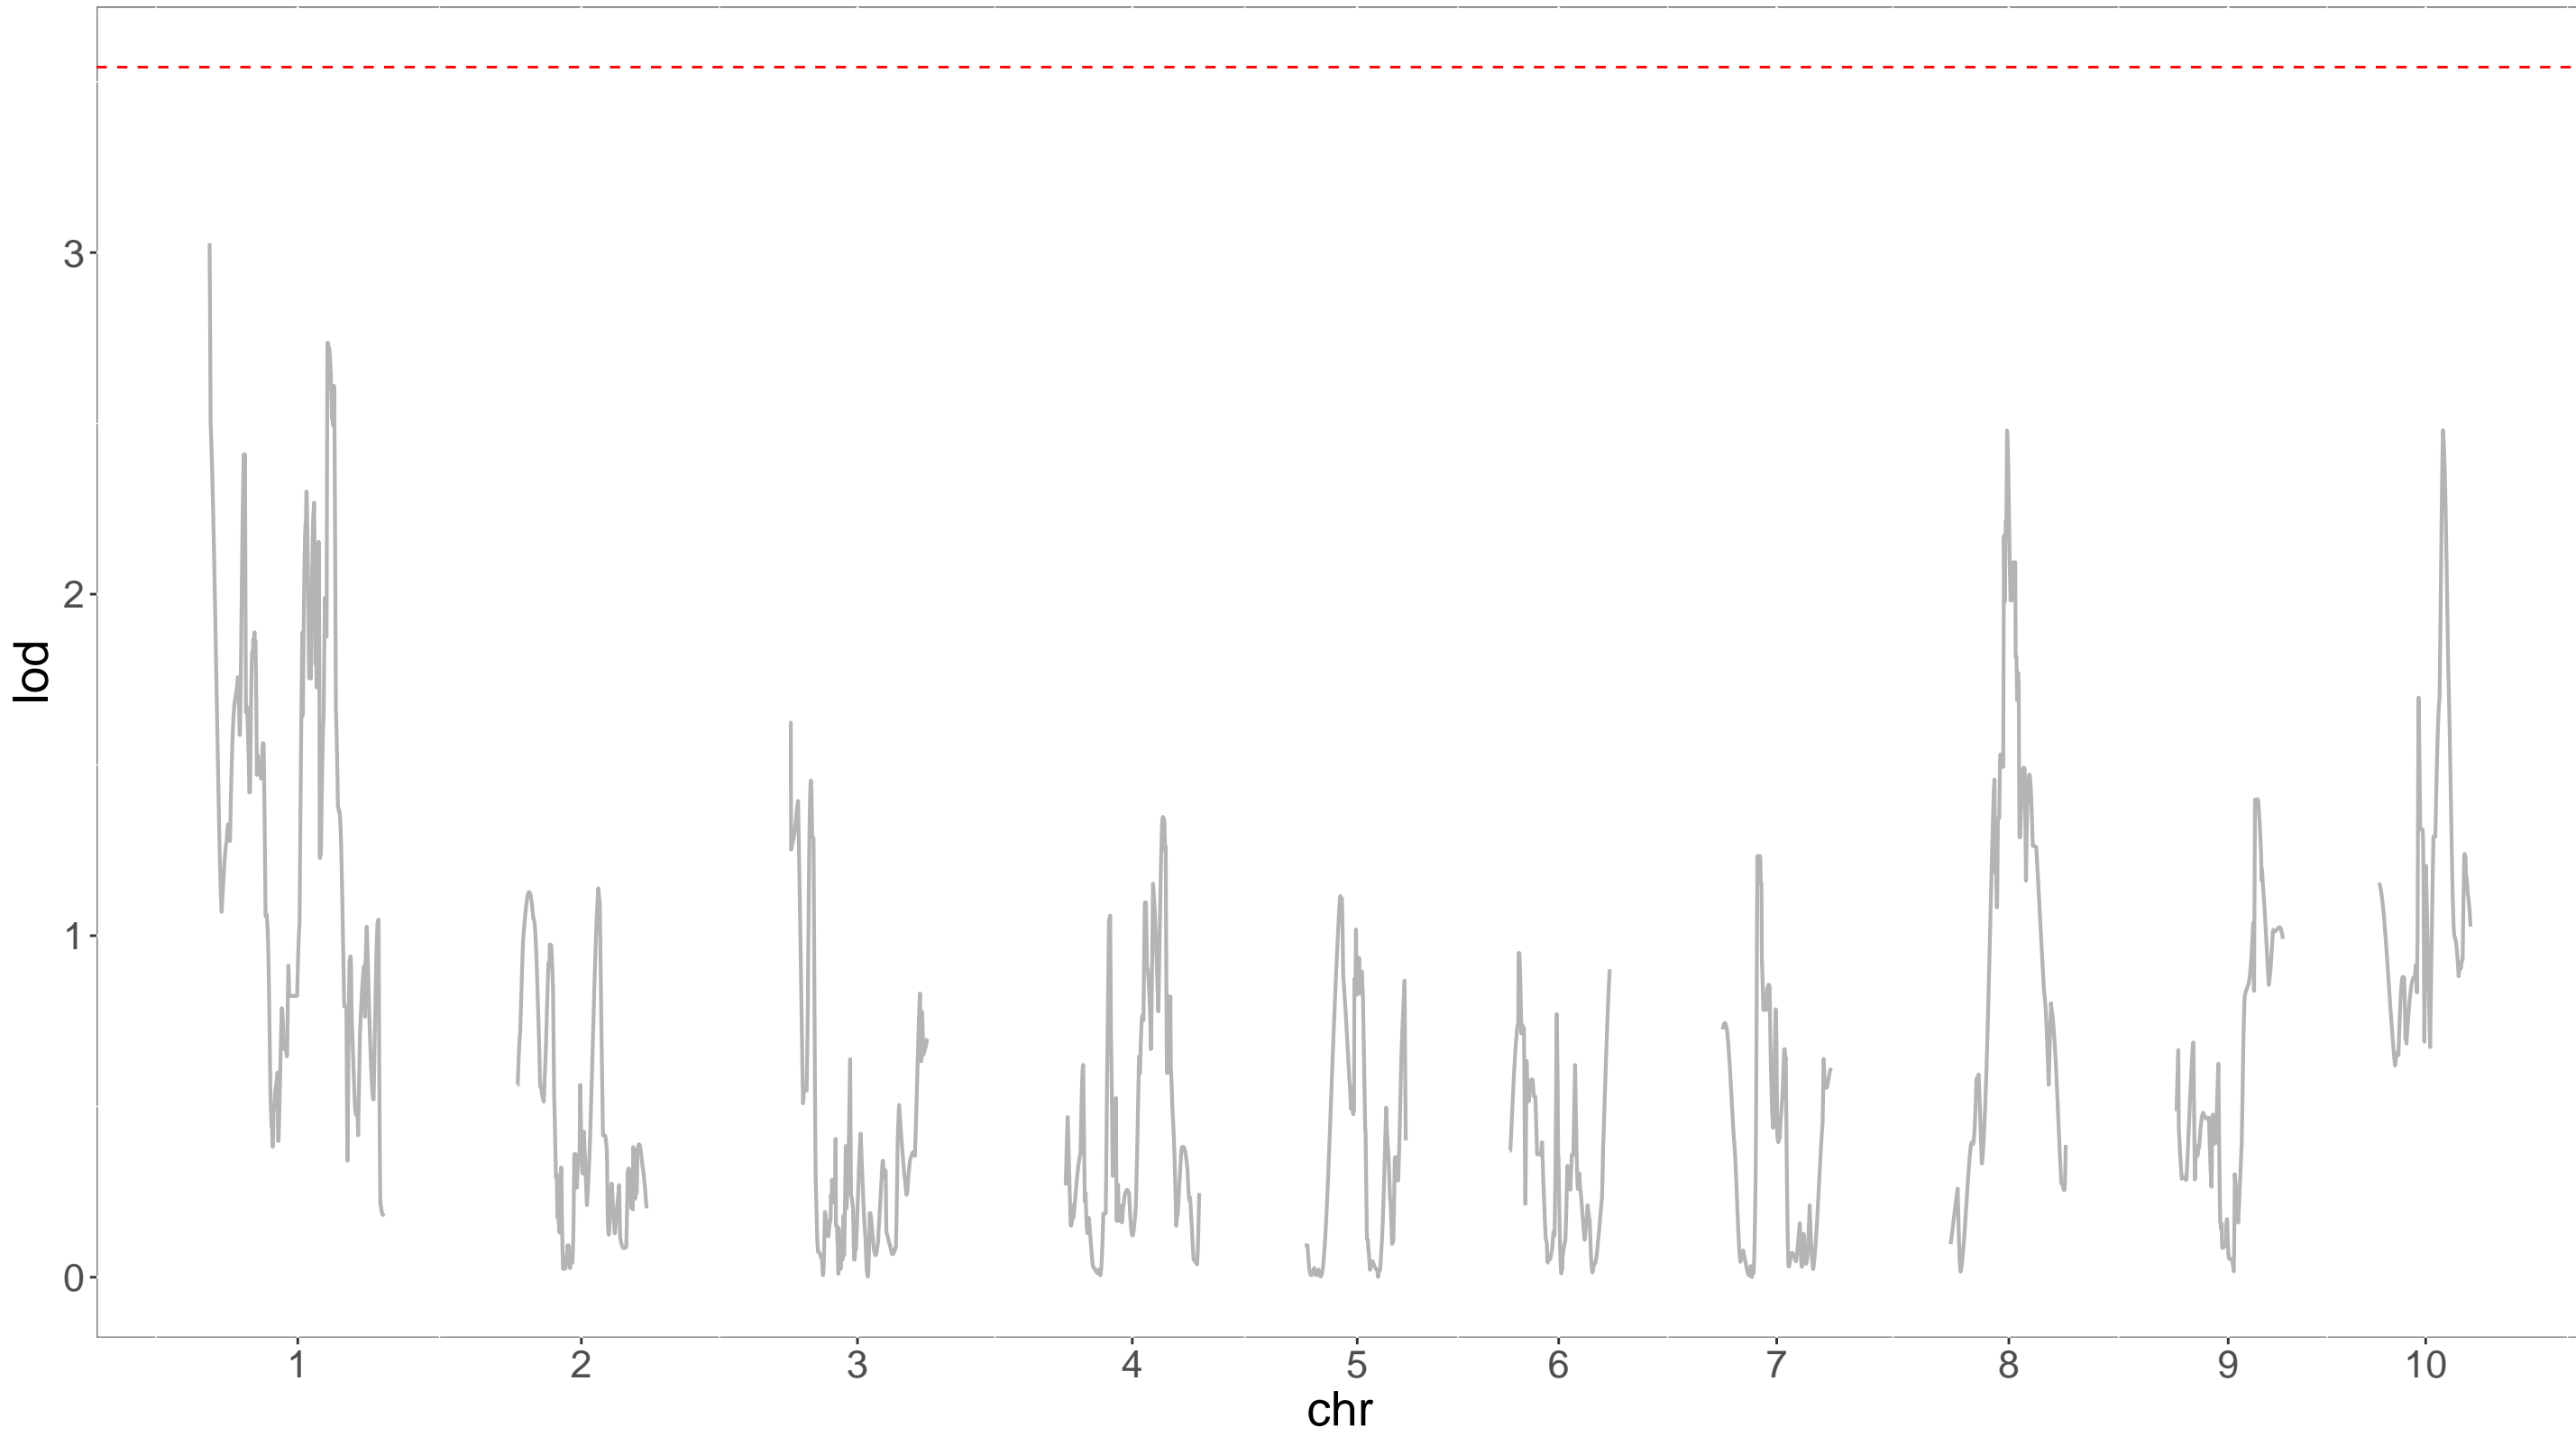

QTL analysis for WT families only for Ni_leaf

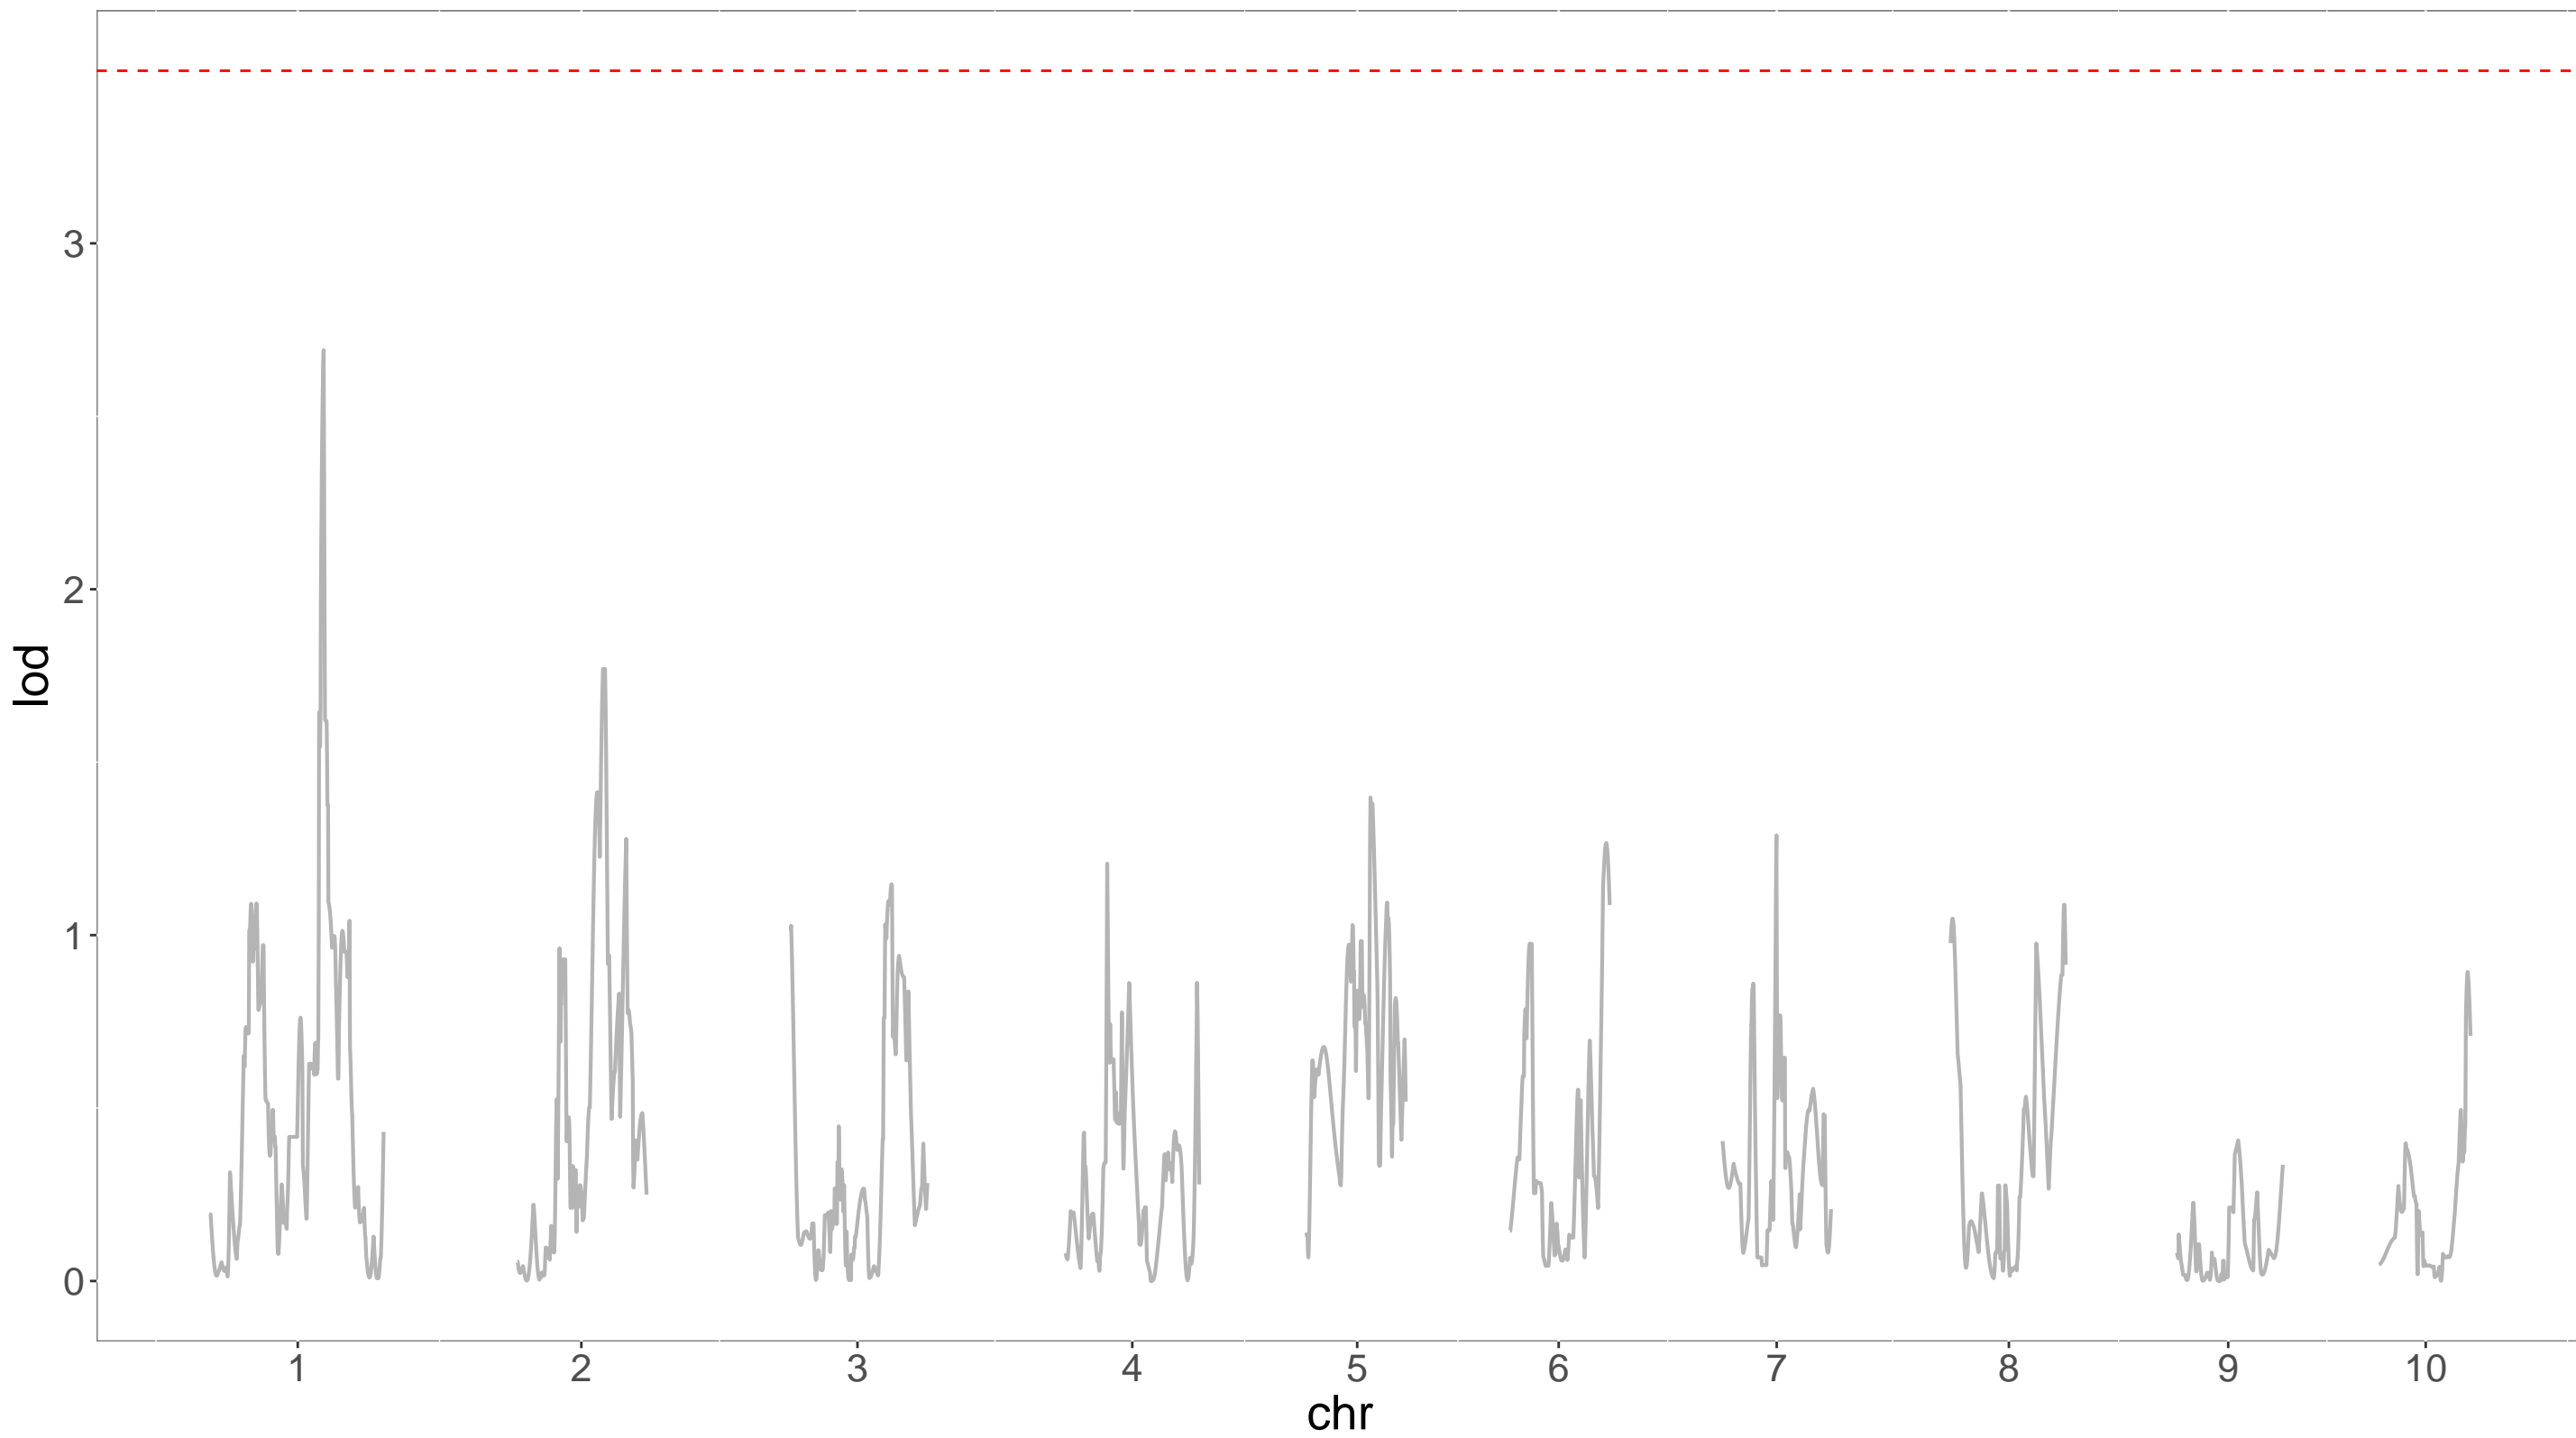

QTL analysis for WT families only for Ni_seed

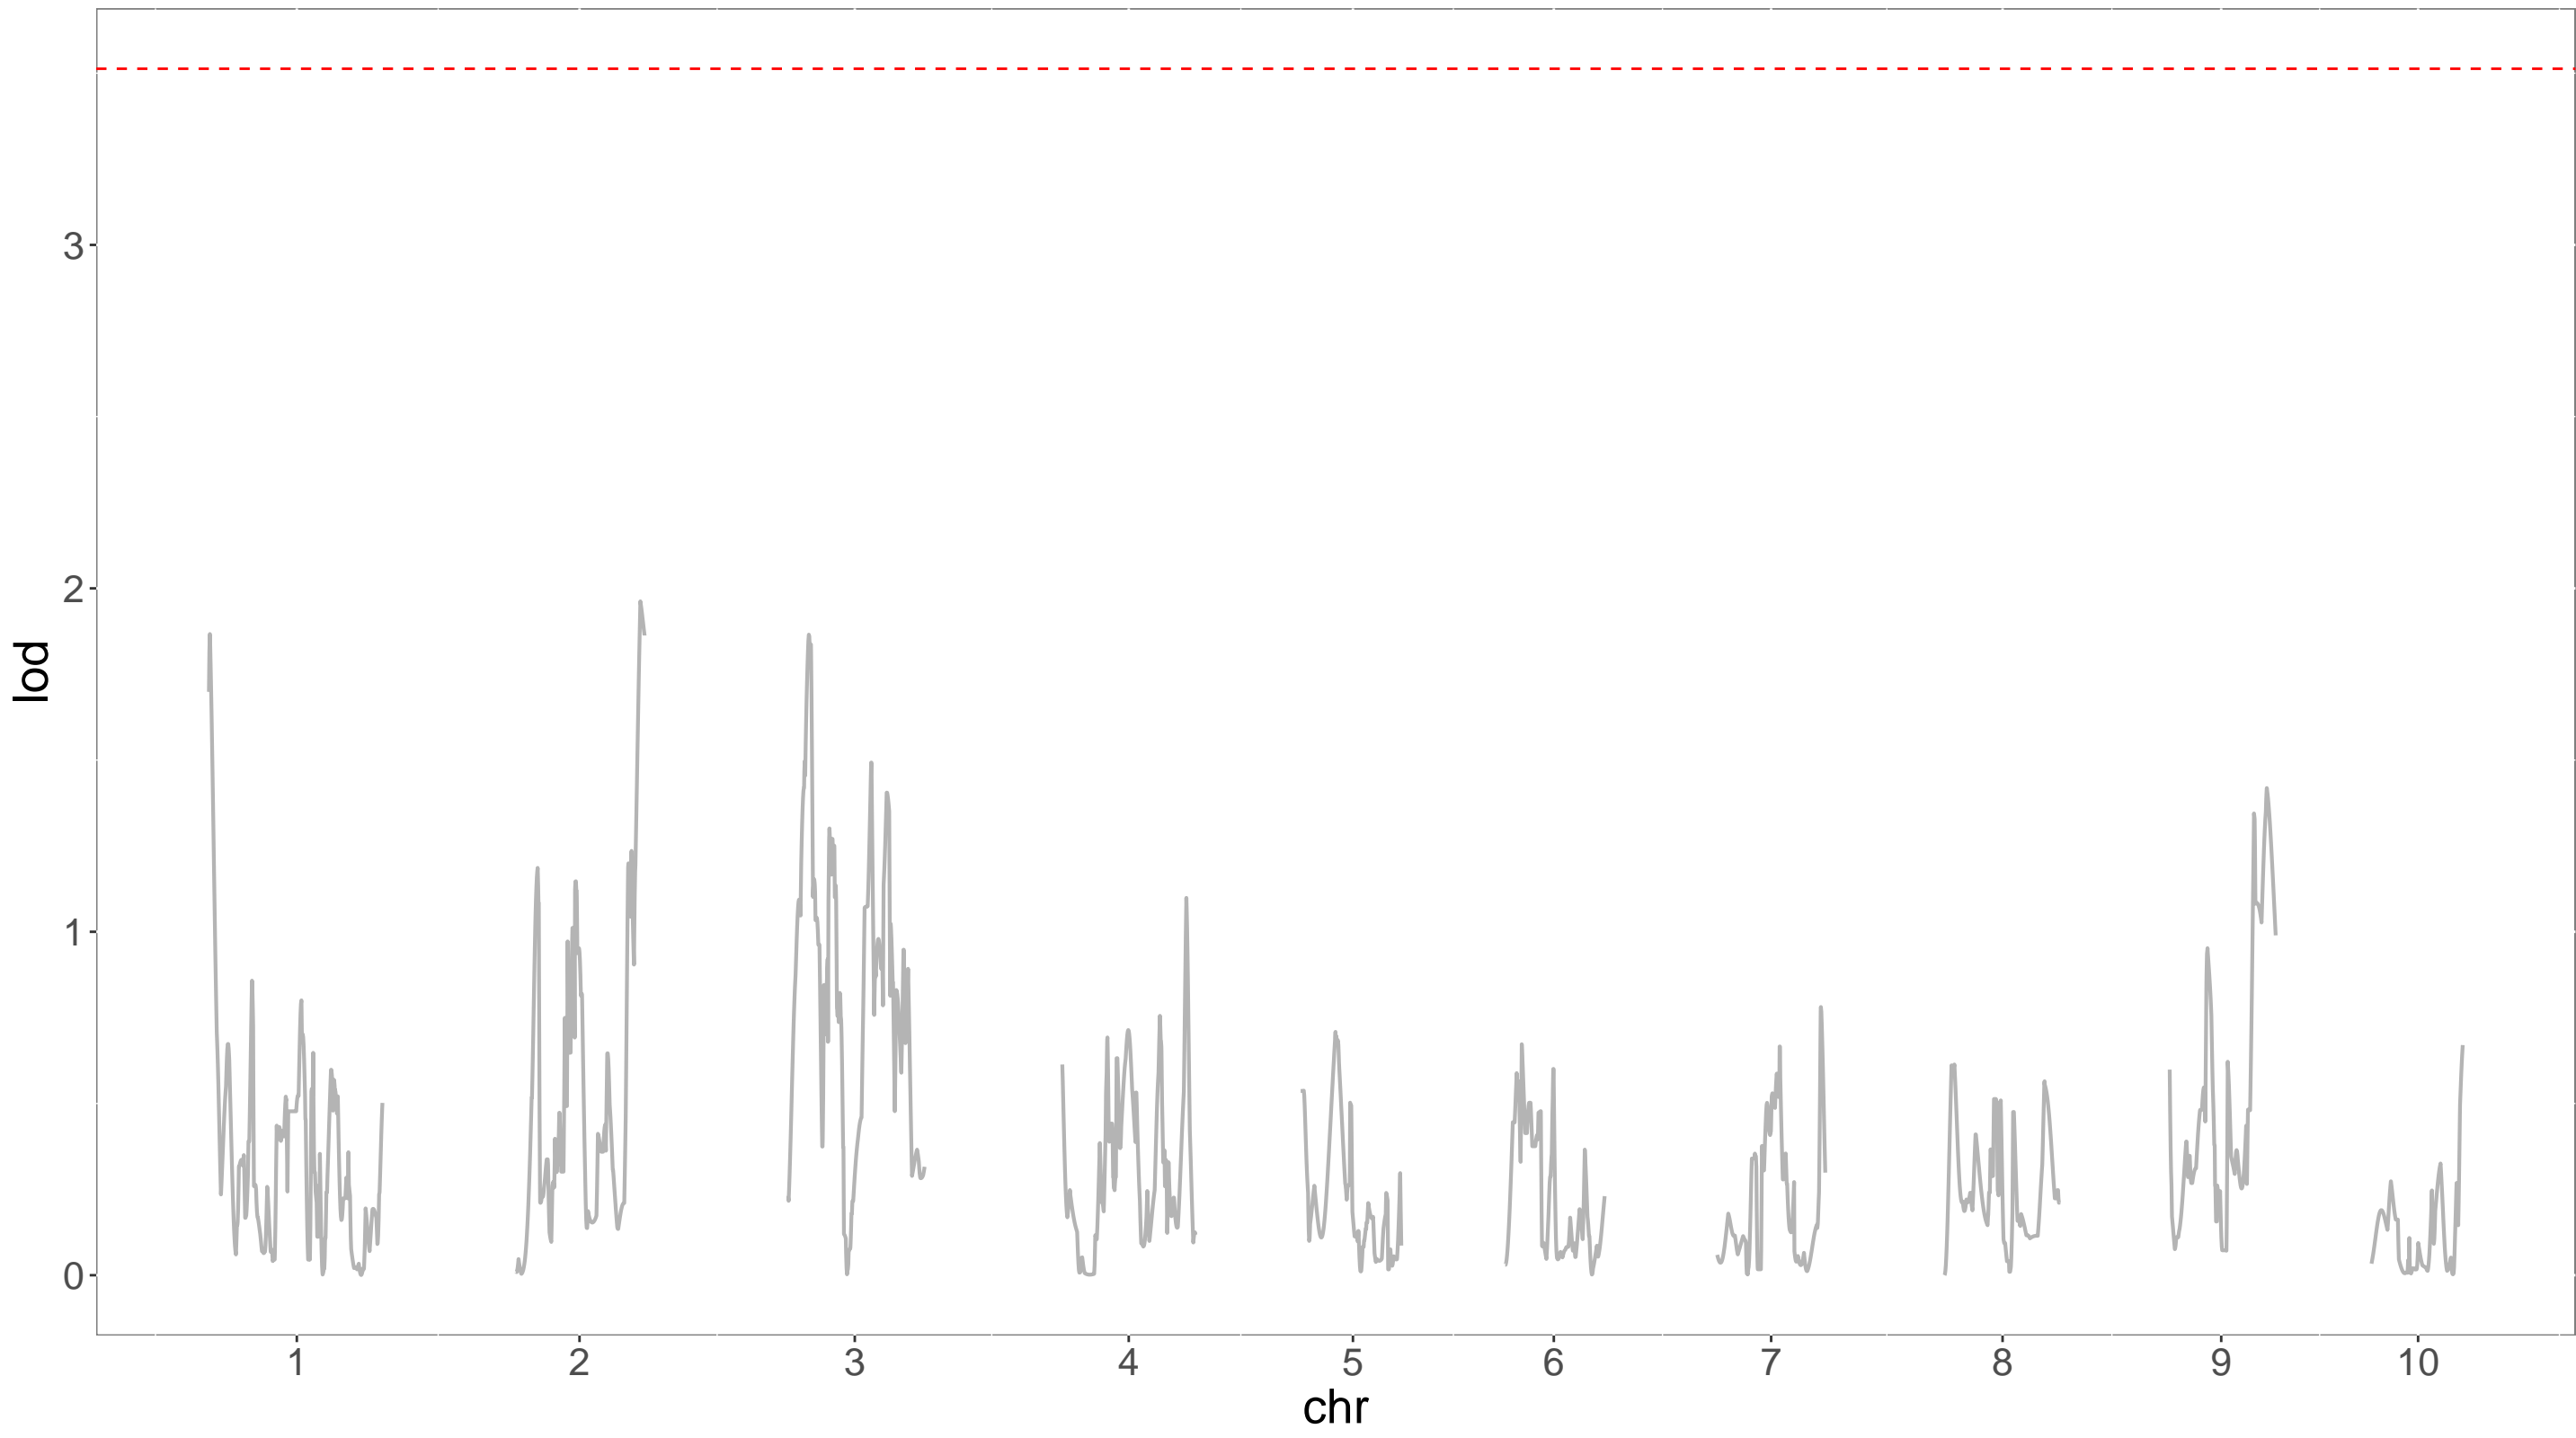

QTL analysis for WT families only for P_leaf

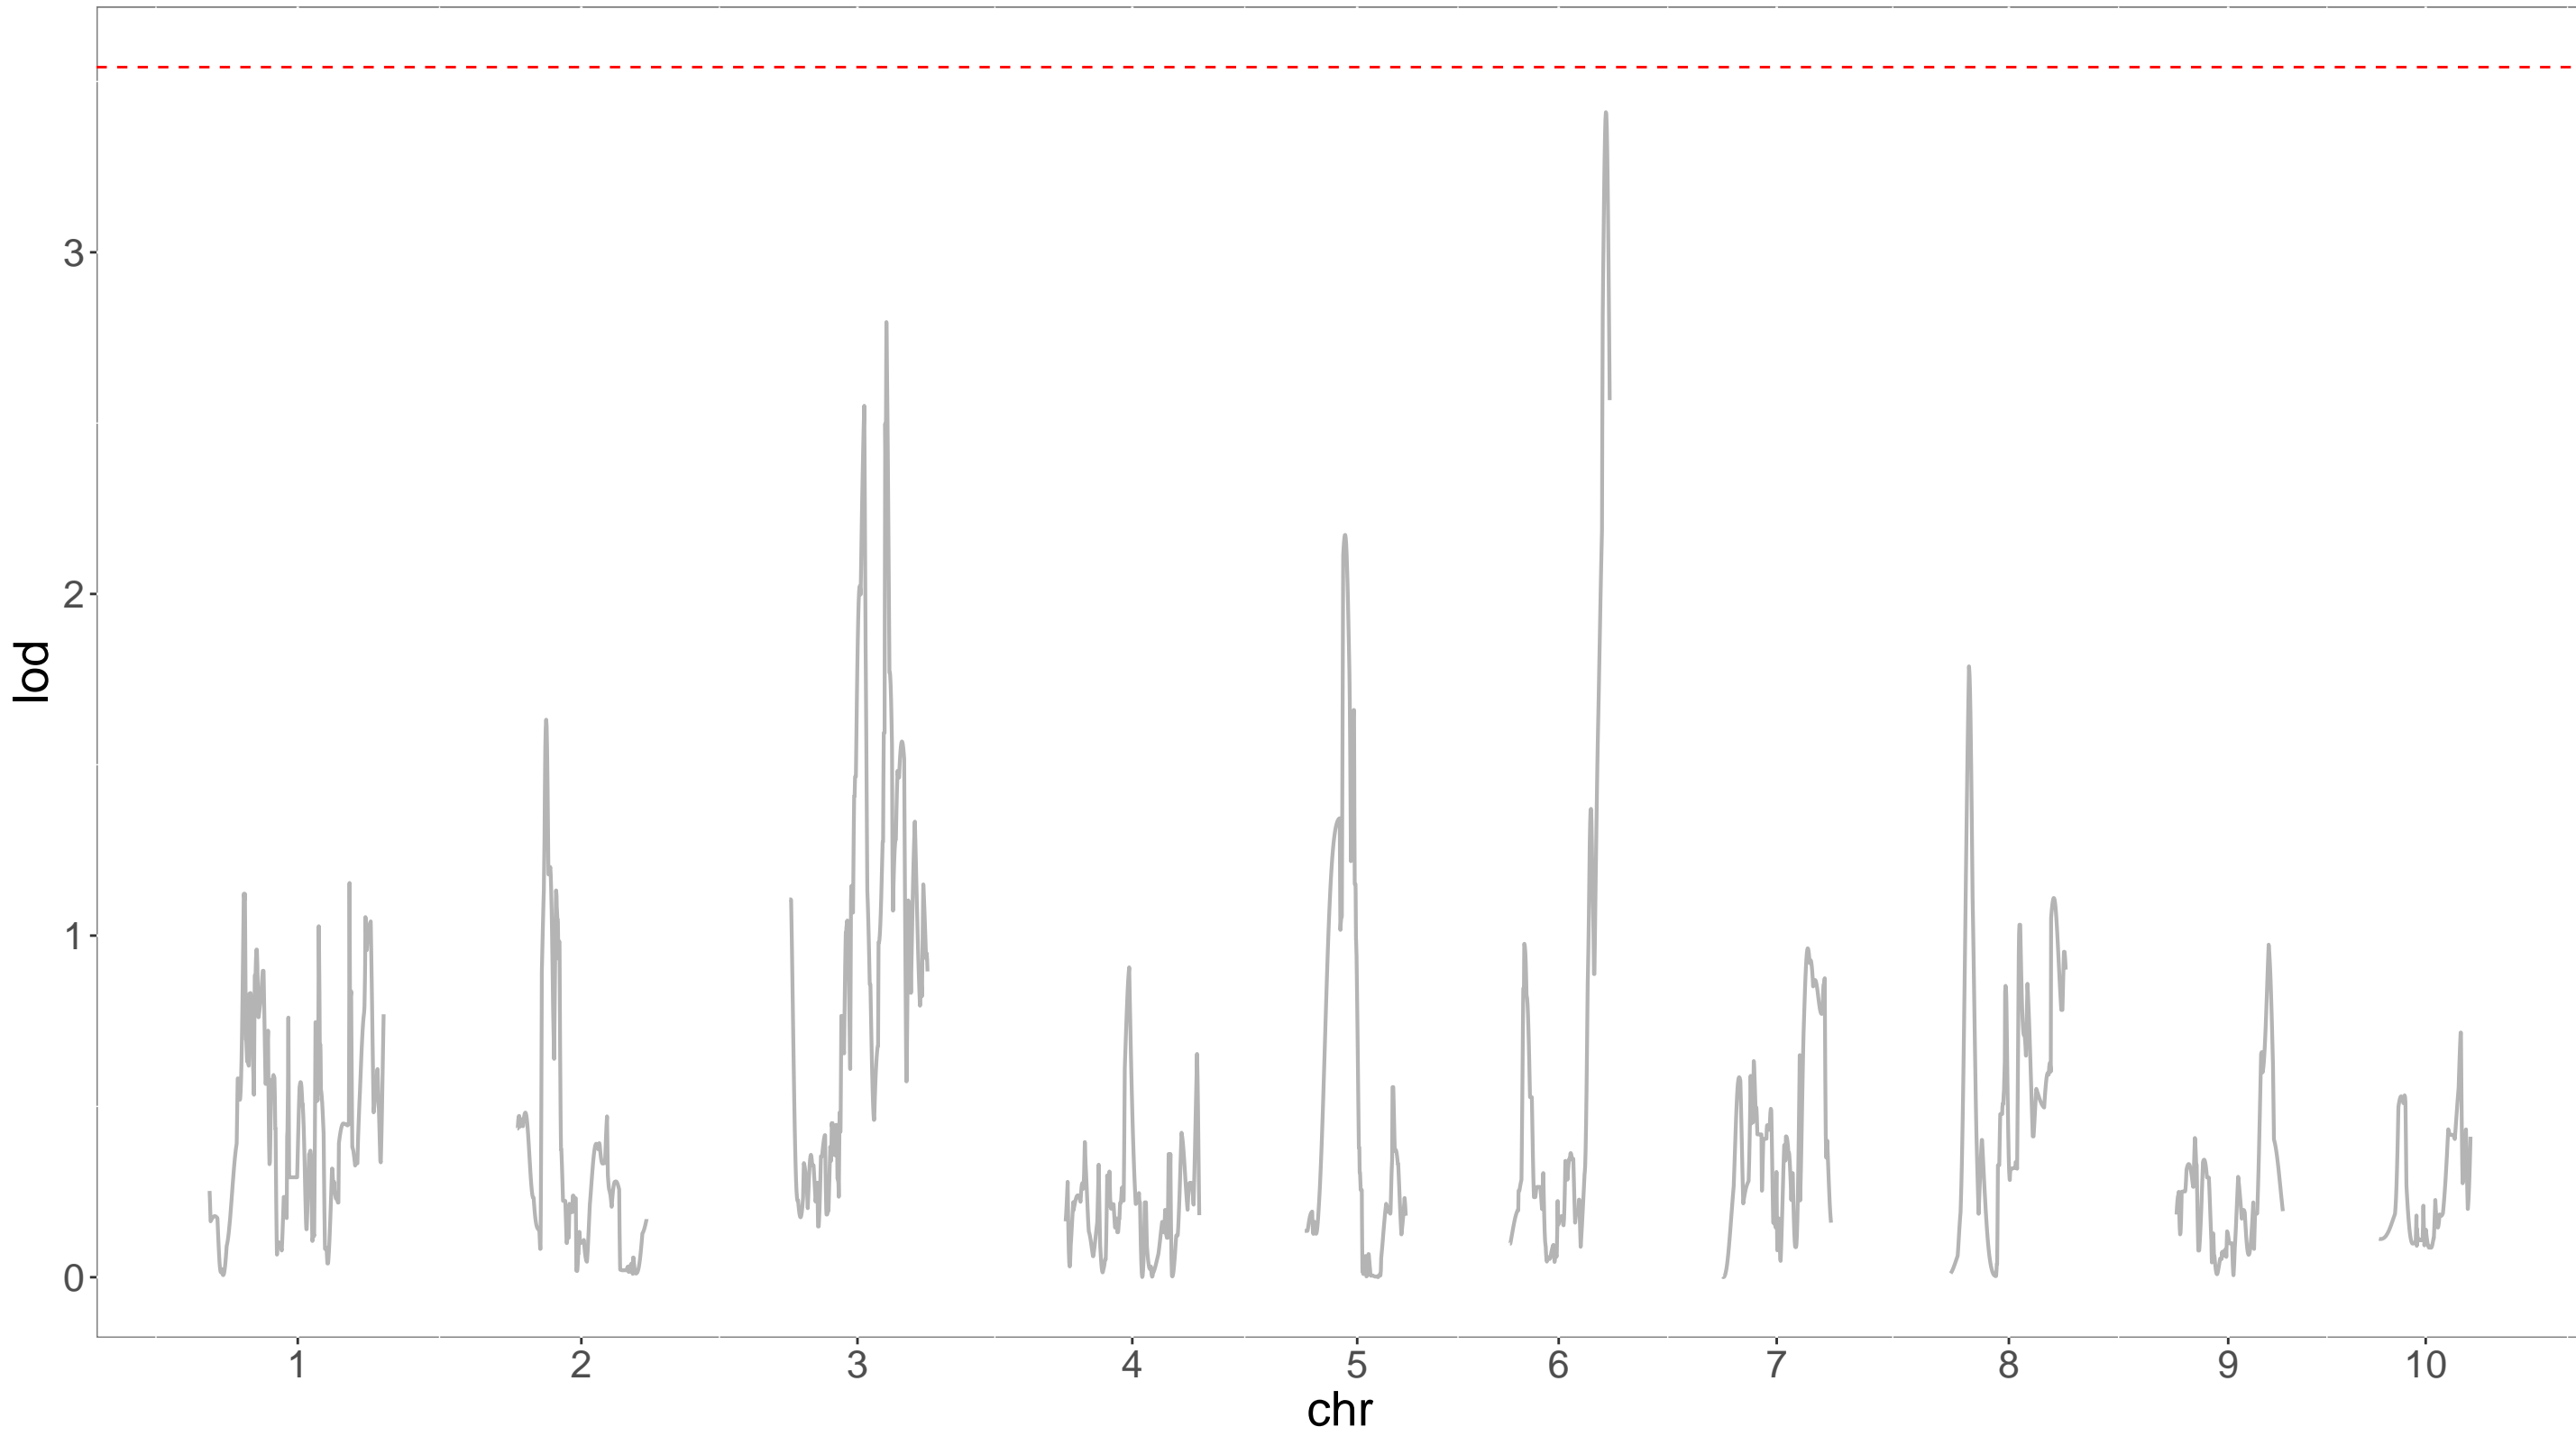

QTL analysis for WT families only for P_seed

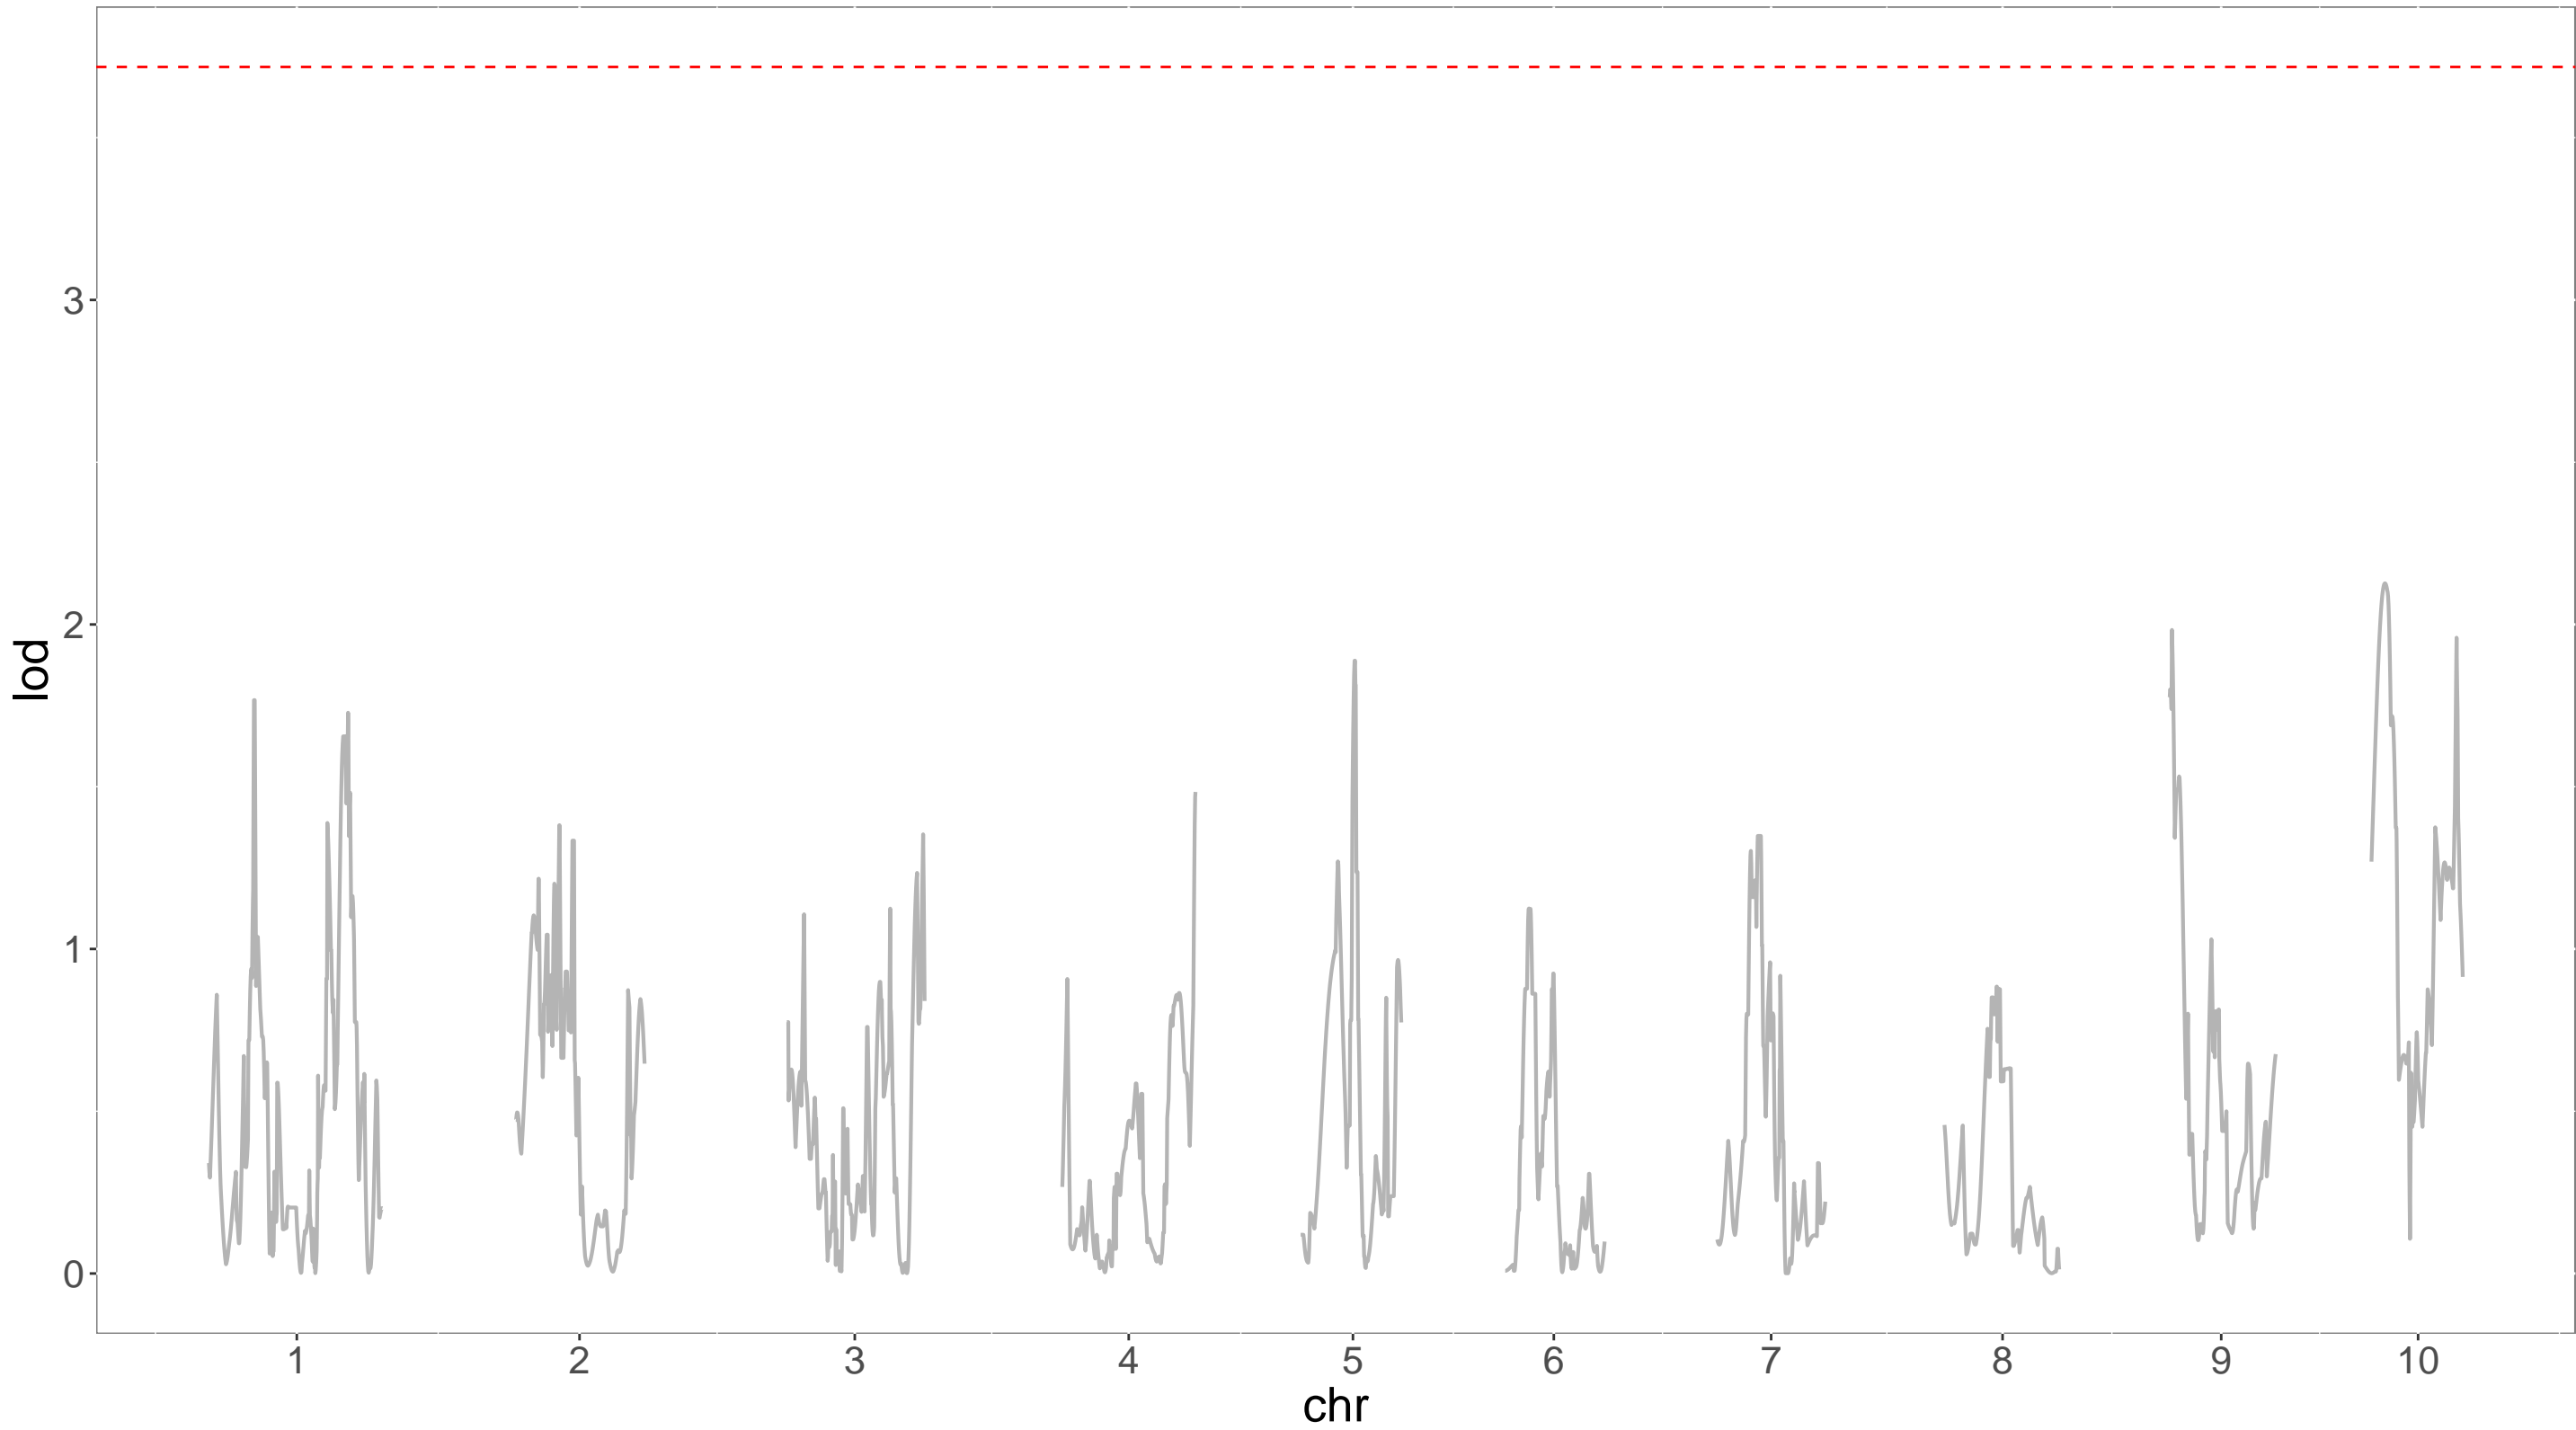

QTL analysis for WT families only for Rb_leaf

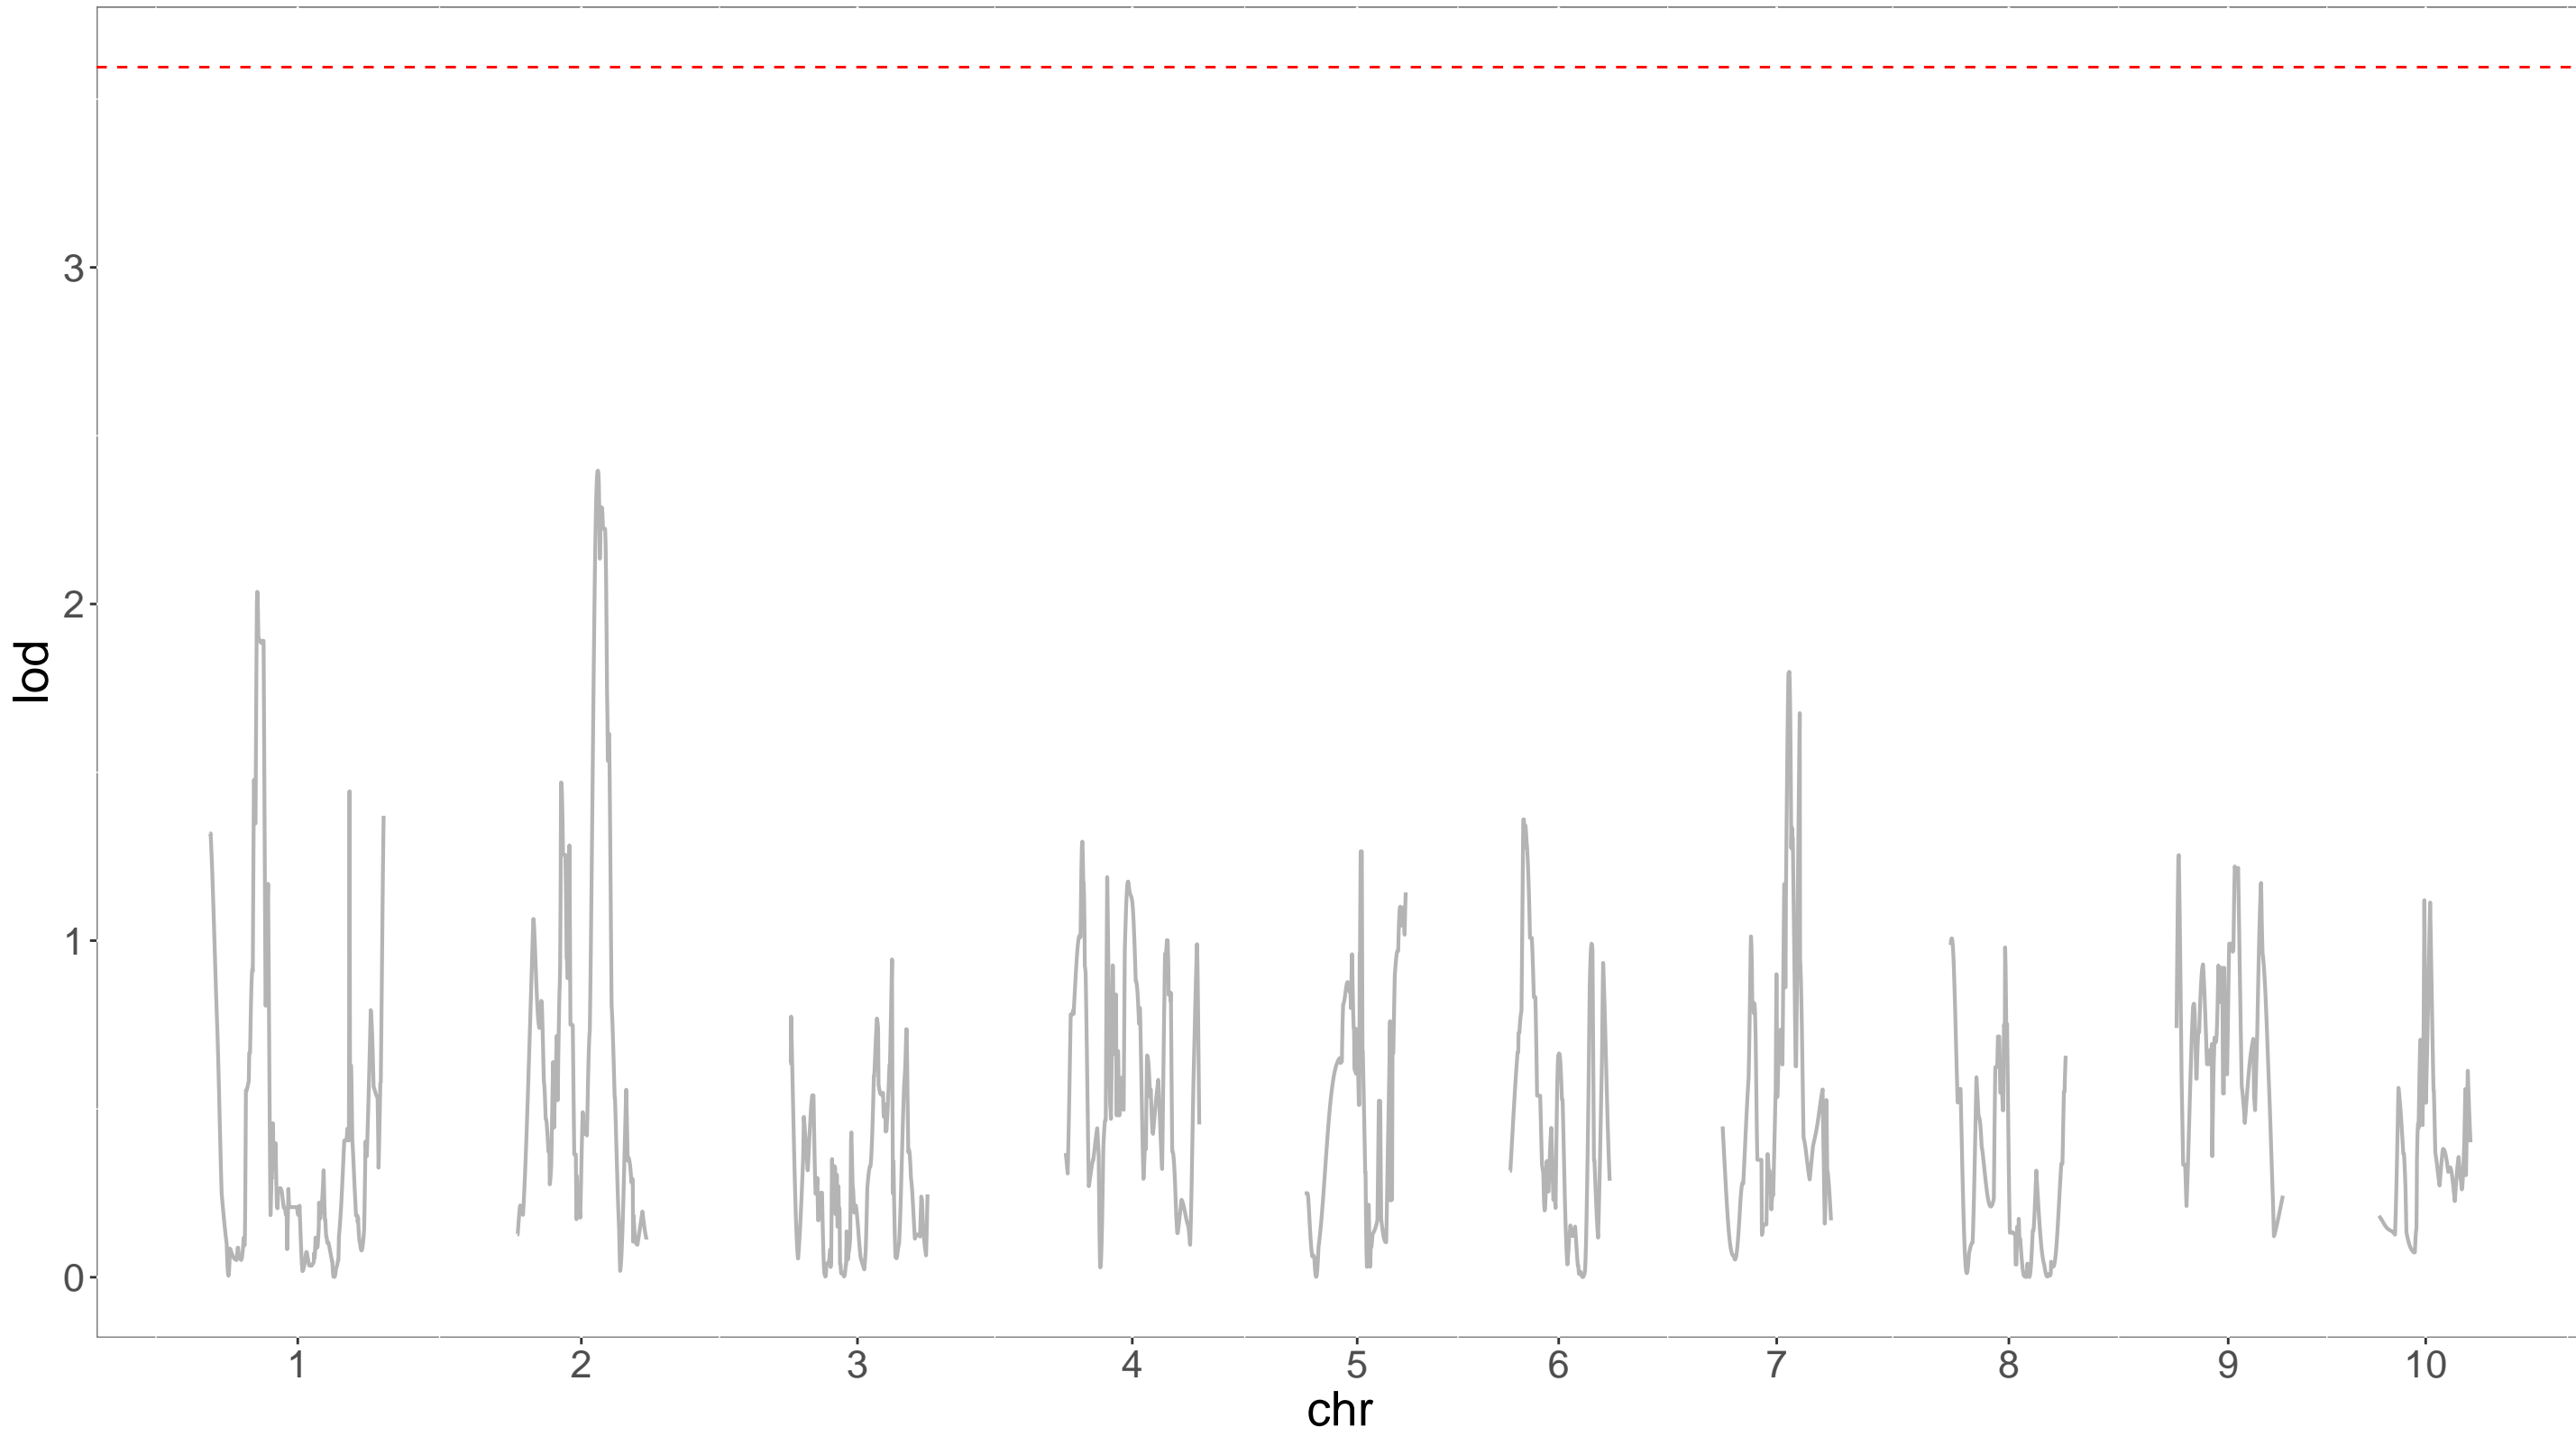

QTL analysis for WT families only for Rb_seed

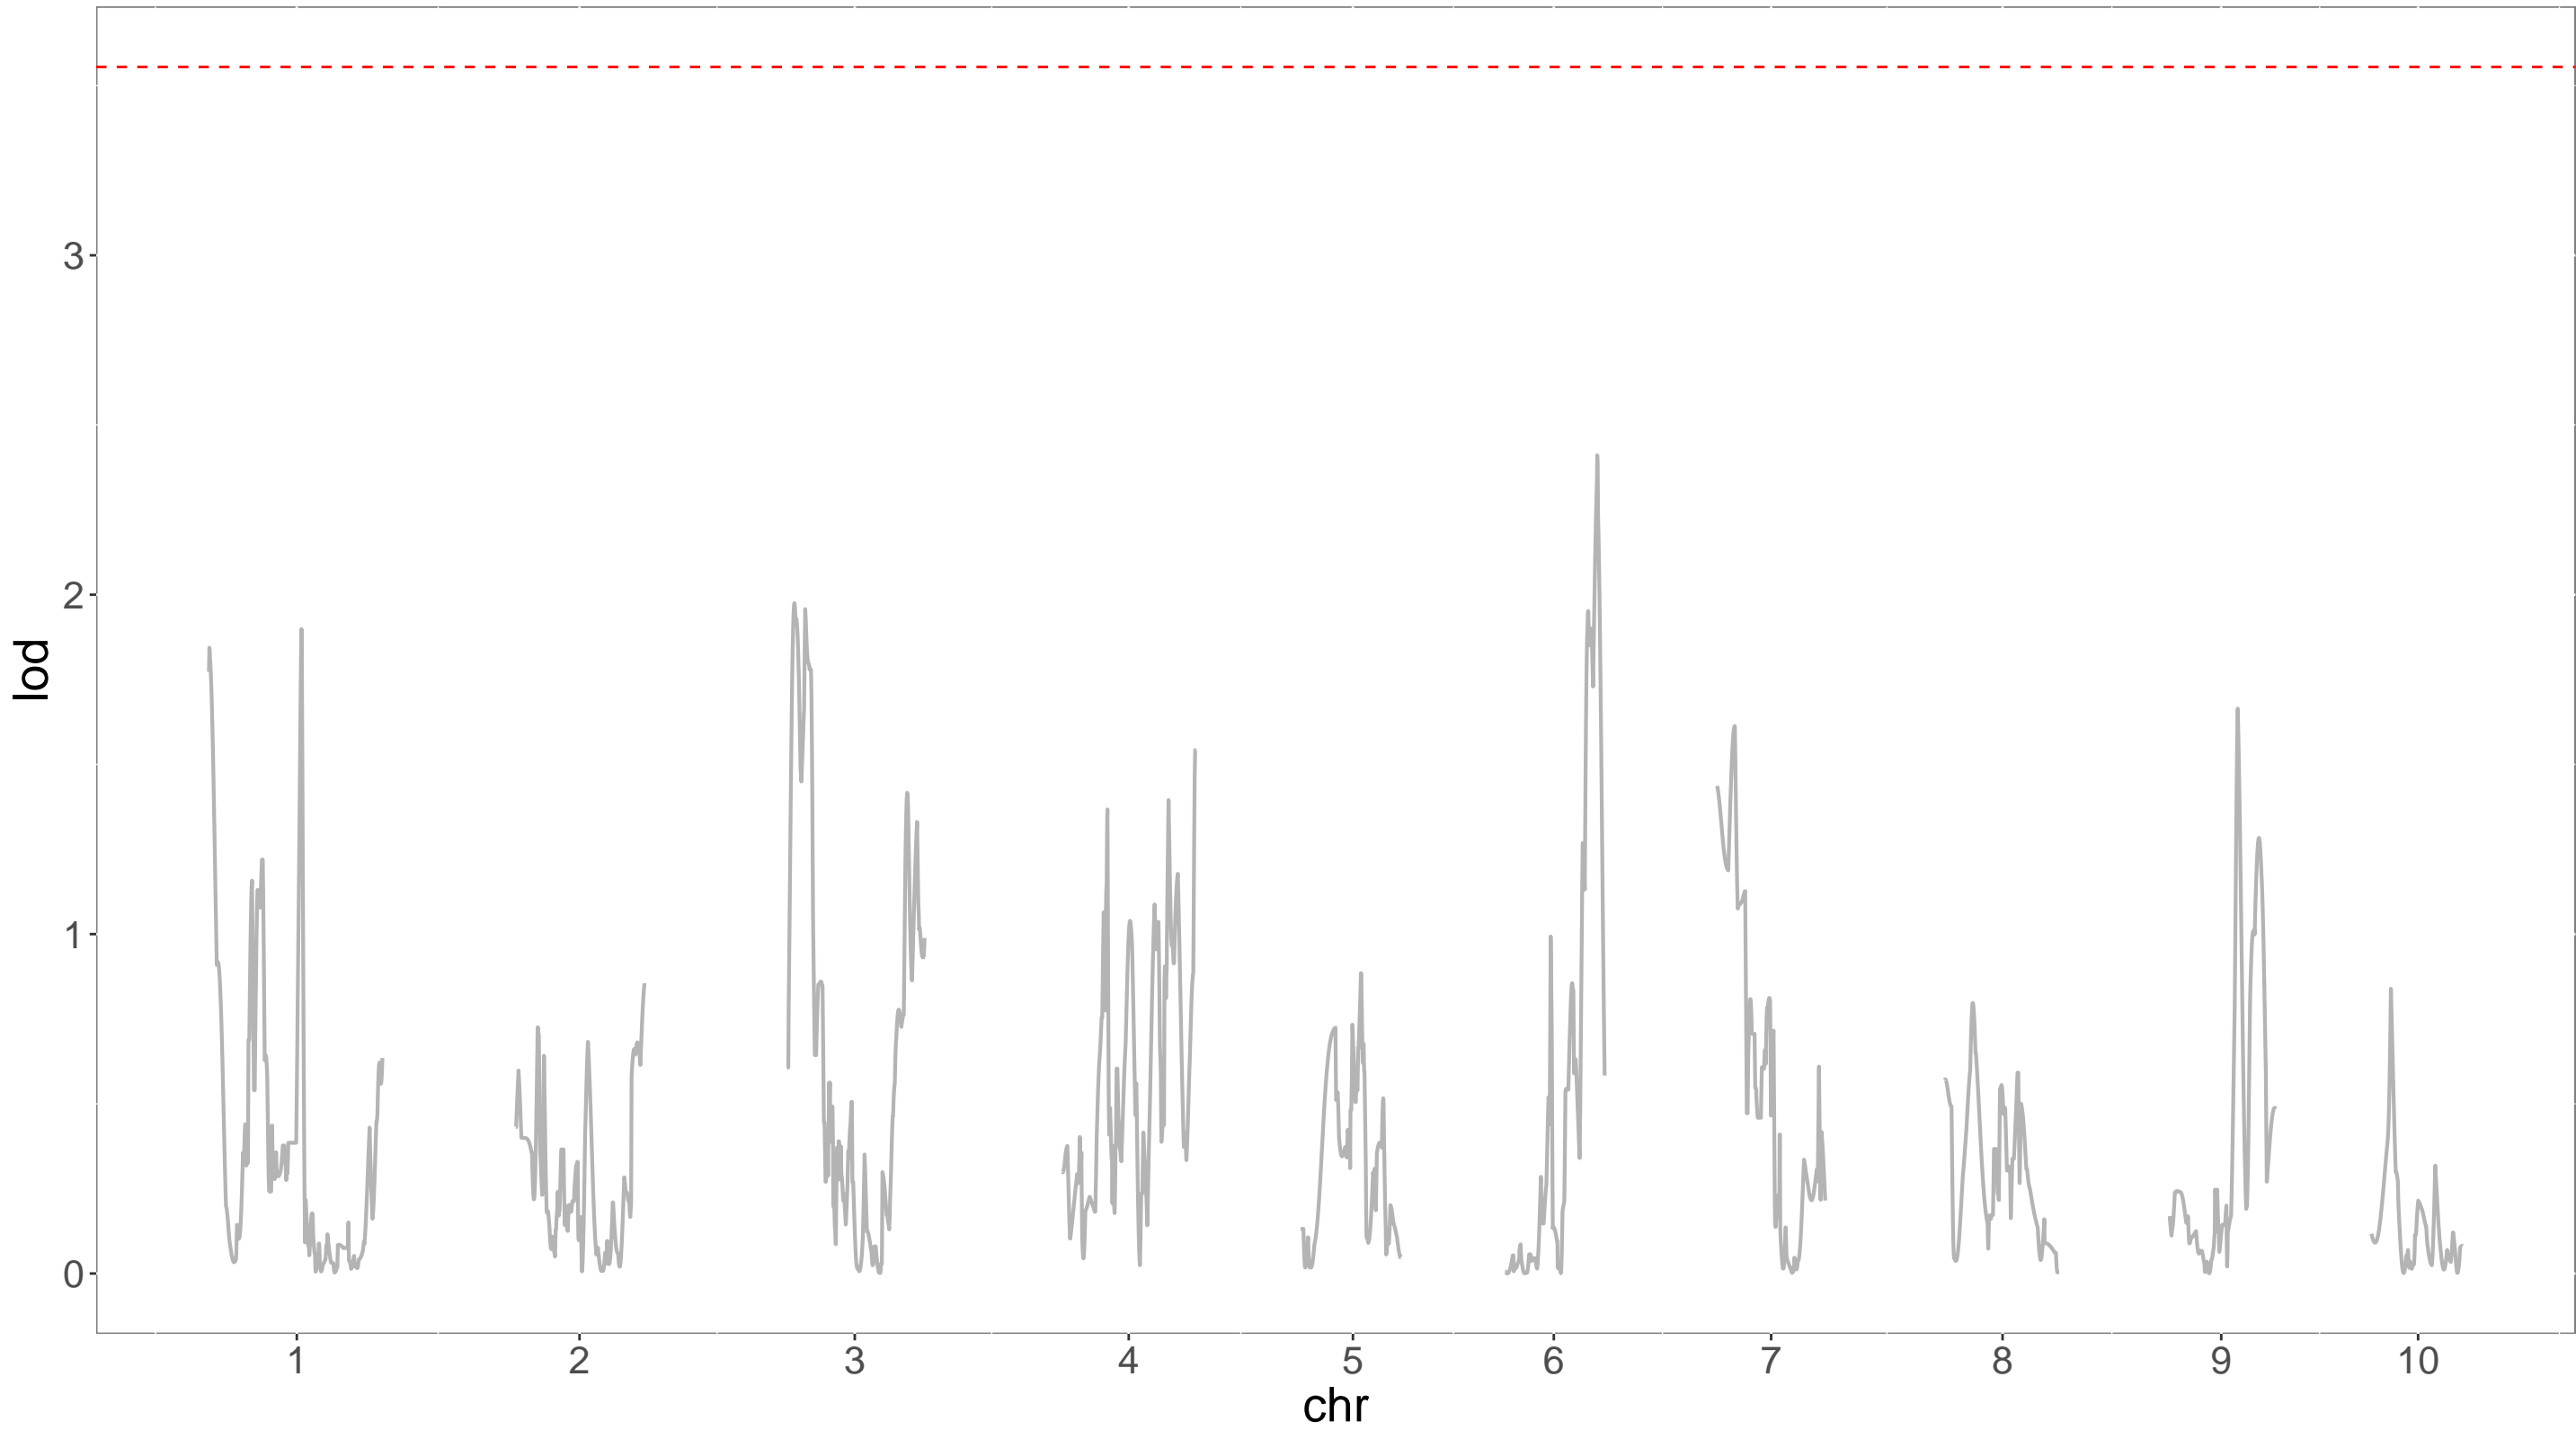

QTL analysis for WT families only for S_leaf

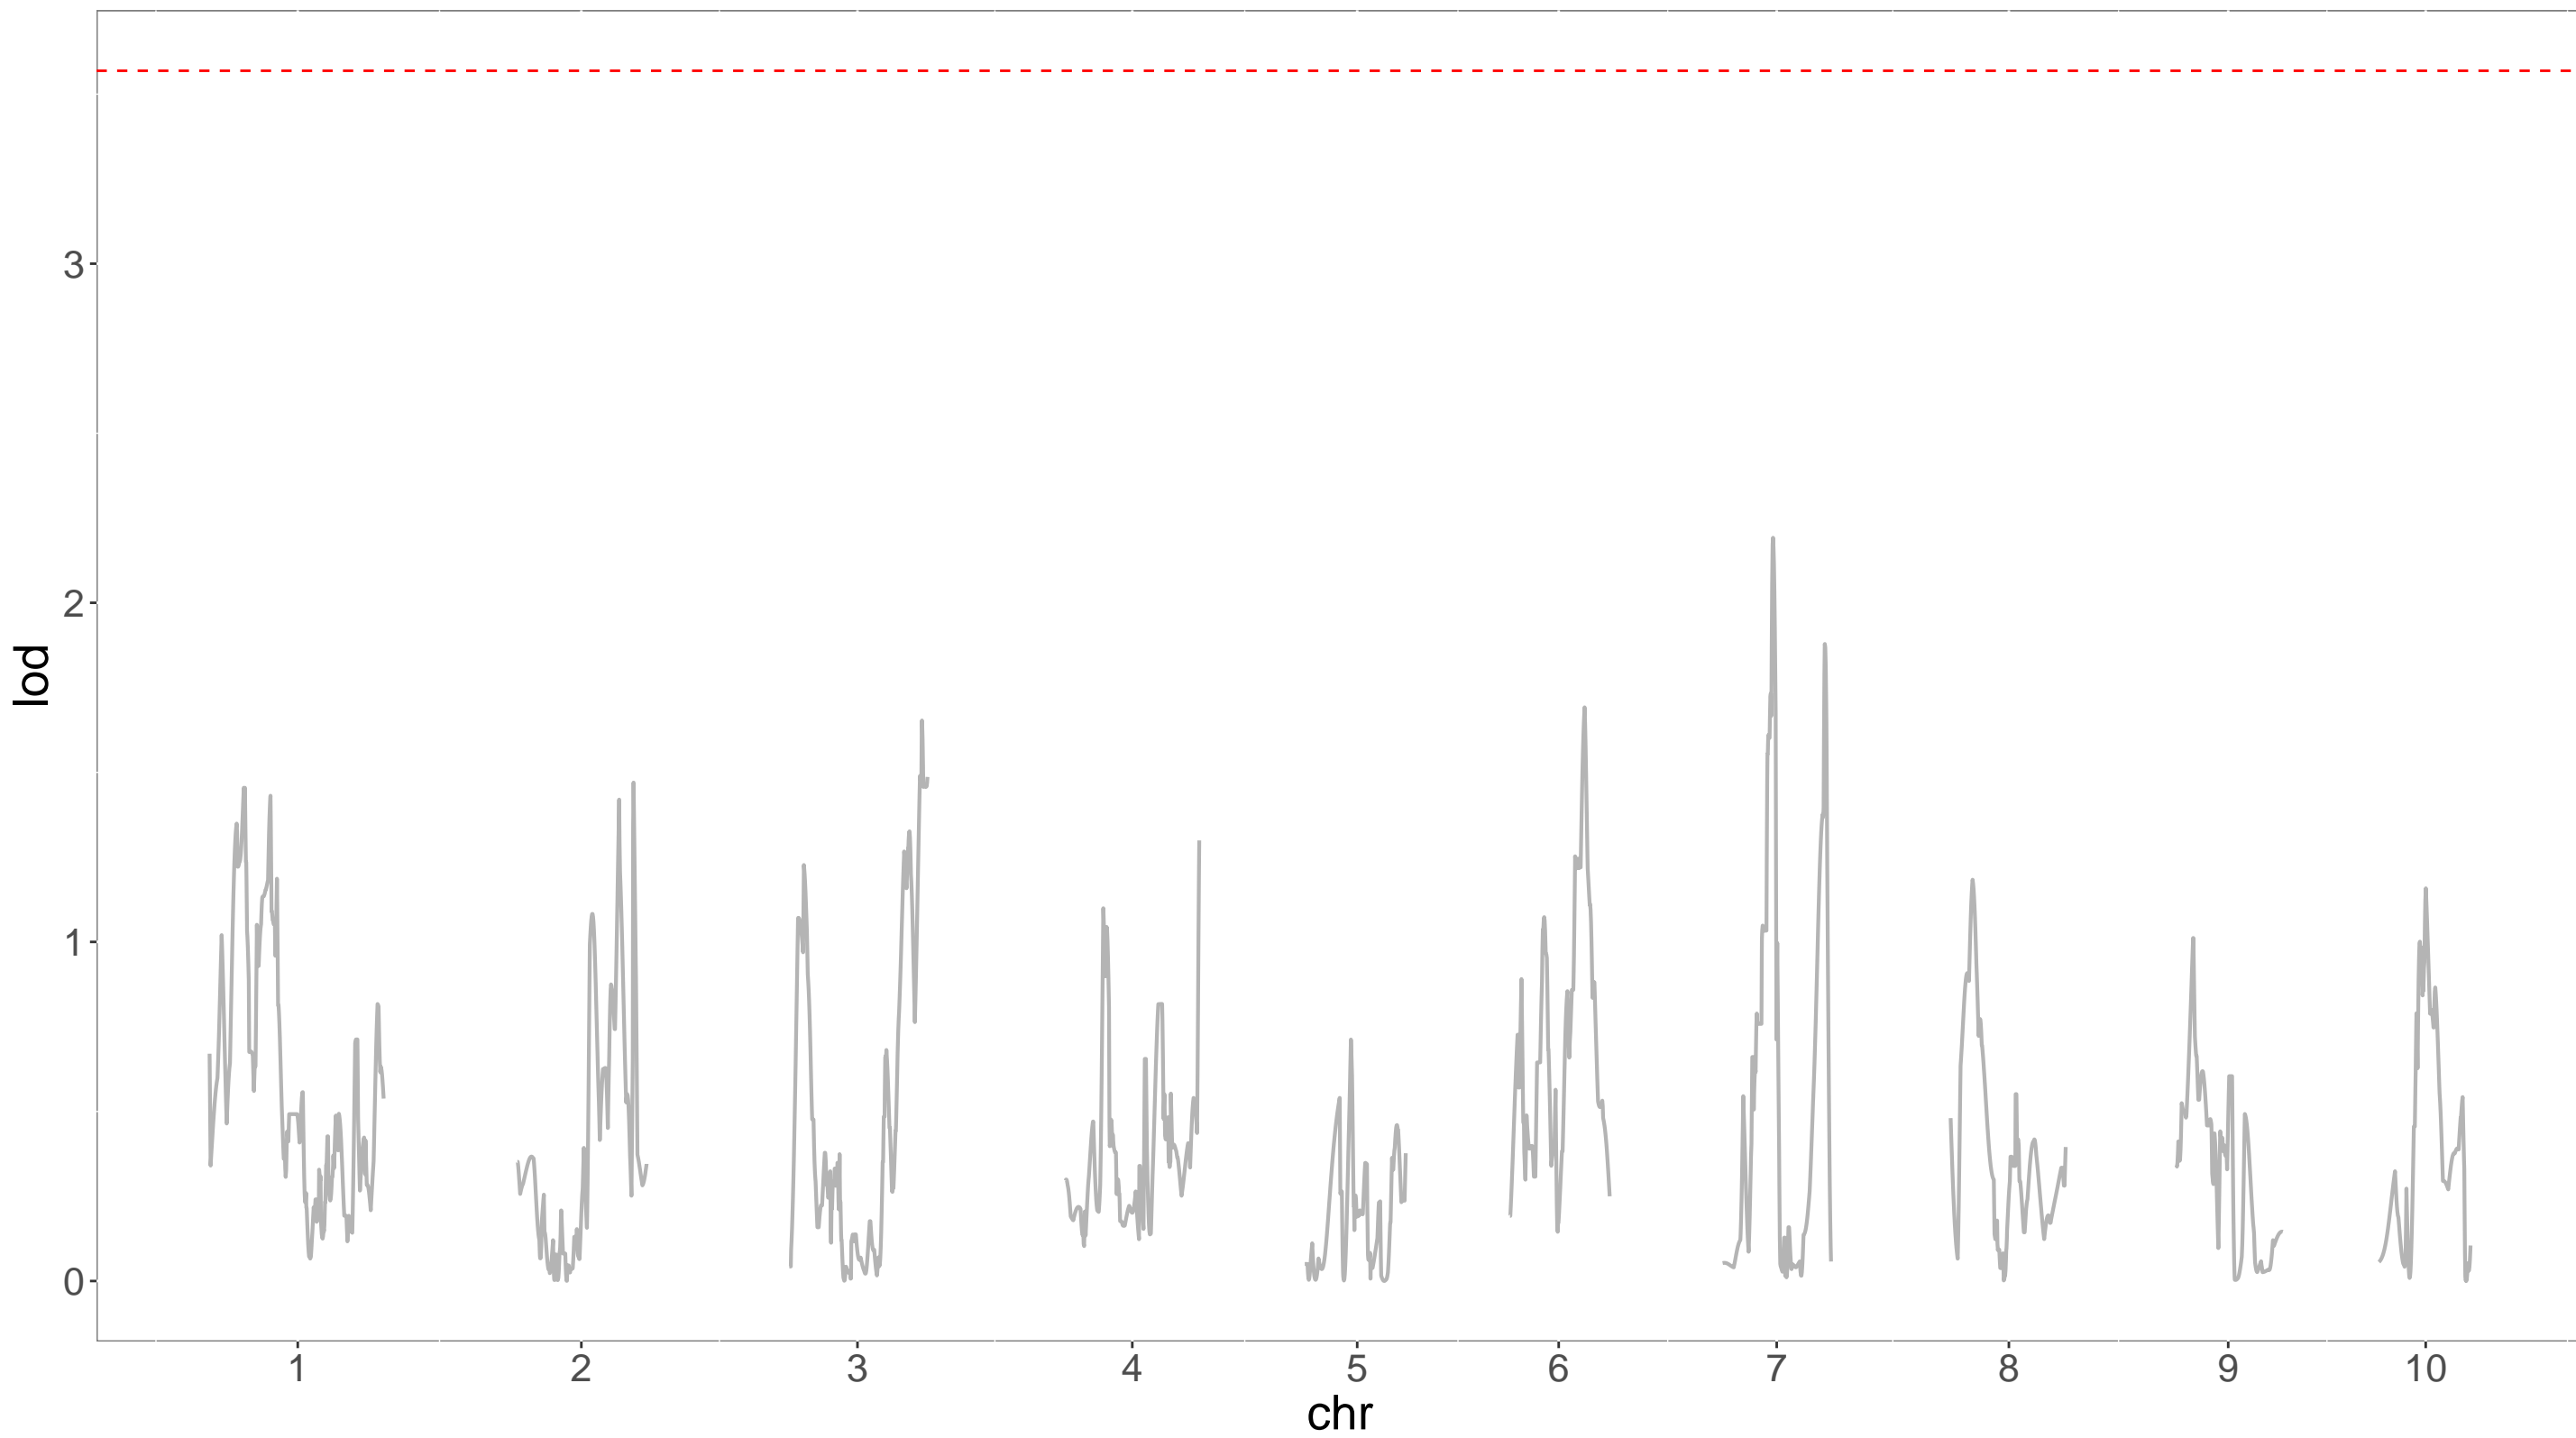

QTL analysis for WT families only for S_seed

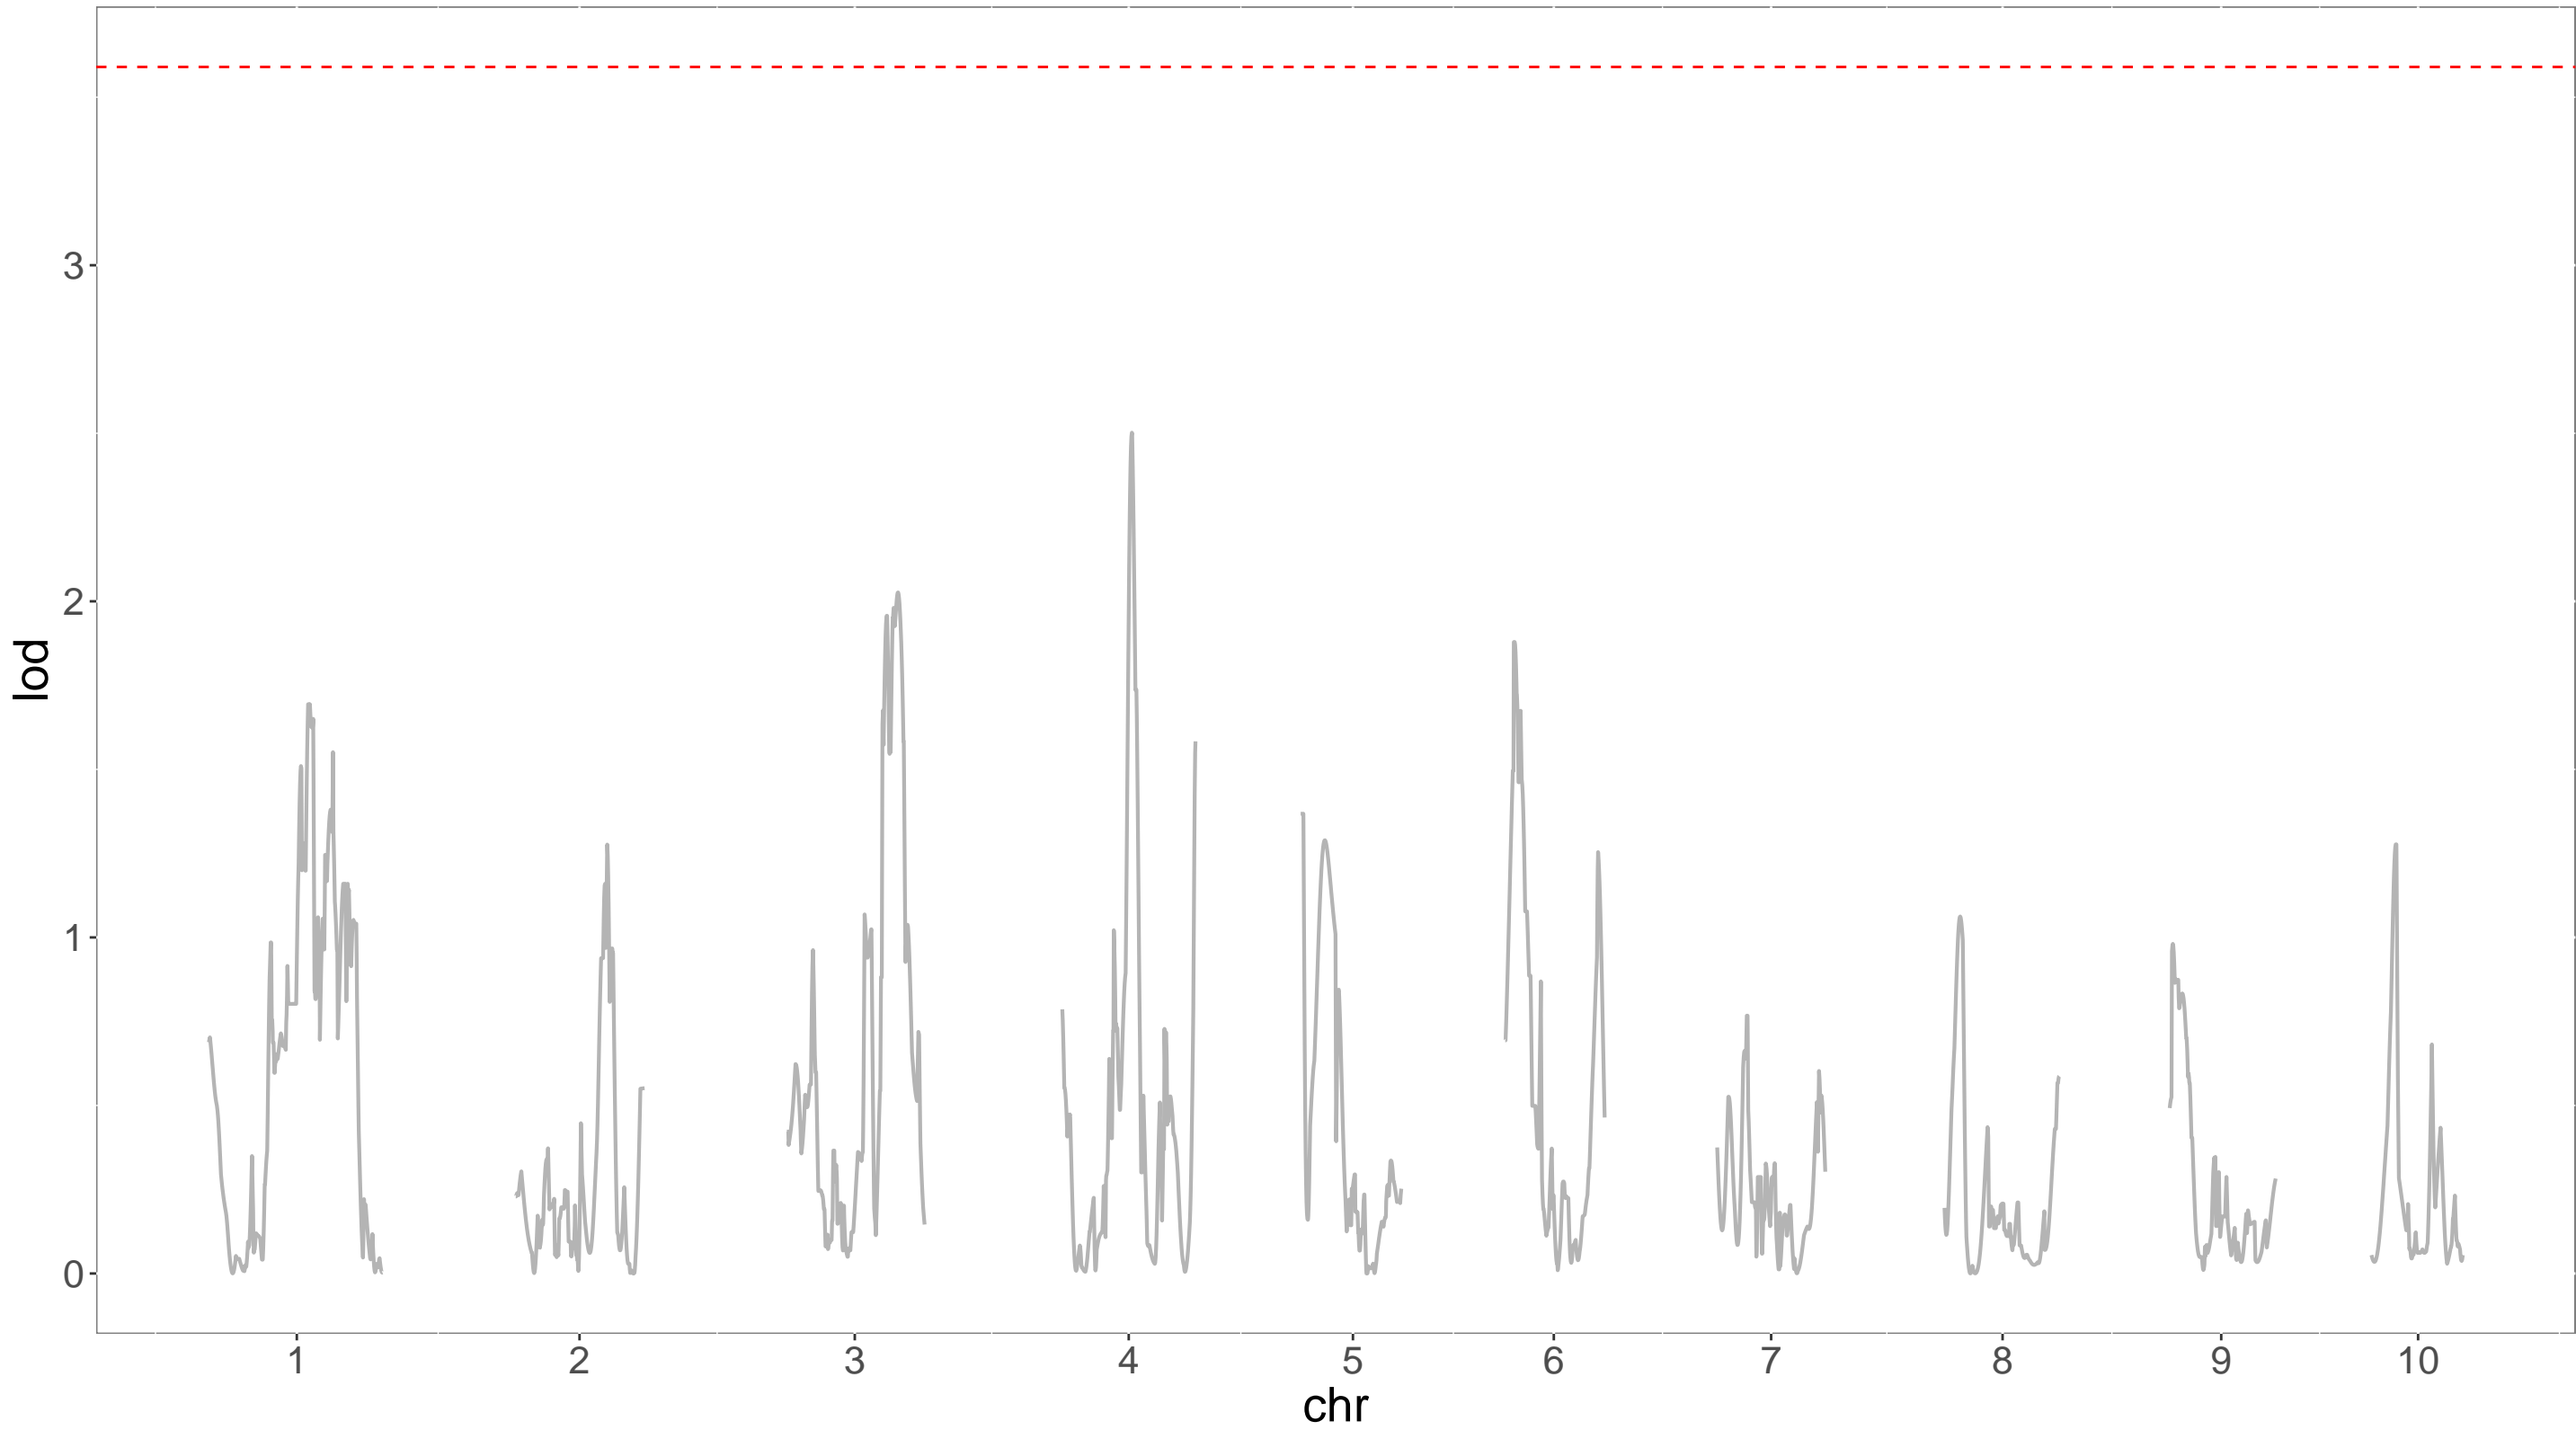

QTL analysis for WT families only for Se_leaf

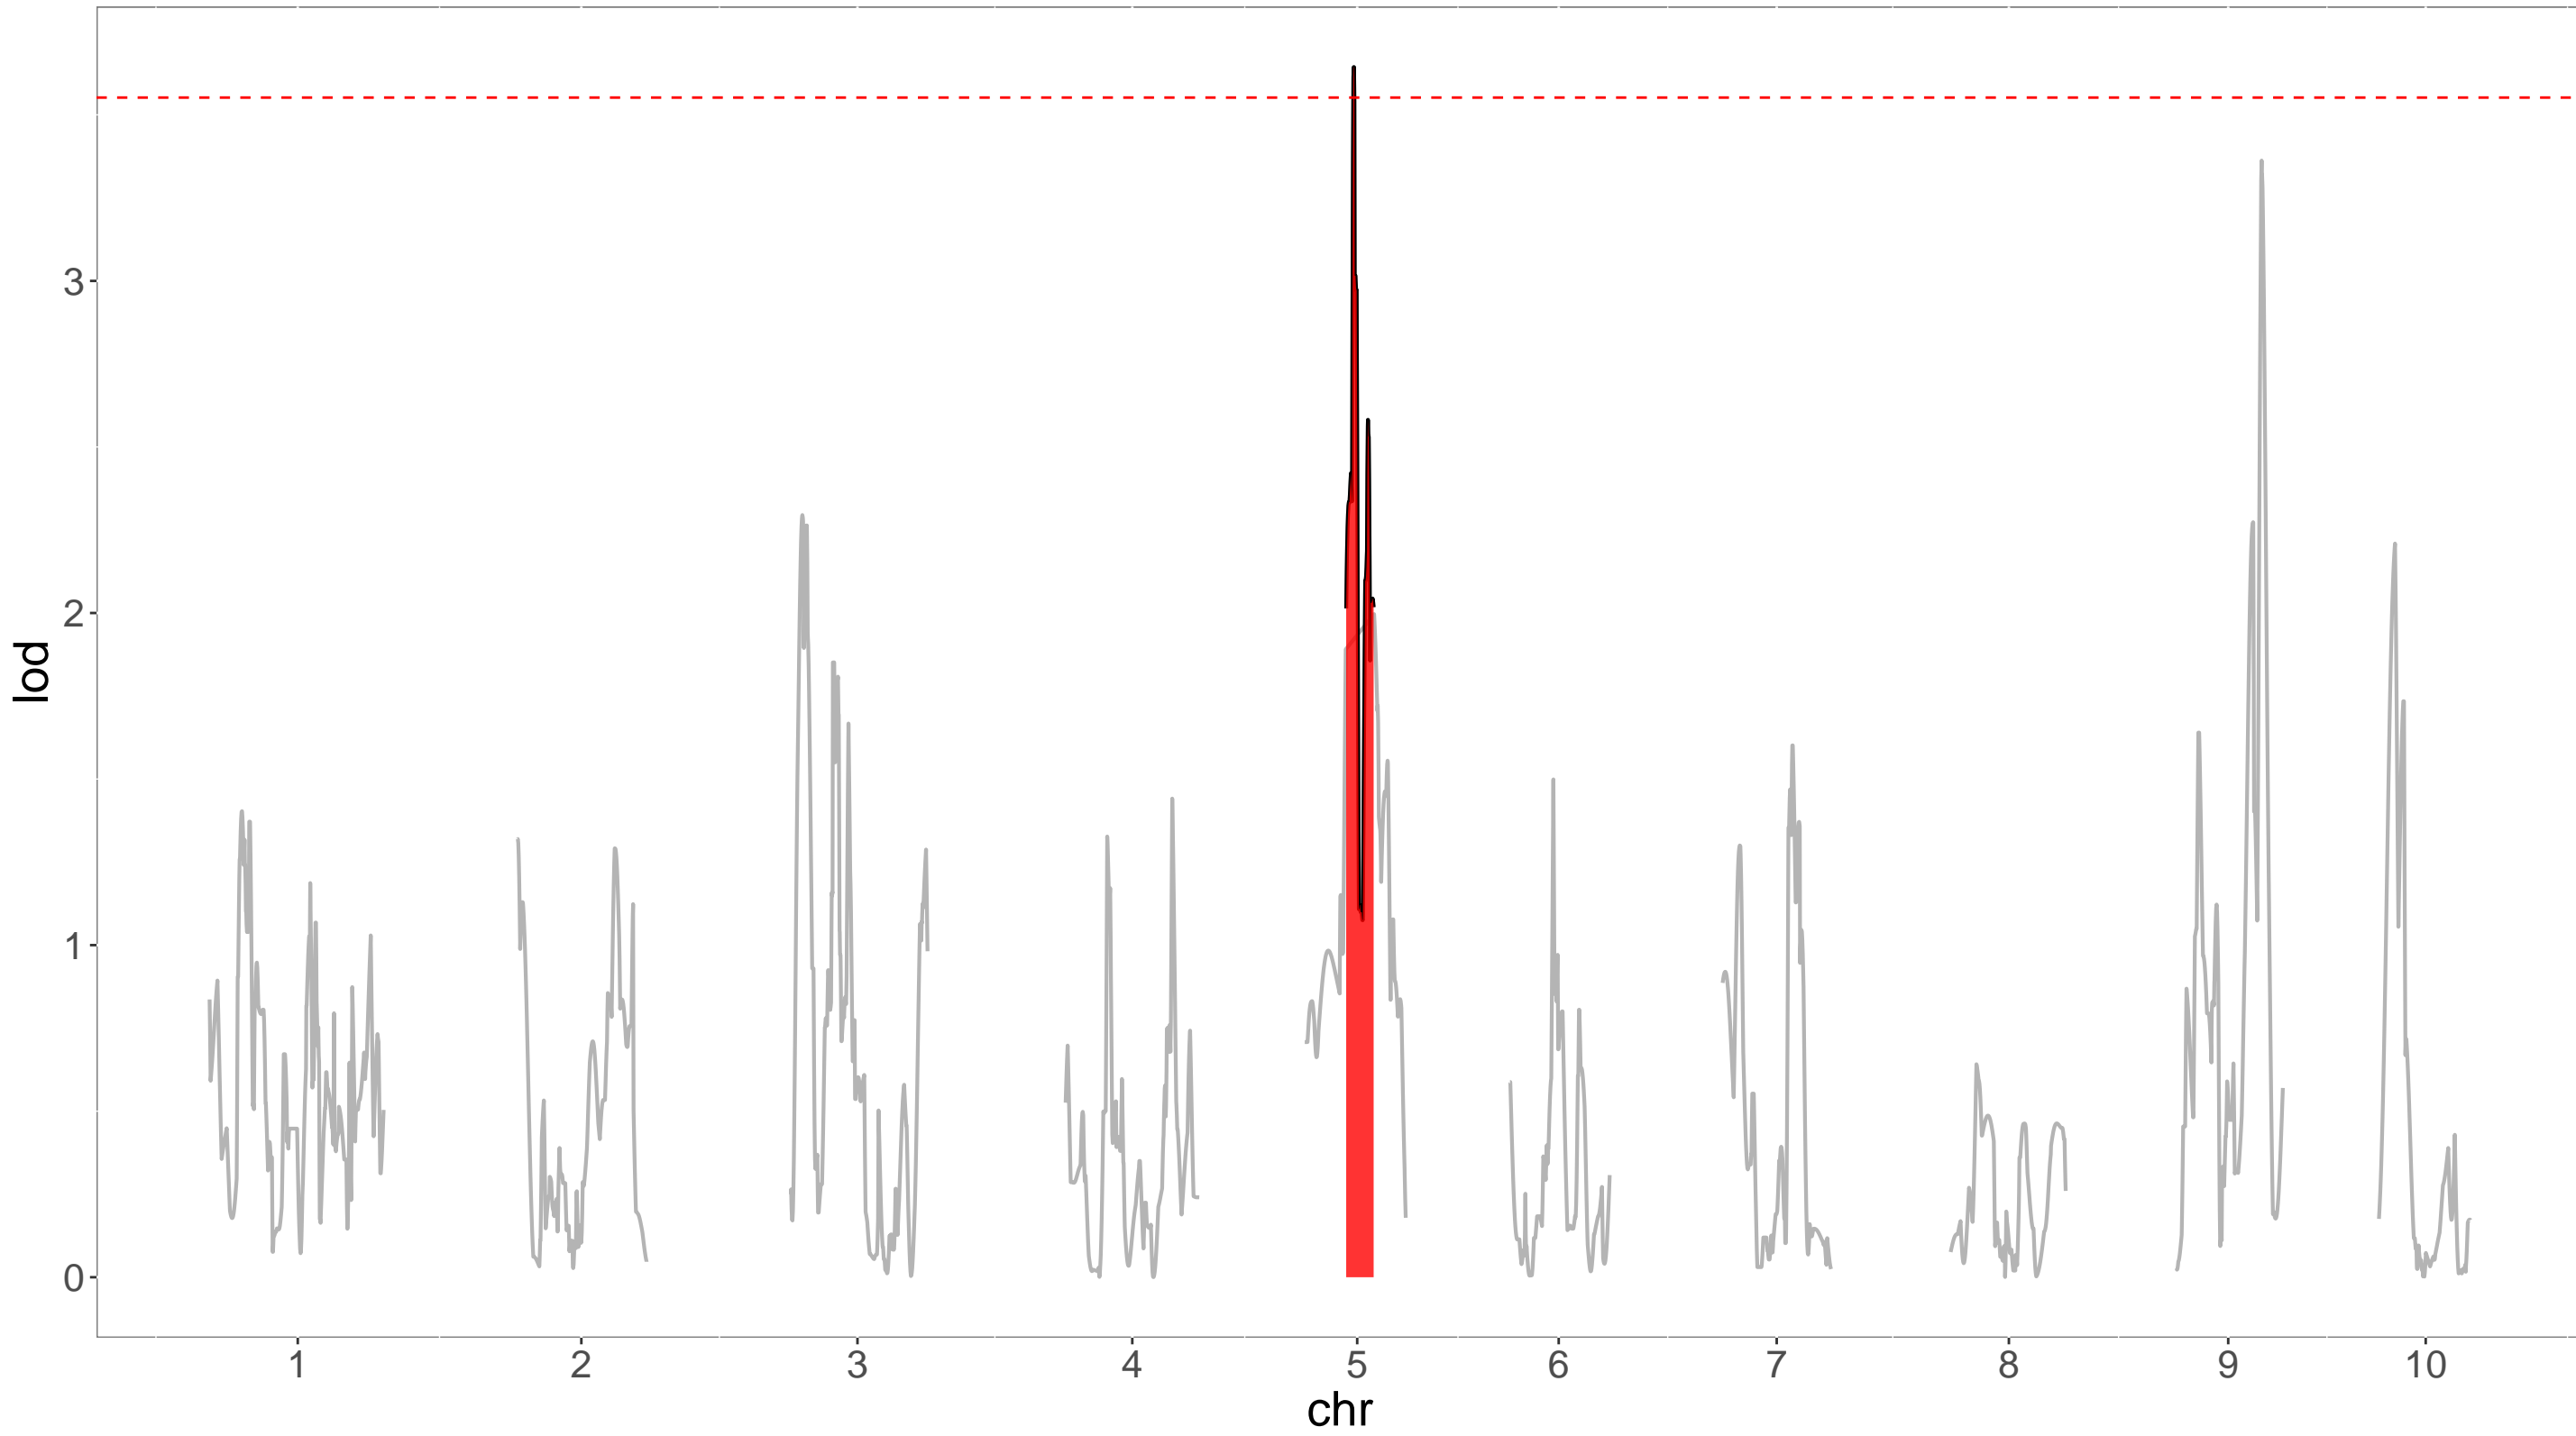

QTL analysis for WT families only for Se_seed

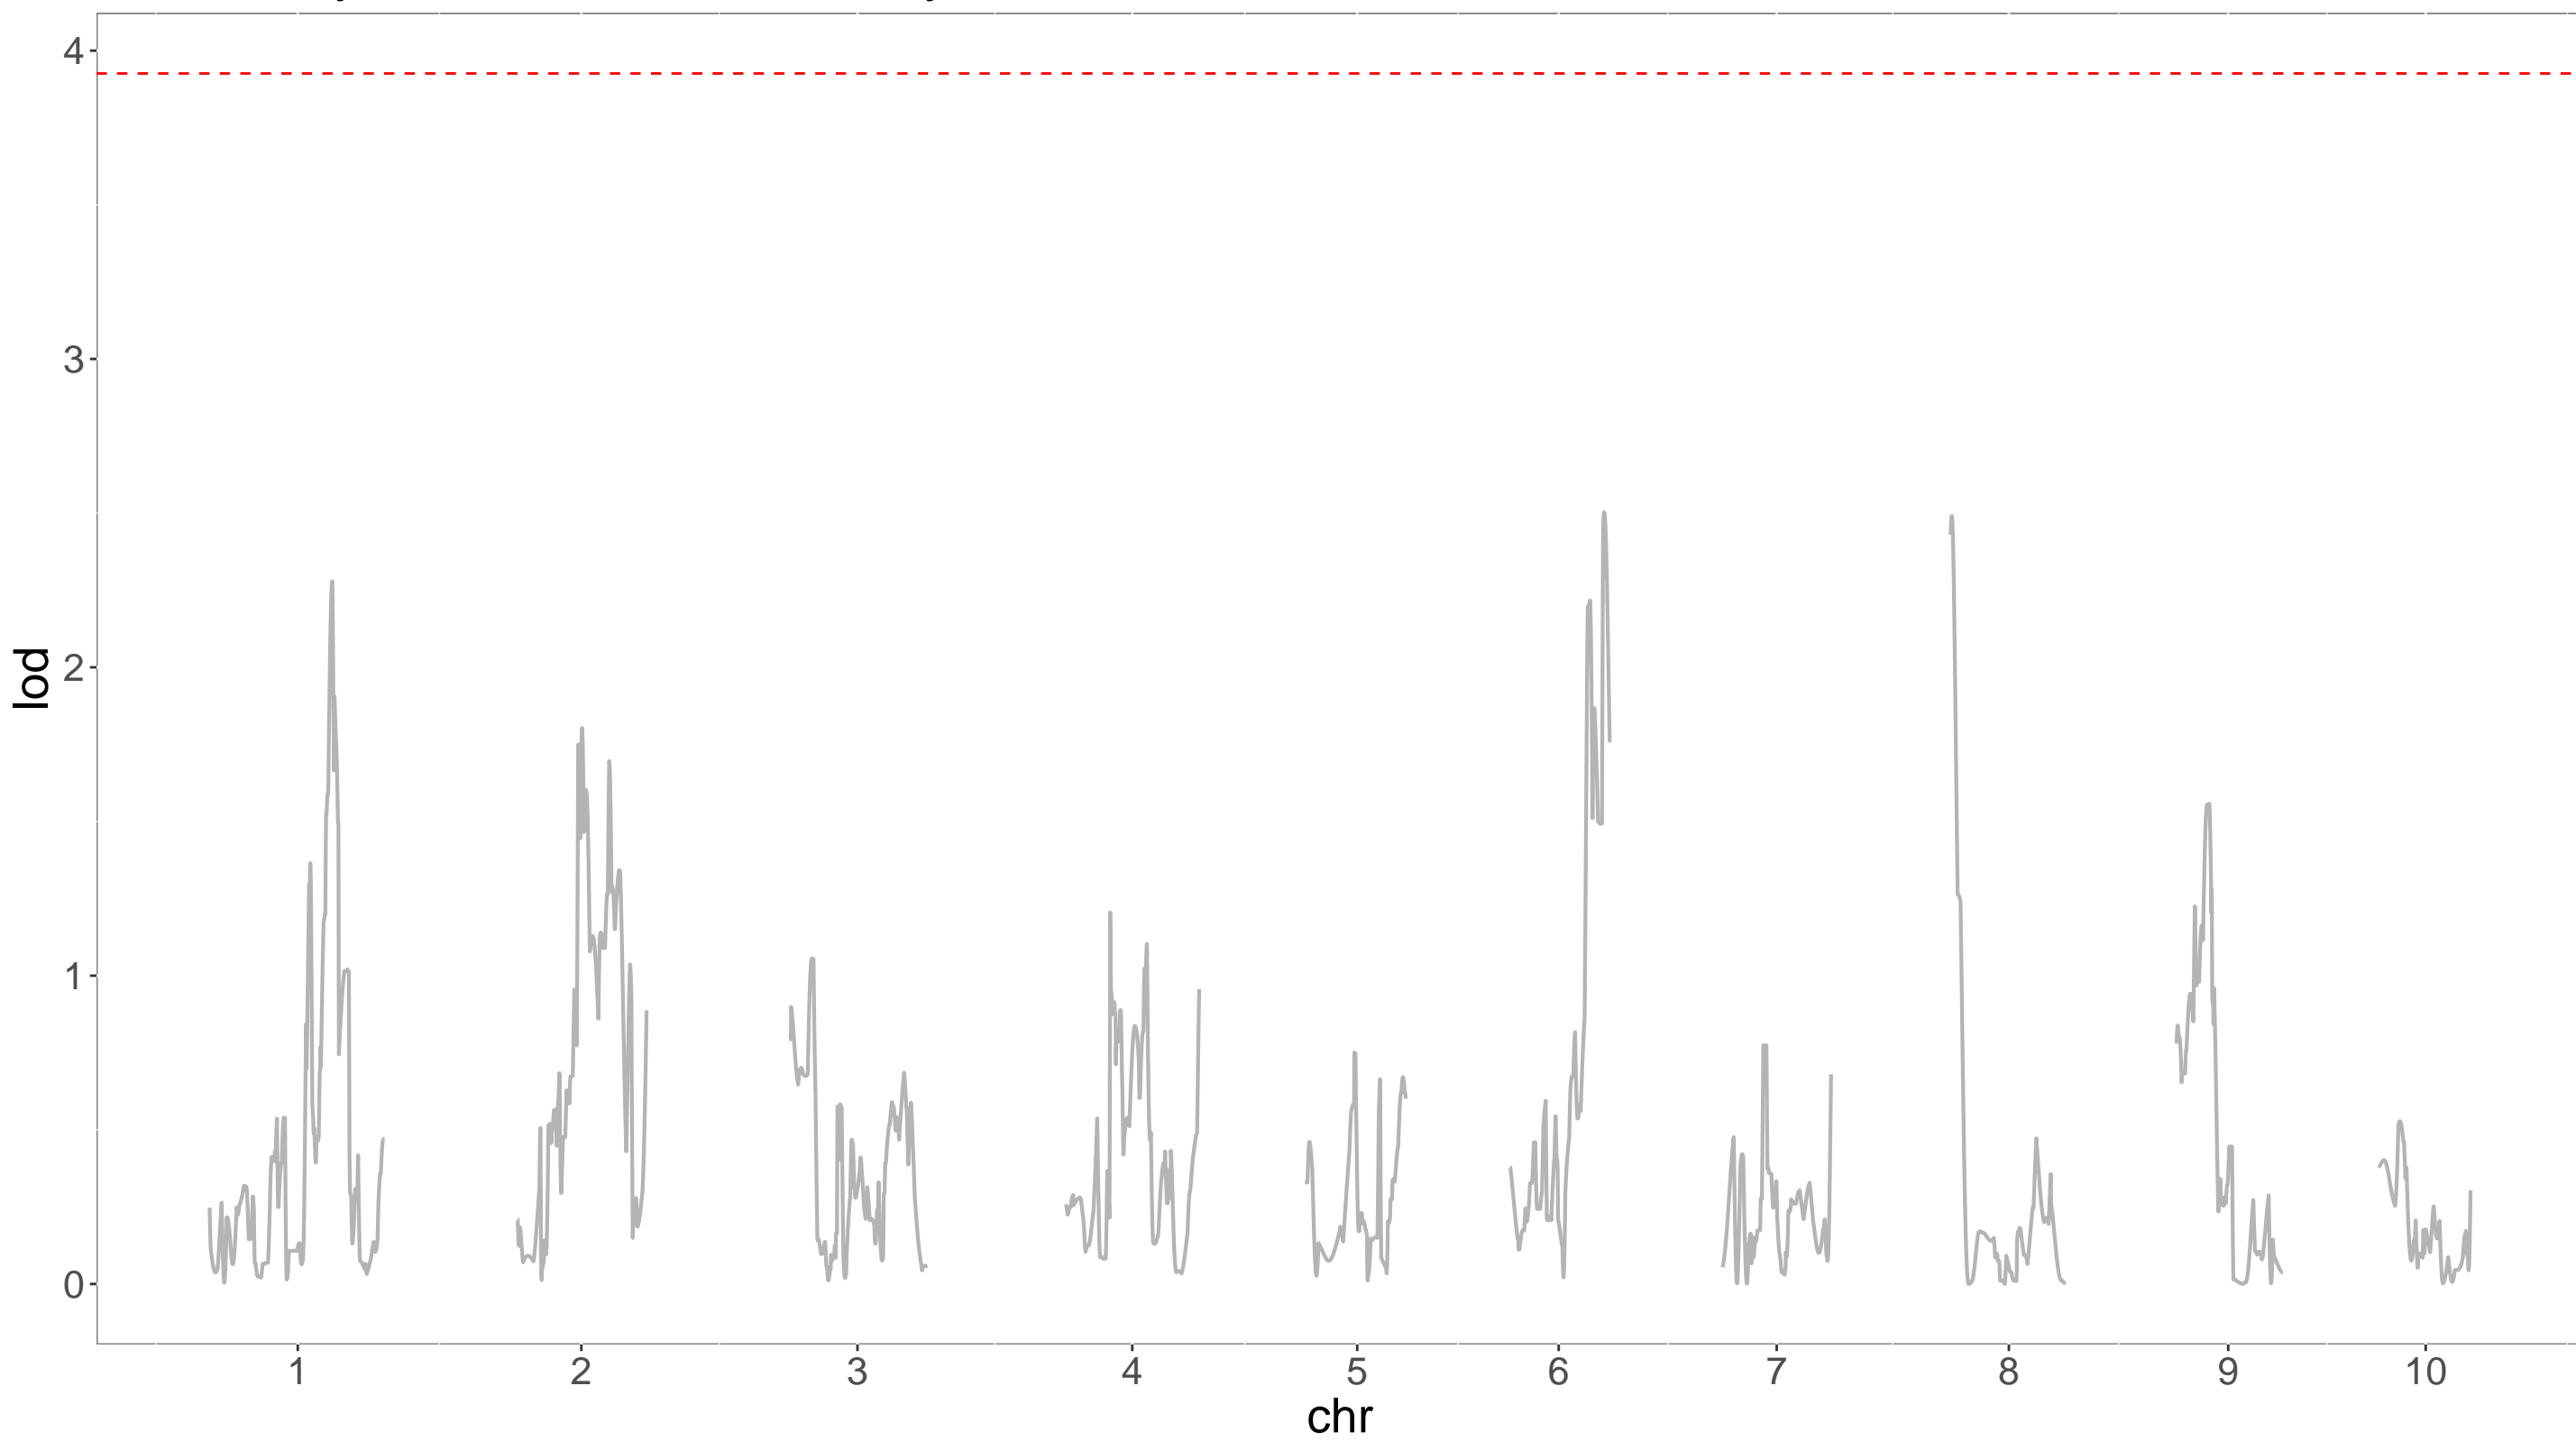

QTL analysis for WT families only for Sr_leaf

QTL analysis for WT families only for Sr_seed

QTL analysis for WT families only for Zn_leaf

QTL analysis for WT families only for Zn_seed
